On the following pages are descriptions of the course offerings of Tacoma Community College. The specific courses to be offered each quarter will be announced in the online class schedules, which are posted quarterly at the college website.

Courses numbered 1-99 are pre-college-level courses designed to develop skills needed for college work and career training courses. They cannot be applied towards certificate or degree requirements.

Courses numbered 100-299 are college-level courses. They meet the requirements of the degrees of Associate in Arts, Associate in Business and Associate of Science as well as the Associate in Applied Sciences, and Associate in General Studies degrees conferred by TCC. These courses are normally accepted for transfer by four-year colleges and universities in Washington state when they are part of an Associate in Arts, Associate in Business or Associate of Science degree. Students who transfer without one of the approved transfer degrees should not take for granted the transferability of all 100-level or 200-level classes since some of them are vocational courses and apply toward the Applied Sciences degree only.

Courses numbered 299 are reserved for special projects. Such projects are undertaken by individual students upon arrangement with an instructor and the chair of the division in which the course is offered. Credit granted for courses numbered 299 varies with the individual project.

Normally, one credit is given for one 50-minute period of class per week per quarter for lecture classes. Laboratory sections generally require two hours of class per week per quarter for each credit. Credits earned for successfully completing each course are shown in parentheses following the course titles in this section of the catalog.

For current course offerings, check the online class schedule or consult the appropriate division administrator. Class availability is dependent on adequate enrollment.

Common Course Numbering

The Washington Community and Technical College system has adopted common course numbers, prefixes and titles for courses that are equivalent at many two-year colleges. These changes went into effect summer quarter 2008.

The courses and their descriptions have not changed, just the course number and, in some cases, the prefix and/or title. The changes apply to both common courses and non-common courses.

Common courses are identified by an “&” character at the end of the prefix, for example ENGL& or ANTH&.

Developmental Courses

There have been some program-wide course changes with broad significance that we alert you to here. The developmental courses have been re-organized for clarity. See English and Math sections for detailed description of courses and prerequisites.
Course Category Index

Courses at TCC are organized into institutional divisions or categories, each including a related group of subjects. Subject areas and course descriptions in this section of the catalog are listed in alphabetical order for the convenience of readers. Students wishing to learn more about certain courses are urged to talk about those courses with the chair of the division or department through which those courses are offered.

Accounting

ACCT 101 Practical Accounting I (5)
(Formerly ACCT 110) Introduces students to basic accounting concepts and procedures, emphasizing sole proprietors. Topics include analysis of business transactions and completion of the accounting cycle, including preparation of financial statements. Students will be introduced to computers.
Prerequisite: MATH 085 with a minimum grade of C or placement at MATH 090 or higher. Recommended: READ 095 and concurrent or prior enrollment in CU 103 or CU 105.

ACCT 102 Practical Accounting II (5)
(Formerly ACCT 120) A continuation of financial accounting topics including an introduction to accounting for partnerships. Students will be encouraged to complete assignments using the computer.
Prerequisite: ACCT 101 or ACCT& 201 with a minimum grade of C or instructor permission.

ACCT 103 Accounting for Decision Makers (5)
(formerly ACCT 130) An accounting class from the user’s perspective, this class will review the accounting cycle, with some attention directed toward procedures and techniques. The major emphasis is on the content of accounting reports, and the interpretation and possible uses of this information.
Prerequisite: ACCT 102 or ACCT& 202 with a minimum grade of C or instructor permission.

ACCT 145 Payroll and Business Taxes (5)
(Formerly ACCNT 145) Reviews state and federal laws and regulations on payroll computations, deductions and other business taxes.
Prerequisite: BUS 110 with a minimum grade of C or Math 147; and ACCT& 201 with a minimum grade of C or instructor permission.

ACCT 165 Accounting with Sage (5)
Introduction to automated accounting methods using Sage. Sage is used to examine the complete accounting cycle. The course focuses on technical skills behind the screens and soft skills needed in an accounting department.
Prerequisite: CU 103 or CU 105, and either ACCT 102 or ACCT& 202; or instructor permission.
Accounting

ACCT 175  Accounting with QuickBooks  (5)  
(Formerly ACCT-175) Introduction to automated accounting methods using QuickBooks. QuickBooks is used to examine the complete accounting cycle. Includes analysis, demonstration, exporting, importing and hands-on experience using the general ledger, accounts payable, accounts receivable and payroll modules.  
Prerequisite: ACCT 102 or ACCT& 202 with a minimum grade of C or instructor permission.  
Recommended: ACCT 165.

ACCT& 201  Principles of Accounting I  (5)  
(Formerly ACCNT-210) Emphasis is on the development and interpretation of financial statements: the balance sheet, income statement and the statement of equity.  
Prerequisite: ACCT 101 with a minimum grade of C or MATH 095 with a minimum grade of C or equivalent.

ACCT& 202  Principles of Accounting II  (5)  
(Formerly ACCNT-220) ACCT&-202 is a continuation of ACCT&-201. Introduces accounting for long-term debt and investments. Examines the measuring and reporting of Stockholders’ Equity and consolidated statements. Re-emphasizes the preparation of the Statement of Cash Flows. Introduction to methods used to interpret financial statements.  
Prerequisite: ACCT& 201 with a minimum grade of C.

ACCT& 203  Principles of Accounting III  (5)  
(Formerly ACCNT-230) Introduction to cost concepts such as cost-volume-profit analysis and the budgeting process. Examines methods to determine product costs of a manufacturing business and the methods employed to control costs, such as the use of the standard cost system.  
Prerequisite: ACCT& 201 with a minimum grade of C.

ACCT 250  Federal Income Tax  (5)  
(Formerly ACCT-250) Federal income tax for the layman, accounting student, working accountant/bookkeeper and small business owner, with special emphasis on tax issues affecting individuals.  
Prerequisite: ACCT 101 or ACCT& 201 with a minimum grade of C or instructor permission.

ACCT 290  Work Internship  (5)  
(Formerly ACCNT-290) During one quarter of the sophomore year, students can receive college credits for hands-on accounting work experience and training in a private or public sector organization.  
Prerequisite: Program Chair permission.

ACCT 299  Independent Study & Special Projects  (1)  
(Formerly ACCNT-299) Study on an individual basis.  
Prerequisite: Program Chair permission.

Anthropology

ANTH& 100  Survey of Anthropology  (5)  
(Formerly ANTHR-100) A survey of the subfields of physical anthropology, archaeology, anthropological linguistics and sociocultural anthropology through the examination of selected problems in human biological and cultural evolution. An introduction to the discipline of anthropology that asks what it means to be human. Multicultural content  
Prerequisite: Completion of ENGL 095 and READ 095 or ENGL/ 095 with a minimum grade of C or assessment at college-level reading and writing.

ANTH& 204  Archaeology  (5)  
(Formerly ANTHR-205) Introduction to the study of the prehistory of humankind as revealed by material remains. Covers excavation techniques, analyzing and dating artifacts, and a survey of world prehistory from the beginning of culture to the appearance of writing.  
Prerequisite: ENGL& 101 with a minimum grade of C or concurrent enrollment.

ANTH& 205  Biological Anthropology  (5)  
(Formerly ANTHR-201) Study of the origins and adaptations of the human species. An examination of the fossil record and living populations of monkeys, apes and humans.  
Prerequisite: ENGL& 101 with a minimum grade of C or concurrent enrollment.

ANTH& 206  Cultural Anthropology  (5)  
(Formerly ANTHR-202) An analysis of the social and cultural variation of humankind. Comparison of how various western and non-western peoples live. Multicultural content  
Prerequisite: ENGL& 101 with a minimum grade of C or concurrent enrollment.

ANTH& 207  Linguistic Anthropology  (5)  
(Formerly ANTHR-203) Introduction to linguistic methods and theories used within anthropology. Topics include the structure of language, anatomy and evolution of language, the relationship between language and culture, the study of language variation and of language change. The linguistic database in the course is both historical and cross-cultural. Multicultural content  
Prerequisite: ENGL& 101 with a minimum grade of C or concurrent enrollment.
Anthropology

ANTH& 210 Indians of North America (5)  
(Formerly ANTHR-210) An examination of the diversity of cultures among the Indians of North America, this course is an ethnographic survey of Native American societies before European contact and includes discussion of contemporary issues. (multicultural content)  
Prerequisite: ENGL& 101 with a minimum grade of C or concurrent enrollment.

ANTH 220 Ethnographies of American Cultures (5)  
(Formerly ANTHR-207) This course focuses on the diversity of cultural perspectives within the United States. In-depth examinations of two or more cultures will include exploring the ways in which people from minority cultural perspectives cope with some of the central ideals and expectations of the dominant culture. (multicultural content)  
Prerequisite: ENGL& 101 with a minimum grade of C or concurrent enrollment; and completion of one of the following: ANTH& 100 or ANTH& 206 or ANTH& 207 or ANTH& 210 or SOC& 101.

ANTH& 237 Human Osteology (5)  
(Formerly ANTHR-280) An introduction to the comparative study of human and other mammalian skeletons as used for identification in forensic and biological anthropology. The course explores various methods of identifying human skeletons (from others) including bone form, age, sex, and state at death. Other topics include dental analyses, bone formation, and preservation.  
Prerequisite: ENGL& 101 with a minimum grade of C or concurrent enrollment.  
Recommended Preparation: ANTH& 205 or BIOL& 100 or BIOL& 175.

ANTH& 245 Primatology (5)  
(Formerly ANTHR-270) Examines the origins and evolutionary trends of primates, from modern relationships to growth, development, and behavioral adaptations. Course also covers primate ecology and conservation. Uses lectures, multimedia, and readings to compare and contrast the major groups of non-human primates and consider their relationships to humans. Course will provide perspective on the status of endangered species with whom we may share a future as well as a past. Field trips included.  
Prerequisite: ENGL& 101 with a minimum grade of C or concurrent enrollment.  
Recommended Preparation: ANTH& 205 or BIOL& 100.

ANTH 299 Independent Study (1)  
A variable credit (1-5) course based on independent study contracted between an instructor and a student. The independent study will provide students an opportunity to pursue an anthropological area of interest in depth beyond what regular courses can provide. The emphasis may be field research, scholarly research, or a combination.  
Prerequisite: ANTH& 100 with a minimum grade of B+, Instructor permission and a written contract between the instructor, student and instructional administrator, describing the nature and method of the independent study.

Arabic

The basic tenets of communications including reading, writing, speaking and listening are developed in a dynamic second language acquisition environment enhanced by technology.

Grammar is used as a communication tool to express meaning as students take part in small group discussions, cultural investigation, and presentation. Authentic materials will be focused on in the class as well as assessment. Students should expect to be immersed in the language. English will be used at a minimum.

ARAB 121 Arabic I (5)  
The first quarter of the beginning Arabic language sequence of 121, 122, and 123. (multicultural content)  
Prerequisite: ENGL/ 095 with a minimum grade of C or equivalent or instructor permission.

ARAB 122 Arabic II (5)  
ARAB-122 is the second quarter of the first-year language sequence and continues to build on the skills acquired in ARAB-121. (multicultural content)  
Prerequisite: ARAB 121 with a minimum grade of C or instructor permission.

