Due: Beginning of class on the review day for each Exam. (See Course Calendar on the web.)

Find one problem from the suggested study, computer, or review problems that you are having difficulty with. For that problem, write down the following:

1. Page number, problem number, and the actual problem including its instructions (or bring a print out of a computer problem.)
2. Any work you did.
3. If you were able to do the problem, describe what made it hard. If you were unable to solve the problem, explain what you tried. I expect to see phrases like “It looked like Problem ___ on p. ___ which I was able to do but this was different because…” or “I tried ______ but got stuck when…..” “I tried to follow Example ___ on p. ___ but. . . .”

You need to be prepared to put your problem on the board for class discussion.