ARAB 123 Arabic III (5)  
ARAB-123 is the third quarter of the first-year language sequence and continues to build on the skills acquired in ARAB-122. (multicultural content)  
Prerequisite: ARAB 122 with a minimum grade of C or instructor permission.
Art

The following courses are designed for students who wish to explore one or more areas of art. They are beginning studio courses and have no prerequisites. Note: Five credits of studio courses may be used as distribution credit for the A.A.S. degree.

- ART 101 Art Basics
- ART 102 Two-Dimensional Design
- ART 103 Three-Dimensional Design
- ART 105 Beginning Drawing
- ART 131 Beginning Ceramics
- ART 140 Beginning Photography
- ART 150 Beginning Printmaking
- ART 156 Beginning Painting
- ART 172 Beginning Sculpture

The following are lecture-oriented courses recommended for Humanities distribution requirements. They have no prerequisites.

- ART& 100 Art Appreciation
- ART 201 History of Western Art: Ancient
- ART 202 History of Western Art: Medieval and Renaissance
- ART 203 History of Western Art: Baroque through Modern

Students who are interested in an art-related vocation should initially concentrate on basic design and drawing courses (ART 102, 103, 105). These form the foundation for the advanced art courses offered at TCC. Some of the courses listed in the catalog are offered on a limited basis once a year, every other year, etc. Contact the Art Department for help in planning your program. Students who plan to transfer should check the requirements of the college or university of their choice.

In painting, drawing and sculpture courses, the human form is a subject of study. The human model, sometimes in the nude, may be incorporated into these studies. Any student enrolled in one of these courses who may object, for whatever reason, to study of the nude model may arrange for optional studies with the instructor of that course.

The college reserves the right to temporarily retain for exhibit or photographing any student work submitted for credit.

ART 100 Art Appreciation (5)
(Formerly ART-100) An introduction to understanding and appreciating the visual arts (fine arts, crafts, architecture, and new media) from a global perspective. Designed for non-art majors. A variety of learning approaches include lectures, slides, videos, guest artists, field trips, demonstrations, and hands-on participation. (multicultural content)

ART 102 Two-Dimensional Design (5)
The organization of visual elements (line, shape, texture, color) as applied in a variety of two-dimensional design media. Recommend prior to Graphic Design, Photography, and Painting classes. Performance/skills course.

ART 103 Three-Dimensional Design (5)
Using a series of progressive projects, involving wood, wire, and paper, students will learn the basic elements and principles of design and apply them to three-dimensional space. Organization of visual design elements will be applied to a variety of construction processes to create aesthetically pleasing sculptural designs. Performance/skills course.

ART 105 Beginning Drawing (5)
Foundation in drawing from observation. Emphasis on composition, perspective, and form through various drawing techniques and media. Performance/skills course.

ART 106 Advanced Drawing (5)
Further development of drawing skills with emphasis on composition, new media, and visual communication concepts. Performance/skills course. 
Prerequisite: ART 105.

ART 110 Beginning Graphic Design (5)
An introduction to a visual structure concept using two-dimensional design. The beginning course will cover composition, color theory, typography and layout. Computer technology will be used to explore the use of these design elements as required for specific projects with traditional methods to communicate the practical design form. Performance/skills course.

ART 111 Intermediate Graphic Design (5)
An intermediate course furthering understanding of visual structure using concepts of two-dimensional design. This course will cover intermediate concepts in composition, color theory, typography and layout. Computer technology will be used to create design elements as required for specific projects with traditional methods to communicate the design form. Performance/skills course. 
Prerequisite: ART 110

ART 131 Beginning Ceramics (5)
Introduction to creating ceramic forms using hand-building and wheel-throwing techniques. Student will learn the basic forming methods employed in making ceramic forms, and basic glazing and decorating techniques will be covered. Performance/skills course.

ART 132 Intermediate Ceramics I (5)
An intermediate course creating ceramic forms using hand-building and wheel-throwing techniques. Student will learn the intermediate forming methods employed in making ceramic forms, glazing and decorating techniques will be covered. Performance/skills course.

Prerequisite: ART 131. Recommended: ART 102, ART 103 and ART 105.
ART 133 Intermediate Ceramics II (5)
Further development of ceramic techniques: hand-built and/or wheel-thrown forming techniques, more advanced glazing and decorative techniques. Theory and practice in kiln loading and firing will be covered as part of ART-133. Performance/skills course. Prerequisite: ART 132 and ART 102, or ART 103, or ART 105. Recommended: ART 102, ART 103 and ART 105.

ART 146 Beginning Photography (5)
Basic black & white photography. Includes 35mm camera operation, film developing, and printing. Attention to the creative process from the conception of the idea to the completion of the image, as well as the aesthetics of composition, lighting, and presentation. Assigned projects provide ample range for personal expression while being devoted to exploring photographic processes. A 35mm SLR type film camera is required and students will be required to purchase black and white film, photographic printing paper, along with additional supplies. Performance/skills course.

ART 147 Introduction to Digital Photography (5)
This course is designed to introduce students to the use of digital cameras, and the use of computers to create prints of images from their cameras. Students learn to use digital tools and techniques to create and manipulate visual images. Students need a digital camera, or film camera (35mm or medium format) capable of being operated in a manual exposure mode (Performance/skills course).

ART 150 Beginning Printmaking (5)
Studies in traditional and contemporary print processes including relief, etching, and lithographic methods. Historical and contemporary print developments serve as background material for technical application. Performance/skills course.

ART 151 Advanced Printmaking (5)
Expanding basic procedures learned in ART-150 with emphasis on new media, materials, and technique. A continuing study of historical and cultural roles of printmaking with attention to individual artistic contributions. Prerequisite: ART 150.

ART 156 Beginning Painting (5)
Introductory course exploring the principles of representational painting, compositional aesthetics, and painting techniques. Lectures include introductions to new projects with examples of student work and art historical references. Demonstrations cover composition, perspective, color theory, and technique. Performance/skills course.

ART 157 Intermediate Painting (5)
Further investigation of painting techniques, color theory, composition, and representational painting from observation from Art 156, Beginning Painting. Content will be explored through a series of assignments which expand on art vocabulary/terminology, visual content, and symbolism. Prerequisite: ART 156.

ART 158 Advanced Painting (5)
Further investigation of painting techniques, color, composition, and representation painting covered in Art 156/157, Beginning and Intermediate Painting. In addition, abstraction will be explored through mixed media. Content will be explored through a series of assignments which expand on visual concepts, media exploration, and self-expression. Prerequisite: ART 157.

ART 161 Life Studies: Figure Drawing (3)
Drawing from the posed model, clothed and nude. Emphasis is on expressive composition, accurate proportion/foreshortening, and investigation of a variety of drawing media.

ART 172 Beginning Sculpture (5)
A diversity of materials and creative processes will be explored to develop an expressive sculptural form, such as: assemblage, modeling, carving, and casting. Emphasis will focus on creativity, developing technical skills and conceptual themes. Assigned projects will enable students to develop expressive sculptural techniques and to learn the use of materials and tools in the making of sculpture. Performance/skills course.

ART 173 Intermediate Sculpture I (5)
A diversity of materials and technical processes to develop the sculptural form, such as: assemblage, modeling, carving, casting, and fabrication, will be examined. Emphasis will focus on developing conceptual themes. Assigned projects will enable students to develop fabrication techniques and to learn the use of materials in the making of sculpture. Further experience in sculpture design, materials, techniques, tools and approaches. Prerequisite: ART 172. Recommended: ART 102, ART 103 and ART 105.

ART 174 Intermediate Sculpture II (5)
Further experience in sculpture design, materials, techniques, tools and approaches. Prerequisite: ART 173 and Recommended: ART 102, ART 103, and ART 105.

ART 180 Art for Elementary Education (5)
The course is designed for prospective K-6 educators as a lecture/workshop structured to provide students an opportunity to explore materials and techniques suitable for classroom use. Imaginative art experiences and the nature of creativity are stressed and linked to other disciplines. Includes planning and assessment components directed at art education.
Art

ART 199  Gallery Viewing Lab  (1)
Recommended as a concurrent enrollment with any art class, or HUM&-101, 116, 117, 118. ART-199 supplements these mentioned courses and is designed as a “viewing lab” where students can develop their visual vocabulary, sharpen their critical thinking skills, and apply the concepts taught in Art and Humanities classes. Students will visit local galleries and museums, attend or view lectures, and write a series of short reports. May be taken a total of three times. Graded S/U. Note: This class is a self-paced field experience course. Two meetings with instructor are required: Meeting #1 in the first two weeks of the quarter; Meeting #2 at mid-quarter. These meetings are part of the final grade. Call 253.460.4306 with any questions.

ART 201  History of Western Art: Ancient  (5)
An introductory survey of Western art’s foundation and early development. Art and architecture are covered from Prehistoric times through the ancient Middle East, Egyptian, Aegean, Greek, Etruscan, Roman, Early Christian, and Byzantine periods. Emphasis is given to historical and cultural contexts. Prerequisite: ENGL/ 095 with a minimum grade of C or equivalent.

ART 202  History of Western Art: Medieval & Renaissance  (5)
An introductory survey of Western art from approximately 400-1600 AD. From the Late Antique world’s legacy, painting, sculpture, architecture, and crafts are covered from Germanic and Celtic tribes through the Carolingians and Medieval Romanesque and Gothic periods, on to Italian and Northern Renaissance art, and ending with the Mannerists. Prerequisite: ENGL/ 095 with a minimum grade of C or equivalent.

ART 203  History of Western Art: Baroque through Modern  (5)
An overview of the influences on, and development of, Western art, architecture, and craft from 1600 AD to the present. Follows Baroque and Rococo through the French Revolution to the emergence of Neoclassicism, Romanticism, Realism, Impressionism, and Post-Impressionism. Twentieth-century and later art is studied in the context of global diversity. Prerequisite: ENGL/ 095 with a minimum grade of C or equivalent.

ART 210  Color and Design  (5)
Exploration of color theory for advanced studies in two-dimensional media. Emphasis will be on analysis in regard to color perception, color relationships, and the use of color in historical art works. Prerequisite: ART 102.

ART 217  Jewelry: Construction  (2)
Bezel setting: setting a round-cut stone within an enclosed metal mounting.

ART 218  Jewelry: Casting  (2)
Free-form mountings (other than bezel and prong settings) of stones, pearls, etc. in cast jewelry forms.

ART 231  Low-fire Ceramics  (5)
Students will explore the possibilities available in low-fire ceramics. Traditional forms such as Majolica and burnished earthenware will be used as well as nontraditional styles. The ART 230 series is taught as a series of ceramic design courses offering experience in both hand-building and throwing on the wheel in a sequence of increasing involvement and difficulty. Art 231, 232, and 233 are not sequential and may be taken in any order. Performance/Skills course. Prerequisite: ART 133 and either ART 102, or ART 103 or ART 105 or instructor permission.

ART 232  Surface Embellishment and Form Alteration  (5)
Course work will concentrate on the alteration of forms and the various techniques for surface textures. The student should be competent in the ability to make basic shapes to use on the techniques assigned. The ART-230 series is taught as a series of ceramic design courses offering experience in both hand-building and throwing on the wheel in a sequence of increasing involvement and difficulty. Art 231, 232, and 233 are not sequential and may be taken in any order. Performance/skills course. Prerequisite: ART 133 and either ART 102, ART 103 or ART 105 or instructor permission.

ART 233  Ceramics Master Study  (5)
In this course, each student will research an artist or a type or style of ceramics, and from that research attempt to make replicas of that work. After the initial series of works, the student will use the research work to create a new direction using the masterwork as a starting point. Art 231, 232, and 233 are not sequential and may be taken in any order. Prerequisite: ART 133 and either ART 102, ART 103 or ART 105 or instructor permission.

ART 246  Intermediate Photography  (5)
Second quarter of black & white photography with emphasis on seeing, composition, presentation and advanced techniques. Refinements of camera and metering operation, development and printing techniques, darkroom manipulation, toning, coloring and alternative processes. Students must have an adjustable 35mm SLR camera and must provide film, printing paper and other supplies. Prerequisite: ART 146 or instructor permission. Recommended: ART 102, ART 103 and ART 105.
ART 247 Intermediate Digital Photography (5)
This course will provide students with intermediate instruction in the use of digital and/or film cameras, and the use of computers to create prints of captured images from their images. Students learn to use digital tools and techniques to create and manipulate visual images. Students need a digital camera or film camera (35mm or medium format) capable of being operated in a manual exposure mode (performance/skills course).
Prerequisite: ART 147 with a minimum grade of C.

ART 272 Sculpture: Modeling, Moldmaking and Casting (5)
Basic experience in direct modeling, assemblage and found objects and mold construction of these objects. Various traditional and non-traditional casting mediums will be explored. Developing conceptual themes for art, as well as learning technical skills and processes, will be emphasized.
Prerequisite: ART 174. Recommended: ART 102, ART 103 and ART 105.

ART 273 Sculpture: Carving of Stone, Wood, and Plaster (5)
Introduction to power tools, hand tools, techniques, and materials used in the carving of wood, stone, plaster and cement to create sculptural forms. Design and craftsmanship will be emphasized.
Prerequisite: ART 174. Recommended: ART 102, ART 103 and ART 105.

ART 274 Sculpture: Fabrication Techniques of Wood and Metal (5)
Introduction to building abstract sculptural forms through the use of a variety of materials, techniques and fabrication processes. Joinery, assemblage, welding and other processes where materials are joined will be covered. Emphasis will focus on technical skills and developing conceptual themes for your projects.
Prerequisite: ART 174. Recommended: ART 102, ART 103 and ART 105.

ART 275 Sculpture: Metal Casting: Iron, Bronze, and Aluminum (5)
Emphasis on pattern fabrication, wax manipulation, model and mold making, and foundry procedures for casting metals through piece-molds and the lost-wax method. Projects will help develop expressive conceptual themes while examining certain technical foundry processes.
Prerequisite: ART 174 and either ART 103 or ART 105. Recommended: ART 102, ART 103 and ART 105.

ART 296 Special Projects in Art (2)
This course involves special group efforts which grow out of departmental need or artistic opportunity. The course will be offered as each art project is identified. The number of participants would be limited by the nature of the project, and involvement would be subject to the applicant’s background coursework and the instructor’s approval.
Performance/skills course.
Prerequisite: Instructor permission.

ART 297 Folio Preparation (1)
Students will prepare a portfolio for application to a transfer institution. Students will be advised regarding their selections of samples, revisions and skill areas that need further attention. Students will learn to photograph samples, mat and frame appropriate pieces, develop directed projects to improve the overall quality and finalize a professional portfolio.
Prerequisite: Students must claim their intent to major in art and must have completed two of the three following courses: ART 102, ART 103, or ART 105. Instructor permission required.

ART 299 Special Problems in Art (1)
These courses are an extension of existing course sequences and are subject to the same fees as the individual courses within the sequence chosen. All 299 classes require permission of the instructor. 299A Ceramics; 299B Design; 299C Drawing; 299D Figure Drawing; 299E Painting; 299F Photography; 299G Printmaking; 299H Sculpture; 299I Watercolor; 299J Digital Photography; 299K Graphic Design.
Prerequisite: Prerequisite to registration for any 299 class is the satisfactory completion of the entire course sequence offered by the department in that particular medium. Example: 299C, Advanced Problems in Drawing, has a prerequisite of ART 105 and ART 106.
### Astronomy

**ASTR& 101 Introduction to Astronomy (5)**  
(Formerly ASTRO-105) Introduces basic concepts in astronomy including the formation of the solar system; characteristics of the planets, moons, asteroids, and comets; the formation and evolution of stars; the nature and characteristics of light and telescopes; and notes the historical milestones of astronomy from ancient astronomers to current space probes. Laboratory included.  
**Prerequisite:** Completion of ENGL 095 and READ 085 or ENGL 095 with a minimum grade of C and completion of MATH 090 with a minimum grade of C.

**ASTR 110 The Solar System (5)**  
Study of the structure and composition of the Solar System. Topics discussed include the history of Astronomy, the appearance of the nighttime sky, orbital motion, gravity, the nature of light, theories of Solar System formation, and the characteristics of the planets, moons, asteroids, and comets that inhabit the Solar System. Laboratory included.  
**Prerequisite:** ENGL 095 with a minimum grade of C or equivalent and MATH 090 with a minimum grade of C or equivalent.

**ASTR& 115 Stars, Galaxies and the Cosmos (5)**  
Study of the structure and composition of the universe including stars and galaxies.  
Topics discussed include the theories of the formation of stars, galaxies, and the universe; the nature of light and telescopes; the characteristics of the Sun; the cycle of star formation, life and death; the types of stars and galaxies; and the application of physical principles to making astronomical measurements. Laboratory included.  
**Prerequisite:** ENGL 095 with a minimum grade of C or equivalent and MATH 090 with a minimum grade of C or equivalent.

### Biology

**BIOL& 100 Survey of Biology (5)**  
An introduction to biological principles. Topics include: scientific method; scientific literacy; basic cellular anatomy and biochemical processes; evolution and genetics; diversity of life; and ecology and environmental issues. Laboratory included.  
**Prerequisite:** ENGL 095 with a minimum grade of C; or equivalent

**BIOL& 105 Fossils and the History of Life (5)**  
Introduction to the geological and biological processes and events that generated the amazing record of life on earth. Topics include plate tectonics, rocks, fossilization processes, principles of evolution, and a survey of the history of life. Lab includes studying rock and fossil specimens and involves field trips. This course is the same as GEOL 108. Students may receive credit for either BIOL 105 or GEOL 108, but not both.  
**Prerequisite:** Completion of ENGL 095 and READ 085 with a minimum grade of C or ENGL 095 with a minimum grade of C and completion of MATH 090 or MATH 093 with a minimum grade of C or equivalent assessment in these areas.

**BIOL 125 Biology in the Field (5)**  
An intensive introductory course covering the fundamental principles governing biological assemblages from the species level to communities, as exemplified by the different ecosystems found in the Pacific Northwest. Laboratory activities include learning select biological field methods. Extended field trip(s) required; exact itinerary varies quarterly.  
**Prerequisite:** ENGL 095 with a minimum grade of C; and either MATH 090 with a minimum grade of C or MATH 093 with a minimum grade of C; or equivalent assessment in these areas.

**BIOL 140 Marine Biology (5)**  
Introductory marine biology designed for non-majors. Learn how marine organisms are categorized, about their habitats, how they survive, their ecological relationships, and environmental concerns. Laboratories and field trips included.  
**Prerequisite:** Completion of ENGL 095 and READ 085 with a minimum grade of C or ENGL 095 with a minimum grade of C and completion of MATH 090 or MATH 093 with a minimum grade of C or equivalent assessment in these areas.

**BIOL& 160 General Cell Biology (5)**  
(Formerly BIOL 111) An introductory cell biology course for students preparing for health professions. Major concepts of cell biology will be introduced, including the chemistry of life, the structure, reproduction, and metabolism of cells, genetics, and evolutionary biology. Lab included.  
**Prerequisite:** Completion of ENGL 095 and READ 085 with a minimum grade of C or ENGL 095 with a minimum grade of C and completion of MATH 090 or MATH 093 with a minimum grade of C or equivalent assessment in these areas.
Biology

BIOL 175 Human Biology w/Lab (5)
(Formerly BIOL 118) This course is a one-quarter class of human anatomy and physiology. This course offers a brief overview of the human body for the non-science major. It covers some basics of chemistry and cells and then outlines all the major systems of the human body. Laboratory included.
Prerequisite: ENGL/095 with a minimum grade of C or equivalent; and either MATH 090 with a minimum grade of C or equivalent or MATH 093 with a minimum grade of C or equivalent or BUS 110 with a minimum grade of C or equivalent.

BIOL 179 Special Topics in Biology (2)
This topic course will explore one varying topic in biology. The specific biological topic will be explored using a variety of methods which may include lectures, discussions, seminars, research projects, field work, laboratory work, or all-day to overnight field trips. Example topics include: genetics, conservation biology, the history of life, or other current topics in biology.
Prerequisite: ENGL/095 with a minimum grade of C or equivalent; and either MATH 090 with a minimum grade of C or equivalent or MATH 093 with a minimum grade of C or equivalent.

BIOL 212 Introduction to the Biology of Metabolism (5)
(Formerly BIOL 212) Introduction to the structures and functions of eukaryotic organisms with particular attention to animal and plant anatomy, physiology, and development. Laboratory included.

NOTE: The biology majors’ sequence may be taken as BIOL&-221, 222, 223 or BIOL&-222, 223, 221.
Prerequisite: BIOL 222 and CHEM& 162.

BIOL 223 Introduction to the Biology of Organisms (5)
(Formerly BIOL 222) Introduction to the structures and functions of eukaryotic organisms with particular attention to animal and plant anatomy, physiology, and development. Laboratory included.

Prerequisite: BIOL 222 with a minimum grade of C.

BIOL 225 Introduction to Molecular Biology (5)
(Formerly BIOL 225) An introduction to the structures and functions of biological molecules; anatomy of prokaryotic and eukaryotic cells; cell metabolism and metabolic diversity; molecular genetics and genomics. Laboratory included.
Prerequisite: CHEM& 161 with a minimum grade of C and BIOL 221 with a minimum grade of C.

BIOL 227 Introduction to the Biology of Evolution, Ecology and Biodiversity (5)
(Formerly BIOL 227) Introduction to the evolutionary and ecological processes involved in the generation of our planet’s biodiversity, including review of patterns and processes that influence the origin, evolution, distribution and abundance of living things. One of a three quarter sequence (BIOL&221, 222, 223) designed for science majors. Laboratory included.
Prerequisite: BIOL& 160 and CHEM& 161.

BIOL 240 Human Anatomy & Physiology 1 (5)
(Formerly BIOL 220) The first quarter of a standard two quarter sequence in human anatomy and physiology. The course reviews basic molecular and cell biology. New material covers histology, the integumentary system, the skeletal system, the muscular system, the nervous system and the special senses.
Laboratory sessions include the study of microscopy, histology, anatomical models, preserved bones and human cadavers.
Prerequisite: BIOL& 160 with a minimum grade of C and CHEM& 110 with a minimum grade of C.

BIOL 241 Human Anatomy & Physiology 2 (5)
(Formerly BIOL 221) The second quarter of a standard two quarter sequence in human anatomy and physiology. The course will examine the endocrine system, blood, the cardiovascular system, the lymphatic system, the immune system, the respiratory system, the digestive system, the urinary system, and the reproductive system.
Laboratory sessions include the study of histology, anatomical models, and the human cadaver.
Prerequisite: BIOL& 241 with a minimum grade of C.

BIOL 243 Current Advances in Human Anatomy and Physiology (5)
An optional third quarter of human anatomy and physiology. This class will examine human biology through the in-depth exploration of selected disease processes and the analysis of current scientific advances related to their diagnosis and treatment. Students will review the major organ systems and examine homeostatic feedback loops, anatomical and physiological relationships between the different systems, and the relationship between anatomy and physiology in selected body structures from an evidence-based perspective. Laboratory sessions include histology, study of anatomy using models and the human cadaver, and physiology experiments.
Prerequisite: BIOL& 242 with a minimum grade of C or BIOL& 223 with a minimum grade of C.

BIOL 260 General Microbiology (5)
(Formerly BIOL 260) An introduction to the study of microbiology including microbial structures, metabolism, genetics, classification, pathogenesis, and host defense. The emphasis is on human bacterial and viral pathogens. Laboratory included.
Prerequisite: BIOL& 222 with a minimum grade of C, or both CHEM& 121 with a minimum grade of C and BIOL& 160 with a minimum grade of C. Recommended Preparation: CHEM& 131.

BIOL 280 Human Cadaver Prosection (2)
(Formerly BIOL 280) This is a two-credit laboratory dissection course. Students will dissect a human cadaver to include removal of skin and superficial fascia, isolation of selected muscles, and opening of thoracic and abdomino-pelvic cavities. Students will also participate in the annual Surgical Demonstration event and present selected surgical procedures to the public.
Prerequisite: BIOL& 241 with a minimum grade of C and instructor recommendation; and instructor permission.
**Botany**

**BOT 101 General Botany (5)**

Presents basic concepts of plant biology to non-science majors including plant characteristics, biodiversity, growth, reproduction, and ecology. Students discuss current topics in agriculture, horticulture, medicine, ethnobotany, biotechnology, ecology, conservation, and environmental issues. Labs include lab experiments, greenhouse projects, field trips, and habitat restoration work in the TCC Nature Area.

Prerequisite: ENGL/095 with a minimum grade of C or equivalent; and either MATH 090 with a minimum grade of C or equivalent or MATH 093 with a minimum grade of C or equivalent.

**BOT 179 Special Topics in Botany (2)**

This course will explore various topics in plant biology using a variety of methods, including seminars, laboratory experiments, lectures, research projects, presentations, field work, and all-day or overnight field trips depending on the quarter offered. Topics will vary by quarter. A course may include topics such as ethnobotany, plant taxonomy, etc.

Prerequisite: ENGL/095 with a minimum grade of C or equivalent and either MATH 090 with a minimum grade of C or equivalent or MATH 093 with a minimum grade of C or equivalent.

**Business**

**BUS& 101 Introduction to Business (5)**

(Formerly BUS-101) For both business and non-business majors. Dynamics and competitive business world are explored through the study of topics including economic systems, forms of business ownership, social responsibility and ethics, entrepreneurship, marketing, management, organizational design, finance, banking, and securities markets.

Prerequisite: ENGL 095 or ENGL 095 or instructor permission.

**BUS 102 Customer Service (2)**

Students will learn the skills necessary to provide quality customer service of the 21st century in any workplace environment. The course will focus on improving verbal, non-verbal and listening skills; adopting a positive attitude; using effective techniques for handling difficult customers; recognizing ethical behavior and decisions; practicing professional communication etiquette and understanding the multicultural aspects of customer service in the global marketplace.

**BUS 110 Business Math (5)**

This course is a review of mathematical computations using fractions, decimals, percentages, and proportions as well as introductory algebra. The focus is on their application to personal finance and business situations with the emphasis on decision-making and problem-solving. Topics may include credit cards, bank reconciliation, foreign currency exchange, discounts, taxes, payroll, installment buying, mortgages, depreciation and interest.

Prerequisite: MATH 085 with a minimum grade of C.

**BUS 140 Marketing and Business Development (5)**

Examines marketing fundamentals and their impact on business and society. Students will study the concepts of consumer needs, demand management, customer behavior, strategies in product development, promotion, advertising, sales and distribution systems.

Prerequisite: ENGL 095 and READ 095 or ENGL/095 or instructor permission.
BUS 141 Purchasing & Supply Management (5)
Introduction to the basic principles of purchasing and supply chain management with emphasis on understanding the purchasing and supply processes, organizational concepts, policy, relationships, and tools and techniques including cost/price analysis, and value analysis.
Prerequisite: BUS 110 with a minimum grade of C and either ENGL/095 with a minimum grade of C or assessment at college-level English and reading.

BUS 142 Sourcing and Supplier Relation Fundamentals (5)
Sourcing concepts, methods and techniques used to manage an organization's supply base are discussed. Emphasis is on strategic sourcing, including supplier selection, development and evaluation, supplier quality, and global sourcing.
Prerequisite: BUS 110 with a minimum grade of C and either ENGL/095 with a minimum grade of C or assessment at college-level English and reading.

BUS 145 Retail Management (5)
This course examines types of retailers; multi-channel retailing; customer buying behavior; retail market strategy; retail locations and site selection; human resource management; information systems and supply chain management; customer relationship management; retail communication mixes; store management, layout, design, and visual merchandising; and, customer service.
Prerequisite: ENGL 095 and READ 095 or ENGL/095 or instructor permission.

BUS 150 Global Business (5)
This course examines international business topics including globalization and the outsourcing of jobs; differences in cultures and political, economic, legal, and social systems; international ethics; the international monetary system; multinational corporations; methods of entering offshore markets; global production, logistics and marketing; and international trade organizations. (multicultural content) (writing intensive)
Prerequisite: ENGL 095 and READ 095 or ENGL/095 or instructor permission.

BUS 160 Small Business Entrepreneurship (5)
A practical course concentrating on successfully launching and managing a small business, achieving optimum benefits from limited resources, planning for growth and succession, and developing skills, qualities, and traits that complement entrepreneurial behavior. Students will write a business plan that supports their future entrepreneurial efforts.
Prerequisite: ENGL/095 with a minimum grade of C or equivalent or instructor permission.

BUS 163 Management Principles and Organizational Systems (5)
Basic theory and common terms of management. Course examines what management is, who managers are, what they do, how they differ from non-managers, and how management contributes to an organization's success.
Prerequisite: ENGL 095 and READ 095 or ENGL/095 or instructor permission.

BUS 164 Leadership and Human Relations (5)
Applies human relations skills to the work world. Focuses on interpersonal leadership skills that can maximize cooperation, flexibility, sensitivity and teamwork among workers. Students examine how attitudes, values, needs and communication styles affect relationships at work. Small-group projects will practice leadership skills and evaluate individual interpersonal competence.
Prerequisite: ENGL 095 and READ 095 or ENGL/095 or instructor permission.

BUS 165 Human Resource Management (3)
Explores how organizations obtain, retain, and effectively utilize human resources. Topics include workplace diversity, forming quality work teams, equal opportunity, work analysis, staffing, training and development, performance appraisals, compensation, union/management relations, and grievance procedures.
Prerequisite: ENGL 095 and READ 095 or ENGL/095 or instructor permission.

BUS 201 Business Law (5)
(Formerly BUS-200) An introduction to the American legal system and the functions of law in a business environment; legal reasoning and the process of resolving disputes in society; a preliminary analysis of contractual arrangements and business association in the business community.

BUS 256 Statistical Analysis (5)
Statistical techniques to be used in guiding business decisions. Introduction to descriptive techniques, probability, estimation, hypothesis testing, regression, correlation and related concepts.
Prerequisite: MATH 095 with a minimum grade of C or equivalent.

BUS 280 Career Readiness Skills (2)
This course covers employment search skills and the employee skills needed to be successful on the job. It is recommended preparation for internships: ACCT-290, BUS-290, and IT-290.

BUS 290 Work Internship (5)
During one quarter of the sophomore year, students may receive college credits for hands-on work experience and training in a private - or public - sector organization.
Prerequisite: Program Chair permission.

BUS 295 Entrepreneurial and Innovative Mindset (5)
This course is for students who want to learn more about innovation, entrepreneurship and launching a venture. The class will introduce the principles of an entrepreneurial mindset. The characteristics of the entrepreneurial mindset will be dissected and applied to the student’s own entrepreneurial potential. Additionally, students will examine needed technical skills including business, finance, marketing, legal issues, and social media. This course is the same as SOC 295.
Prerequisite: Instructor permission.

BUS 299 Independent Study (1)
Study on an individual basis.
Prerequisite: Program Chair permission.
Chemistry

Students seeking courses for general interest and degree distribution requirements should consider the following non-major courses: CHEM& 110, 121, and 131. These courses are also appropriate for students working toward Allied Health careers.

Students pursuing a major in the sciences, engineering, or some medical fields should select courses from CHEM& 161, 162, 163, 261, 262, and 263. An academic advisor should be consulted to determine the appropriate courses for your degree goal. Students intending to major in Chemistry at a baccalaureate institution should work toward an Associate of Science degree with a Chemistry Specialization.

CHEM& 110 Chemical Concepts w/lab (5)
(Formerly CHEM-100) Survey of the fundamental principles of Chemistry. Includes the study of the metric system, atomic theory, bonding, properties of matter, reactions, nomenclature, and applications of chemistry to everyday life. Laboratory included.
Prerequisite: MATH 095 with a minimum grade of C (may be taken concurrently) or higher or TMATH 100 with a minimum grade of C (may be taken concurrently).

CHEM& 121 Introduction to Inorganic Chemistry (5)
(Formerly CHEM-101) (For non-science and non-engineering majors.) Course includes the study of the metric system, atomic theory, bonding, quantitative relationships, solutions, gases, acids and bases, salts, and nuclear chemistry. Laboratory included.
Prerequisite: CHEM& 110 with a minimum grade of C or high school chemistry; and either MATH 095 with a minimum grade of C or higher (may be taken concurrently) or TMATH 100 with a minimum grade of C (may be taken concurrently).

CHEM& 131 Introduction to Organic/Biochemistry (5)
(Formerly CHEM-102) (For non-science majors.) Study of the structure, properties, and reactions of organic and biological compounds. Includes an introduction to biochemical processes. Laboratory included.
Prerequisite: CHEM& 121 with a minimum grade of C.

CHEM& 161 General Chemistry w/Lab I (5)
(Formerly CHEM-140) This is the first quarter of college-level freshman chemistry. It covers measurements, the structure of matter, compounds, stoichiometry, classes of chemical reactions, gases, thermochemistry, and the quantum mechanical model of hydrogen. Laboratory included.
Prerequisite: CHEM& 121 with a minimum grade of C or high school chemistry, and either MATH& 141 with a minimum grade of C (may be taken concurrently) or MATH 147 with a minimum grade of C (may be taken concurrently).

CHEM& 162 General Chemistry w/Lab II (5)
(Formerly CHEM-150) This is the second quarter of college-level freshman chemistry. It covers electronic structure, bonding and bonding theories, molecular shapes, intermolecular forces, solids, liquids, solutions, and chemical equilibrium. Laboratory included.
Prerequisite: CHEM& 161 with a minimum grade of C.

CHEM& 163 General Chemistry w/Lab III (5)
(Formerly CHEM-160) This is the third quarter of college-level freshman chemistry. It covers chemical kinetics, equilibrium, acids and bases, solubility, complex ions, thermodynamics, electrochemistry, and nuclear chemistry. Laboratory included.
Prerequisite: CHEM& 162 with a minimum grade of C.

CHEM& 261 Organic Chemistry w/Lab I (5)
(Formerly CHEM-231) Organic chemistry for science majors. Study of the application of general chemical principles to organic compounds. Topics include: structure, orbital theory, isomerism, nomenclature, resonance, and chirality; substitution and elimination reactions; introduction to IR spectroscopy. Laboratory included.
Prerequisite: CHEM& 163 with a minimum grade of C.

CHEM& 262 Organic Chemistry w/Lab II (5)
(Formerly CHEM-232) Organic chemistry for science majors. Topics include: structure, properties and reactions of alkenes, alkynes, alcohols, radicals, and aromatic compounds; introduction to NMR, UV/VIS, and mass spectroscopy. Laboratory included.
Prerequisite: CHEM& 261 with a minimum grade of C.

CHEM& 263 Organic Chemistry w/Lab III (5)
(Formerly CHEM-233) Organic chemistry for science majors. Topics include: structure, properties and reactions of aldehydes, ketones, amines, and carboxylic acids and their derivatives; introduction to biological molecules and biochemical processes. Laboratory included.
Prerequisite: CHEM& 262 with a minimum grade of C.
Chinese

The basic tenets of communications including reading, writing, speaking and listening are developed in a dynamic second language acquisition environment enhanced by technology.

Grammar is used as a communication tool to express meaning as students take part in small group discussions, cultural investigation, and presentation. Authentic materials will be focused on in the class as well assessment. Students should expect to be immersed in the language. English will be used at a minimum.

**CHIN& 121 Chinese I (5)**
The first year of the beginning Chinese language sequence consists of 121, 122, and 123. CHIN&-121 is the first quarter of the sequence. (multicultural content)
Prerequisite: ENGL/095 with a minimum grade of C or equivalent or instructor permission.

**CHIN& 122 Chinese II (5)**
CHIN&-122 is the second quarter of the first-year language sequence and continues to build on the skills acquired in CHIN&-121. (multicultural content)
Prerequisite: CHIN& 121 with a minimum grade of C or instructor permission.

**CHIN& 123 Chinese III (5)**
CHIN&-123 is the third quarter of the first-year language sequence and continues to build on the skills acquired in CHIN&-122. (multicultural content)
Prerequisite: CHIN& 122 with a minimum grade of C or instructor permission.

Communication Studies

**CMST& 101 Introduction to Communication (5)**
(Formerly SPCH-100) A survey of fundamental principles of communication theory. Students are introduced to verbal and nonverbal communication, effective listening, interpersonal communication, small group discussion as well as cultural and gender factors in communication. Written assignments, examinations and informal oral presentations are included.
Prerequisite: ENGL& 101 with a minimum grade of C (may be taken concurrently).

**CMST 110 Multicultural Communication (5)**
(Formerly SPCH-110) A survey of how culture shapes the communication interaction. Emphasis is on the role of world views, how culture affects the development of value systems, interpersonal relationships, workplace and educational expectations. (multicultural content)
Prerequisite: ENGL& 101 with a minimum grade of C (may be taken concurrently).

**CMST 120 The Process of Public Speaking (2)**
An introduction to the preparation of and process required to develop and deliver oral presentations. This course does NOT require oral presentations. Rather, focus includes the rhetorical situation, topic development, understanding an audience, appropriate research, understanding speech types, appropriate organization, the outlining process, and ethical considerations.
Prerequisite: CMST& 101 with a minimum grade of C or CMST 110 with a minimum grade of C or CMST& 220 with a minimum grade of C.

**CMST& 210 Interpersonal Communication (5)**
This course focuses on aspects of interpersonal communication in relationships that include philosophical, theoretical, and applied exploration of self-concept, perception, emotions, language, nonverbal cues, listening, and conflict.

**CMST& 220 Public Speaking (5)**
(Formerly SPCH-101) An introduction to the preparation and delivery of oral presentations in an extemporaneous style. Emphasis is on ethical research, critical, logical analysis, organization of informative and persuasive presentations.
Prerequisite: ENGL& 101 with a minimum grade of C (may be taken concurrently).
Computer Science

Tacoma Community College offers a wide range of courses involving computer applications. The courses listed below are designed to satisfy computer programming requirements for engineering and science majors. Students intending to major in Computer Science at a baccalaureate institution should work toward an Associate of Science degree with a Computer Science Specialization.

Students interested in introductory computer courses or business applications should see courses listed under Information Technology and Computer User.

**CS 142** Java Programming for Engineers and Scientists I (5)

Using the Java programming language, students learn general principles of object-oriented programming, including how to design, implement, document, test, and debug computer programs. Topics include classes, objects, messages, expressions, decision structures, iteration, arrays, collections, events, and interfaces.

**Prerequisite:** MATH& 141 with a minimum grade of C or equivalent.

**CS 143** Java Programming for Engineers and Scientists II (5)

An intermediate programming course, using Java. Topics will include classes, interfaces, inheritance, polymorphism, exception handling, recursion, data structures, and an introduction to performance analysis and implementation trade-offs.

**Prerequisite:** CS 142 with a minimum grade of C.

---

**Computer User**

**CU 091** Introduction To The Keyboard (2)

Learn to use the computer keyboard by touch and begin to develop accuracy and speed.

*Recommended preparation: ENGL/085 or equivalent.*

**CU 100** Introduction to Practical Computing (2)

To provide individuals with an opportunity to cultivate the computer usage skills necessary to become confident, successful students. This course is an introduction to computer usage skills using the most current Microsoft Windows operating system. Topics include: developing computer literacy, navigation, organization, printing, file location and management, accessing help.

*Recommended: READ 095 or ENGL/095 and HD 101.*

**CU 101** Web-Enabled Learning and Communication (2)

Introduction to web-enabled learning and communication. Student will receive guidance in how to effectively navigate and use online TCC resources; Angel, Portal, Outlook Web Access. Emphasis on virtual communication, security concerns, Internet search effectiveness, and ethical behaviors for virtual learning communities.

*Prerequisite: Knowledge of Microsoft Windows operating system required or Program Chair permission. Recommended: CU 101, READ 095 or ENGL/095 and HD 101.*

**CU 102** Word I (2)

Beginning Word Processing class using Microsoft Word. Emphasizes MOUS “Core Level” competencies and IC3 applications.

*Prerequisite: Knowledge of Microsoft Windows operating system required or Program Chair permission. Recommended: CU 100 and ENGL/095 or equivalent and HD 101.*

**CU 103** Excel I (3)

Beginning spreadsheets class using Microsoft Excel. Emphasizes MOUS core level competencies and IC3 applications.

*Prerequisite: Knowledge of Microsoft Windows operating system required or Program Chair permission. Recommended: CU 100, MATH 075, READ 095 or ENGL/095, and HD 101.*

**CU 104** PowerPoint (1)

Introduction to electronic presentations using Microsoft Power Point. Emphasizes MOUS “Core Level” competencies and IC3 applications.

*Prerequisite: Knowledge of Microsoft Windows operating system required or Program Chair permission. Recommended: CU 101, READ 095 or ENGL/095, and HD 101.*

**CU 105** Word I & Excel I (5)

Introduction to using Microsoft Office Suite. Emphasizes MOUS core level competencies in Word, Excel and IC3 applications.

*Prerequisite: Knowledge of Microsoft Windows operating system required or Program Chair permission. Recommended: CU 100, MATH 075 and READ 095 or ENGL/095.*

**CU 108** Outlook (2)

Beginning Outlook. Course includes coverage of the software’s following features: e-mail, contacts, calendar, and scheduling.

*Prerequisite: CU 105 with a minimum grade of C or equivalent or Program Chair permission.*

**CU 110** Access I (2)

Beginning database class using Microsoft Access. Emphasizes MOUS core level competencies.

*Prerequisite: CU 103 with a minimum grade of C or CU 105 with a minimum grade of C or equivalent or Program Chair permission.*

**CU 202** Word II (3)

Advanced Word processing class using Microsoft Word. Emphasizes MOUS expert level competencies.

*Prerequisite: CU 102 with a minimum grade of C or CU 105 with a minimum grade of C or equivalent or Program Chair permission.*

**CU 203** Excel II (3)

Advanced spreadsheet class using Microsoft Excel. Emphasizes MOUS expert level competencies.

*Prerequisite: CU 103 with a minimum grade of C or CU 105 with a minimum grade of C or Program Chair permission.*
CU 210  Access II  (3)
Intermediate to advanced database skills using Microsoft Access. Emphasizes data import and export features, data access pages, advanced queries, tables, reports and forms. Includes creating macros and modules, managing database objects and managing databases.
Prerequisite: CU 110 with a minimum grade of C or Program Chair permission.

DMS 101  Sonography Lab I  (2)
This course is designed to develop the foundations of sonography by introducing students to sonographic equipment, exams and patient care techniques. Students will also begin to learn how to apply critical thinking, communication and problem solving skills in the healthcare setting. Activities will emphasize the use of terminology, patient care practices, scanning techniques and image optimization while focusing on abdominal structures.
Prerequisite: Acceptance into DMS program or Program Chair approval; ENGL& 101 with a minimum grade of C+ or ENGL& 102 with a minimum grade of C+ or ENGL 103 with a minimum grade of C+; MATH& 141 with a minimum grade of C+; CMST& 101 with a minimum grade of C+ or CMST& 220 with a minimum grade of C+; PHYS& 115 with a minimum grade of C+ or PHYS& 116 with a minimum grade of C+; HIT 130 with a minimum grade of C+; BIOL& 241 with a minimum grade of C+ and BIOL& 242 with a minimum grade of C+.

DMS 102  Sonography Lab II  (3)
This course builds on the scanning fundamentals developed in DMS 101 with an emphasis on advanced scanning techniques and patient care practices. Activities will focus on relating clinical and pathologic information, effective verbal/written communication methods and caring for high needs patients while evaluating superficial, gynecologic and obstetric structures.
Prerequisite: DMS 101 with a minimum grade of C or Program Chair approval.

DMS 103  Sonography Lab III  (2)
As the last course in the scanning laboratory series, students will practice independence while performing exams, critically evaluating clinical situations and exploring their role in the clinical setting. Activities will emphasize autonomy, independent decision making, professional behavior and timeliness.
Prerequisite: DMS 102 with a minimum grade of C or Program Chair approval.

DMS 105  Ultrasound Cross-Sectional Anatomy  (5)
This course explores the human body in the common sonographic directional planes and other imaging modalities. Activities will emphasize the use of directional, anatomic and sonographic terminology, anatomic relationships, directional correlation with transducer position and image optimization. The lab portion of this course focuses on three-dimensional anatomic relationships.
Prerequisite: Acceptance into DMS program or Program Chair approval; ENGL& 101 with a minimum grade of C+ or ENGL& 102 with a minimum grade of C+ or ENGL 103 with a minimum grade of C+; MATH& 141 with a minimum grade of C+; CMST& 101 with a minimum grade of C+ or CMST& 220 with a minimum grade of C+; PHYS& 115 with a minimum grade of C+ or PHYS& 116 with a minimum grade of C+; HIT 130 with a minimum grade of C+; BIOL& 241 with a minimum grade of C+ and BIOL& 242 with a minimum grade of C+.

DMS 110  Pathophysiology I  (3)
This course introduces students to the fundamentals of investigating disease processes by evaluating high risk populations, associating clinical indications, identifying pathologic features in sonographic images and communicating exam findings to healthcare team members. Activities emphasize the use of terminology, problems solving and image recognition related to abdominal structures.
Prerequisite: Acceptance into DMS program or Program Chair approval; ENGL& 101 with a minimum grade of C+ or ENGL& 102 with a minimum grade of C+ or ENGL 103 with a minimum grade of C+; MATH& 141 with a minimum grade of C+; CMST& 101 with a minimum grade of C+ or CMST& 220 with a minimum grade of C+; PHYS& 115 with a minimum grade of C+ or PHYS& 116; HIT 130 with a minimum grade of C+; BIOL& 241 with a minimum grade of C+ and BIOL& 242 with a minimum grade of C+.
Diagnostic Medical Sonography

DMS 111 Pathophysiology II (3)
As the second course in sonographic pathophysiology, students will further advance their understanding of investigating disease processes while focusing on superficial structures. Critical thinking, problem solving and independent decision making will be emphasized.
Prerequisite: DMS 110 with a minimum grade of C or Program Chair approval.

DMS 120 Abdominal Sonography (3)
This course focuses on the anatomy, physiology and sonographic appearance of abdominal organs and structures. Students will be introduced to the fundamentals of abdominal sonographic terminology, image identification and optimization in addition to lab values and clinical findings.
Prerequisite: Acceptance into DMS program or Program Chair approval. ENGL& 101 with a minimum grade of C+ or ENGL& 102 with a minimum grade of C+ or ENGL 103 with a minimum grade of C+ or MATH& 141 with a minimum grade of C+ or MATH & 141 with a minimum grade of C+ or CMST& 101 with a minimum grade of C+ or CMST& 110 with a minimum grade of C+ or CMST& 220 with a minimum grade of C+ or CMST & 220 with a minimum grade of C+ or CMST & 220 with a minimum grade of C+ or PJHS& 115 with a minimum grade of C+ or PJHS & 115 with a minimum grade of C+ or HIT 130 with a minimum grade of C+; BIOL& 241 with a minimum grade of C+ and BIOL& 242 with a minimum grade of C+.

DMS 121 Small Parts and Superficial Structures Sonography (3)
This course focuses on the anatomy, physiology and sonographic appearance of superficial organs and structures. Terminology, imaging considerations, optimization techniques and patient care requirements specific to superficial structures will also be covered.
Prerequisite: DMS 120 with a minimum grade of C or Program Chair approval.

DMS 122 Gynecology and Obstetrics I (3)
This course focuses on the anatomy, physiology and sonographic appearance of gynecologic and first trimester obstetric structures. Clinical indications, imaging considerations and patient care requirements specific to OB/GYN patients will also be covered. Students will learn the pathologic processes associated with first trimester obstetrics and gain skills related to identifying and documenting abnormalities.
Prerequisite: DMS 120 with a minimum grade of C or Program Chair approval.

DMS 123 Gynecology And Obstetrics II (5)
This is the second course in a two part OB/GYN series that focuses on the anatomy, physiology and sonographic appearance of the developing pregnancy and the post-partum pelvis. Clinical indications, imaging considerations and patient care requirements specific to late term and post-partum patients will be covered and students will also learn the current methods for distinguishing and documenting pathologic conditions.
Prerequisite: DMS 122 with a minimum grade of C or Program Chair approval.

DMS 124 Introduction to Vascular Sonography (3)
This course is an introduction to vascular sonography and combines material from the physics, superficial pathology and cross sectional anatomy courses. Students will also apply general sonographic scanning and patient care techniques to vascular patients and broaden their understanding of cardiovascular pathologic processes and the effect on the body.
Prerequisite: Acceptance into the DMS program; Program Chair Approval; DMS 102 with a minimum grade of C; DMS 111 with a minimum grade of C; DMS 111 with a minimum grade of C; DMS 121 with a minimum grade of C; DMS 122 with a minimum grade of C; DMS 131 with a minimum grade of C.

DMS 125 Advanced Sonography (2)
This course is designed to further develop student’s critical thinking skills related to integrating clinical, imaging and pathologic information in preparation for their clinical internships. Case studies and scenarios will be used to refine student’s problem solving, reasoning, and independent decision making skills.
Prerequisite: DMS 120 with a minimum grade of C and DMS 121 with a minimum grade of C and DMS 122 with a minimum grade of C or Program Chair approval.

DMS 130 Ultrasound Physics and Instrumentation I (3)
This is the first of two courses focusing on the mastery of sonographic physics principals. Basic wave terminology, sound and media interactions and system functions will be covered. Students will also begin creating a personalized study guide to utilize when preparing for their first national registry exam.
Prerequisite: Acceptance into DMS program or Program Chair approval. ENGL& 101 with a minimum grade of C+ or ENGL& 102 with a minimum grade of C+ or ENGL 103 with a minimum grade of C+ or MATH& 141 with a minimum grade of C+ or MATH & 141 with a minimum grade of C+ or CMST& 101 with a minimum grade of C+ or CMST& 110 with a minimum grade of C+ or CMST& 220 with a minimum grade of C+ or CMST & 220 with a minimum grade of C+ or PJHS& 115 with a minimum grade of C+ or PJHS & 115 with a minimum grade of C+ or HIT 130 with a minimum grade of C+; BIOL& 241 with a minimum grade of C+ and BIOL& 242 with a minimum grade of C+.

DMS 131 Ultrasound Physics and Instrumentation II (3)
This is the second of two courses focusing in the mastery of sonographic physics principals. Advanced theory will be covered including Doppler, harmonic imaging and pulse phasing techniques. Quality assurance and hemodynamics will also be covered. Students will complete their study guides and prepare to sit for their first national registry exam, the Scientific Principals and Instrumentation exam.
Prerequisite: DMS 130 with a minimum grade of C or Program Chair approval.
Diagnostic Medical Sonography

DMS 140  Patient Care and Scope of Practice  (2)
This course further develops patient care skills and defines a sonographer’s role in the healthcare team. Students learn to perform a basic patient assessment, predict and respond to barriers in patient care, provide support during invasive procedures and alternative patient positioning techniques.
Prerequisite: Program Chair approval.

DMS 150  Introduction to Clinicals  (2)
(Formerly known as DMS 150 Introduction to Clinical II) This course is designed to transition students from the academic setting into the clinical setting. Students will develop skills related to interacting with clinical instructors, explore their role as a student in the clinical setting and develop strategies to take advantage of educational opportunities in the healthcare setting.
Prerequisite: DMS 102 with a minimum grade of C or Program Chair approval.

DMS 151  Ultrasound Clinical I  (13)
(Formerly known as DMS 151 Ultrasound Clinical II) This course is the first of a four quarter clinical internship designed to take students from scanning in the classroom to integrating themselves into an imaging department. Under the guidance of clinical instructors, students will apply their fundamental scanning, patient care and clinical skills while performing a supportive role in the imaging department.
Prerequisite: DMS 150 with a minimum grade of C or Program Chair approval.

DMS 160  Clinical Seminar I  (2)
In this course, students will reflect on their role in the clinical setting and educate their peers based on their own learning experiences. Presentations and discussions will be centered on identifying barriers to learning, strategies to maximize educational opportunities and discussing applications of their didactic knowledge in the clinical setting. Students will also begin to plan a continuing education seminar for the benefit of community sonographers.
Prerequisite: Acceptance into DMS program or Program Director approval.

DMS 175  DMS Orientation  (2)
This course familiarizes students with their instructors, classroom and provides a detailed overview of the expectations within the laboratory and clinical settings. Students will also complete basic healthcare certifications and instructions on how to maintain their online immunization records.
Prerequisite: Acceptance into DMS program or Program Chair approval.

DMS 250  Ultrasound Clinical II  (13)
(Formerly known as DMS 251 Ultrasound Clinical III) As the second quarter in the four quarter long clinical internship, students will further their scanning, pathologic identification and basic patient care skills. Students will be performing partial sonographic examinations under the supervision of clinical instructors and refine their communication skills with patients, families and healthcare workers.
Prerequisite: DMS 251 with a minimum grade of C and DMS 160 with a minimum grade of C.

DMS 251  Ultrasound Clinical III  (13)
(Formerly known as DMS 251 Ultrasound Clinical IV) This is the third quarter of the four quarter long clinical internship designed to further promote the student’s development as an entry level sonographer. Students will be to independently perform basic sonographic exams and advanced patient care techniques under minimal direct supervision of clinical instructors.
Prerequisite: DMS 250 with a minimum grade of C or Program Chair approval.

DMS 252  Ultrasound Clinical IV  (13)
(Formerly known as DMS 252 Ultrasound Clinical V) As the last quarter of the clinical internship, students will focusing on mastery of advanced scanning, patient care and communication techniques. Students will fully integrate themselves into the imaging department by independently performing sonographic examinations, autonomously responding to high needs patients and functioning as entry level sonographer under the observation and assistance of clinical instructors.
Prerequisite: DMS 251 with a minimum grade of C or Program Chair approval.

DMS 260  Ultrasound Seminar and Critique II  (2)
In this course, students will reflect on their role in the clinical setting and educate their peers based on their own learning experiences. Presentations and discussions will be centered on analyzing barriers to learning and developing skills on how to overcome them, strategies to maximize educational opportunities and application of didactic knowledge in the clinical setting. Students will continue to plan a continuing education seminar for the benefit of community sonographers.
Prerequisite: DMS 251 with a minimum grade of C and DMS 160 with a minimum grade of C.

DMS 261  Ultrasound Seminar and Critique III  (2)
In this course, students will reflect on their role in the clinical setting and educate their peers based on their own learning experiences. Presentations and discussions will be centered on developing strategies to overcome barriers to learning, skills to maximize educational opportunities and how the integration of didactic and clinical knowledge applies to the role of an entry level sonographer. Students will continue to plan a continuing education seminar for the benefit of community sonographers.
Prerequisite: DMS 260 with a minimum grade of C or Program Chair approval.
DMS 270 Sonography Registry Review (2)
This course prepares students to sit for national registry exams required by the American Registry of Diagnostic Medical Sonographers. Testing strategies, study guide development and mock exams will be used to prepare students for the Abdominal and Obstetric/Gynecology specialties.
Prerequisite: DMS 251 with a minimum grade of C or Program Chair approval.

DMS 299 Clinical Independent Study (3)
This supplementary clinical course allows students to continue their skill development in the clinical setting.
Prerequisite: DMS 151 with a minimum grade of C and all DMS didactic and lab coursework with a minimum grade of C.

ECE 100 Introduction to Early Childhood Education (3)
(Formerly EDP 100) This course offers an overview of the early childhood profession. This will include historical perspectives, current trends, professional expectations, settings, and evidence-based best practice described by the National Association for the Education of Young Children, the Division for Early Childhood, and the Council for Exceptional Children. This course addresses children birth to eight years old, including those who are culturally, linguistically, and ability diverse.

ECE 101 Early Childhood Environmental Design (3)
(Formerly EDP 101) This course offers an introduction to evidence-based research and techniques for designing early childhood and school environments for young children (birth to eight years old), including those who are culturally, linguistically, and ability diverse. Schedules, materials, room arrangement, and center-based learning will be addressed. Students will also learn strategies for meaningful observations and ways to adapt environments to support the development of each child’s potential.

ECE 102 Math, Science, and Technology for Young Children (3)
(Formerly EDP 102) This course focuses on the integration of developmentally appropriate math, science, and technology content into the early childhood classroom curriculum. The process of using inquiry tools and problem-solving strategies and focused learning centers with content embedded in all other classroom areas is explored. Examine numerous evidence-based instructional strategies for teaching young children, birth to eight years old, including those who are culturally, linguistically and ability diverse.

ECE 112 Language, Literacy, and the Arts in Early Childhood Education (3)
(Formerly EDP 112) This course will familiarize students with approaches to planning and integrating a developmentally appropriate language, literacy, and arts curriculum. Students will examine numerous evidence-based instructional strategies for teaching young children, birth to eight years old, including those who are culturally, linguistically, and ability diverse.

ECE 121 Child, Family and Community Relations I - Creating Community Among Adults in Early Care Settings (1)
(Formerly EDP 121) Early care and education professionals will learn about the importance of adult relationships in child care and early learning settings.

ECE 122 Child, Family and Community Relations II Building a Caring Community with Children (1)
(Formerly EDP 122) Caregivers will learn about concepts and the value of the caregiver-child relationship. The course will focus on care giving practices to strengthen and build skills to promote positive interactions and relationships.

ECE 123 Child, Family and Community Relations III Building Quality Relationships with Families (1)
(Formerly EDP 123) Caregivers will explore ways to form culturally-responsive partnerships with families and parents.

ECE 130 Cultural Competency and Responsiveness in Early Childhood Education (2)
(Formerly EDP 130) This course covers evidence-based practices related to providing responsive care and education in home, classroom, and community settings serving culturally, linguistically, and ability-diverse children, birth to eight-years-old, and their families. Students will be required to examine their own personal culture and to explore ways in which to become an effective teacher to each young child. Included are strategies for helping teachers, children, families, and colleagues to communicate, negotiate, and resolve dilemmas caused by cultural
Early Childhood Education

differences. There will be a focus on using an anti-bias approach. (multicultural content)

ECE 140 Promoting Positive Behavior (3)
(Formerly EDP 140) An exploration of preventive and effective behavior guidance techniques with emphasis on positive behavior support and social-emotional competence in young children, birth to eight years old, including those who are culturally, linguistically, and ability diverse. Completion of ECE 141, 142, 143 is equivalent to ECE 140.

ECE 141 Promoting Positive Behavior I (1)
(Formerly EDP 141) In this course students will explore social-emotional development and child guidance. The foundational aspect of building relationships with children, including those who are culturally, linguistically, and ability diverse, will be emphasized and students will examine how terminology impacts adult perspectives on child guidance. Completion of ECE-141, 142, 143 will be equivalent to ECE-140.

ECE 142 Promoting Positive Behavior II (1)
(Formerly EDP 142) This course is an exploration of how the environment influences children’s behavior. Environmental variables such as the physical and temporal aspects of the classroom, interactions, and using social-emotional teaching strategies with all children, including those who are culturally, linguistically, and ability diverse, will be addressed. Completion of ECE-141, 142, 143 will be equivalent to ECE-140.

ECE 143 Promoting Positive Behavior III (1)
(Formerly EDP 143) In this course, students will review the foundational components of child guidance and learn about creating an individual plan for children who need extra support to function effectively in the classroom. Students will compare teacher conduct as a professional vs. a technician and address how to ensure success for each child, including those who are culturally, linguistically, and ability diverse. Completion of ECE-141, 142, 143 will be equivalent to ECE-140.

ECE 192 Early Childhood Clinical Experience II (2)
Clinical experience that provides students the opportunity to observe and practice the skills, theories and behaviors taught in the coursework for the child development specialist certificate. Must be taken concurrently with ECE-202
Prerequisite: ECE 202

ECE 193 Early Childhood Clinical Experience III (2)
Clinical experience that provides students the opportunity to observe and practice the skills, theories and behaviors taught in the coursework for the child development specialist certificate. Must be taken concurrently with ECE-101
Prerequisite: ECE 101.

ECE 201 Effective Communication with Colleagues and Families (3)
(Formerly EDP 204) This course teaches effective communication techniques for interacting with colleagues and families of young children, birth to eight-years-old, including those who are culturally, linguistically, and ability diverse in a variety of early childhood education settings.

ECE 202 Nutrition, Health, and Safety for Young Children (3)
(Formerly EDP 202) This course offers a practical and evidence-based study of the health, safety, and nutrition of young children, birth through age eight years old, including those who are culturally, linguistically, and ability diverse; incorporating prevention, emergency management, and family conscious services.

ECE 203 Family Systems & Supports (3)
(Formerly EDP 203) This course offers an introduction to varying family dynamics within family systems as they relate to working with young children (birth to 8 years old) and their families who are culturally, linguistically and ability diverse in community, home, and early childhood education settings. This includes describing evidence-based, supportive, and culturally responsive approaches for working collaboratively with families to address their concerns, resources, and priorities.

ECE 211 Administration of Early Learning Programs I - Program Administration (1)
(Formerly EDP 211) This course emphasizes the technical knowledge necessary to develop and maintain a quality early care and education program. It focuses on planning, developing and managing a center; and meeting licensing, accreditation regulations and guidelines.

ECE 212 Administration of Early Learning Programs II - Operation of Children’s Programs (1)
(Formerly EDP 212) This course focuses on the operation of children's programs in early learning centers. It addresses the grouping of children; creating developmentally appropriate curriculum that is relevant for children for birth through age eight; and implementing a food program.

ECE 213 Administration of Early Learning Programs III - Staffing and Professional Development (1)
(Formerly EDP 213) This course addresses staff recruitment, retention, support, and supervision which will lay a foundation for positive personnel management. Professional responsibilities such as cultural responsiveness and reflective practice are also examined.

ECE 290 Practicum (3)
(Formerly EDP 290) This is a 99 hour, supervised classroom experience in an integrated early childhood education setting and is the capstone class for the Paraeducation program. This includes birth to eight-year-old children who are culturally, linguistically, and ability diverse in either a school and/or current work site. This practicum provides students the opportunity to demonstrate the skills and knowledge they gained in their previous early childhood education courses which must be successfully completed before taking this class. Students are expected to follow practicum expectations, procedures, responsibilities, and methods of evaluation. Criminal background clearances are required.
Prerequisite: Instructor permission and criminal background clearances required.
Economics

ECON& 201  Micro Economics  (5)
(Formerly ECON-201) Theory of the market systems as a method of allocating resources and distributing income and products. Analysis of current problems including government regulation, subsidies, monopoly, and taxation. Prerequisite: MATH 095 with a minimum grade of C or assessment above MATH 095.

ECON& 202  Macro Economics  (5)
(Formerly ECON-200) History and development of the United States' economy, including effects of government taxing and spending, control of the money supply, and effects of international trade. Prerequisite: MATH 095 with a minimum grade of C or assessment above MATH 095.

Education

EDUC& 115  Child Development  (5)
The purpose of this course is to provide the student with an overview of the study of child development, including those children who are culturally, linguistically, and ability diverse. The scientific and theoretical approaches to studying the development of the physical, cognitive, communication, social, and emotional changes that occur from conception through adolescence and the biological and/or environmental influences that affect this development will be addressed. Materials and resources regarding communication with families, brain development, and milestones for each stage of development will also be provided. Four field observations within inclusive child care settings are required outside of class time. Prerequisite: PSYC& 100.

EDUC& 205  Introduction to Education w/Field Experience  (5)
(Formerly EDUC-201) Designed for students who are considering teaching as a profession, the course will examine historical and philosophical foundations of American education, learning theories, contemporary students, and curriculum development. The course will also explore the social, political, cultural, and economic pressures that influence current issues and trends in education. Includes a required field experience in a public school K-12 setting (40 hours) that provides students opportunities to observe and reflect upon today's classrooms, students, and teachers. Prerequisite: Assessment at college-level reading and writing.

EDUC 220  Diversity in Education  (5)
Examination of the relationship of cultural values to the formation of the child's self-concept and learning styles. Examination of the role of prejudice, stereotyping and cultural incompatibilities in education. Emphasis on preparing future teachers to offer an equal educational opportunity to children of all socioeconomic and cultural groups, as well as inclusion of exceptional children. (multicultural content)

EDUC 299  Early Childhood Field Experience  (2)
A 2-credit course based on an independent study contracted between an instructor and a student. This class is taken concurrently with EDP-100 which will provide the opportunity to work with children in ECE classrooms, learning and implementing developmentally appropriate practices in guidance, curriculum, observation, assessment and the preparation of the physical environment. Prerequisite: EDP 100 must be taken concurrently.
Emergency Medical & Health Services

**EMC 110 Emergency Medical Technician Basic (10)**
Upon completion of this course, students are prepared to fulfill state and/or National Registry requirements for certification as an EMT-Basic, the entry level position in EMS for pre-hospital care providers. EMT-Bs provide basic life support and transportation for victims of illness and injury. Includes 121 hours of lecture and practical class work time, and some clinical observation. Class also meets a portion of the prerequisites for the Paramedic program. Program adheres to the U.S. Department of Transportation guidelines and the Washington State Department of Social and Health Services standards.

**Prerequisite:** Students must be formally accepted into the EMC program prior to registering for this class. Please refer to the Health, Business, and Professional Services Division for more information.

**NOTE:** Active affiliation with an EMS provider agency is required for state certification. Class may be taken without affiliation; however, students will not obtain state certification without being affiliated.

**EMC 112 Emergency Medical Technician Recertification (4)**
For the currently certified EMT-Basic who needs to fulfill state, county, and/or National Registry requirements for recertification.

**Prerequisite:** Current state, county, or National Registry EMT-Basic Certification and Program Chair permission.

**EMC 116 Introduction to Emergency Medical Care (4)**
EMC introduces the concept of pre-hospital care. Fundamental principles of the practice are presented in this hybrid course, i.e., medical ethics, role & responsibilities, critical thinking, medical math, and health and wellness.

**Prerequisite:** Acceptance into the Paramedic Program.

**EMC 120 Paramedic I (12)**
The first of three courses for the education of prehospital advanced life support paramedic personnel. Advanced concepts and skills in patient Assessment, airway management, shock management and I.V. therapy, pharmacology and drug administration, Advanced Cardiac Life Support (ACLS) provider course included.

**Prerequisite:** Acceptance into the Paramedic Certificate Program.

**EMC 121 Paramedic II (12)**
Second in the three-quarter paramedic course. Covers assessment and management of the trauma victim; soft tissue injuries; respiratory emergencies; musculoskeletal injuries; medical, pediatric, psychiatric, obstetric and gynecologic, toxic, allergic, environmental and mass casualty emergencies. Pre-hospital trauma life support (PHTLS-Provider) as well as the PALS provider course included.

**Prerequisite:** EMC 120 and EMC 130.

**EMC 122 Paramedic III (5)**
Third in three quarter series reviewing the entire didactic content as applied to case studies. Requires extensive application of the material covered in EMC 120 and EMC 121.

**Prerequisite:** EMC 121 and EMC 131.

**EMC 123 Paramedic Clinical I (4)**
First-quarter clinical and in-field experience for paramedic students taken in conjunction with EMC 120. Includes clinical experience in hospital and in-field experience.

**Prerequisite:** Acceptance into the Paramedic Certificate Program.

**EMC 124 Paramedic Clinical II (7)**
Second-quarter clinical and field experience for Paramedic students taken in conjunction with EMC 121. Students will have assigned clinical and in-field rotations.

**Prerequisite:** EMC 120 and EMC 130.

**EMC 125 Paramedic Clinical III (9)**
Continuation of EMC-131. Emphasis is on clinical and extensive in-field experience. Third quarter clinical and in-field experience for paramedic students includes specified hospital assignments and extensive in-field experience.

**Prerequisite:** EMC 121 and EMC 131.
Engineering

The Engineering transfer program is designed to offer students the same courses as the first two years at a baccalaureate institution.

There are three specific discipline-related Associate of Science in Engineering degrees: (1) Civil, Mechanical, Industrial, Aeronautical/Astronautical and Material Science Engineering, (2) Electrical Engineering and Computer Engineering, and (3) BioEngineering and Chemical Engineering. There is also a General Engineering Associate of Science. Students are encouraged to pursue one of the specific discipline-related Associate of Science in Engineering degrees, rather than the General Engineering degree, unless advised to do otherwise by an engineering advisor. Students are strongly encouraged to meet with an Engineering advisor as early as possible.

Students seeking courses for general interest, upgrading skills, or college-level electives should consider ENGR& 104, ENGR& 114, and ENGL& 235.

TCC supports a local chapter of the ASME (American Society of Mechanical Engineers) and encourages student involvement.

ENGR& 104 Introduction to Engineering and Design (5)
(Formerly ENGR-100) Introduction to the engineering profession and its design process by building group skills, understanding the effects of different learning styles, producing strategies for innovation, and fostering creativity in problem solving. Includes design projects, journal keeping, professionalism and ethical issues, and oral presentations. Acquaints students with disciplines and opportunities in engineering.
Prerequisite: ENGL/095 with a minimum grade of C or equivalent and MATH 090 with a minimum grade of C or equivalent.

ENGR& 114 Engineering Graphics (5)
(Formerly ENGR-123) An introduction to Computer Aided Design (CAD) using software based on parametric solid modeling. Students will use the software to create virtual models, show the models in various projections and views, manage the associated computer files, and produce engineering drawings. The course includes the engineering graphics topics of three-dimensional visualization, sketching, displaying solid objects in two-dimensional views, dimensioning, and reading engineering drawings.
Prerequisite: ENGL/095 with a minimum grade of C or equivalent; and MATH 090 with a minimum grade of C or equivalent.

ENGR& 204 Electrical Circuits (5)
(Formerly ENGR-215) An introduction to electrical engineering through basic circuit and system concepts. Topics include: resistors, sources, capacitors, inductors, operational amplifiers, node and mesh analysis, Thevenin and Norton equivalents and RLC circuits. Solution of first and second order linear differential equations associated with basic circuit forms will be used.
Prerequisite: PHYS& 222 and MATH& 152. Recommended: MATH 238.

ENGR& 214 Statics (5)
(Formerly ENGR-210) Scalar and vector analysis of two, and three-dimensional static structures. Topics include: vector notation, equilibrium, moments, couples, distributed loads, resultants, trusses, frames and machines, center of mass, inertia, shear and bending moment diagrams, and friction. Includes a team project.
Prerequisite: PHYS 121 (may be taken concurrently) and MATH& 152.

ENGR& 215 Dynamics (5)
(Formerly ENGR-230) Dynamics of particles and rigid bodies, using the vector notation. Topics covered in this course include: kinematics, kinetics, rectangular coordinates, normal and tangent coordinates, polar coordinates, curvilinear motion, work, energy, impulse, momentum, impact, steady mass flow, rotation, absolute motion and relative motion. Includes design project.
Prerequisite: ENGR& 214 and MATH& 153.

ENGR& 224 Engineering Thermodynamics (5)
(Formerly ENGR-260) Introduction to principles of thermodynamics from a predominantly macroscopic point of view. Development of the basic laws of thermodynamics and their application to energy transformation and state changes in engineering problems. Topics include work, heat, energy, entropy, specific heat, open and closed system analysis, and applications to devices and systems. Simple power and refrigeration cycles, including Carnot, Otto, Diesel, Brayton and Rankine are introduced.
Prerequisite: PHYS& 221 (may be taken concurrently) and MATH& 152 and CHEM& 61.

ENGR& 225 Mechanics of Materials (5)
(Formerly ENGR-220) An introduction to the concepts of stress, strain, deformation, and failure theory in solid materials. Applies mechanics of materials concepts to structural and machine elements in tension, compression, bending, and torsion. Topics include deformation of members, Poisson’s ratio, stress concentrations, thermal stress, statically indeterminate techniques, flexure formula, shear formula, stress transformation, Mohr’s circle, strain gauges, deflections, and columns. Includes a design project.
Prerequisite: MATH& 153 (may be taken concurrently) and ENGR& 214.

ENGR 240 Applied Numerical Methods (5)
Numerical solutions to problems in engineering and science using modern scientific computing tools. Application of mathematical judgment in selecting computational algorithms and communicating results. Introduction to MATLAB programming for numerical computation.
Prerequisite: MATH& 153. Recommended: MATH 220.

ENGR 299 Independent Study (1)
Independent design, observation, analysis, and reporting of an engineering project or topic.
Prerequisite: Instructor permission.
English: Composition

Students enrolled in the English for Academic Purposes program are strongly advised to complete the program before attempting the English program designed for native speakers. Courses numbered below 100 cannot be applied towards certificate or degree requirements.

**ENGL/ 085 Academic Reading and Writing I: Foundations (10)**
A pre-college integrated reading and writing course that provides instructions and practice skills needed for placement into ENGL/095. Course work includes grammatical concepts in order to write clear and correct sentences and paragraphs. This course is designed to introduce basic reading skills and to develop basic writing skills. Course work emphasizes writing from observations as well as writing in response to readings. The writing focus is on writing sentences which demonstrate a basic grasp of syntax and usage and writing sound paragraphs which express a main idea clearly and develop it fully with a minimum of errors in sentence structure, punctuation, and spelling. This course enables students to work with essential text structure and to begin basic analysis of passages from a variety of texts. Identification of main points, details, and implications are included, as well as skills in outlining and summarizing. Lab application is used for practice, and vocabulary development is included.

Prerequisite: Either EAP 155 and EAP 159 with a minimum grade of C or assessment into either ENGL 095 and READ 095 or ENGL/095.

**ENGL/ 095 Academic Reading and Writing II: Threshold (10)**
An integrated pre-college course designed to improve the student’s reading and writing ability for entrance into ENGL/101. Course work focuses on critical reading and analytical writing in response to readings, with an emphasis on organization, unity, coherence, and adequate development; an introduction to expository essays; and a review of the rules and conventions of standard written English. Essay and research writing is included. This is a preparatory class for college success with reading emphasis on text analysis for structure, inferring meaning, critical thinking, and vocabulary development. Introduction to literary devices is included. A variety of expository excerpts from college textbooks are used for demonstration of skills. Lab application is used for practice.

Prerequisite: Either EAP 155 and EAP 159 with a minimum grade of C, EAP 154 with a minimum grade of C, READ 085 and ENGL 085 with a minimum grade of C, or assessment into either ENGL 095 and READ 095 or ENGL/095.

**ENGL& 101 English Composition I (5)**
(Previously ENGL-101) Study and application of the principles of college writing. Students read, analyze, and write expository, descriptive, and argumentative essays, as well as learn to develop ideas fully, organize them effectively, and express them clearly. ENGL 101 readings focus on the essay. This course may not be taken “S/U.”

Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL/095 with a minimum grade of C or assessment at or above college-level reading and writing.

**ENGL& 102 Composition II: Argument and Persuasion (5)**
(Formerly ENGL-102) The application and further development of writing principles covered in ENGL&-101. ENGL&-102 is a composition course designed to develop the student’s ability to write sound and cogent arguments in several academic disciplines. Course work focuses on strategies for developing convincing evidence, with emphasis on critical thinking and library research skills. This course may not be taken “S/U.”

Prerequisite: ENGL& 101 with a minimum grade of C.

**ENGL 103 Composition III: Writing about Literature (5)**
The application and further development of writing principles covered in ENGL&-101. The writing - primarily analytical - is based on the reading and discussion of literature. This course may not be taken “S/U.”

Prerequisite: ENGL& 101 with a minimum grade of C.

---

English: Literature

**ENGL 178 Trillium Production Workshop (2)**
(Formerly ENGL 179) Course covers the basics of editing, design, and production of a literary magazine offering practical hands-on experience.

Prerequisite: Instructor permission.

**ENGL 180 Una Voce Workshop (2)**
Una Voce Workshop provides practical, hands-on experience at every stage of the production of a magazine: solicitation of essays, selection of submissions, arrangement of submissions, writing of introductions, proofreading, and publication.

Prerequisite: ENGL& 101 with a minimum grade of C.

**ENGL 234 Introduction to Mythology and Folk Stories (5)**
A comparative study of myths and folklore throughout the world. Emphasis is on the commonality of concerns and values expressed by both western and non-western cultures and on the literary value of myths and folklore. (multicultural content) (writing intensive)

Prerequisite: ENGL/095 with a minimum grade C or equivalent.

**ENGL 242 Contemporary Non-Western Literature (5)**
A survey of contemporary non-Western literature. Various cultural and historical themes will be studied from quarter to quarter. (multicultural content) (writing intensive)

Prerequisite: Completion of READ 095 and ENGL 095 with a minimum grade of C or ENGL/095 with a minimum grade of C or assessment at college-level reading and writing.
English: Literature

**ENGL 261  The Bible as Literature (5)**
The Bible as Literature examines the Bible, both the Hebrew Bible and the Christian Testament, as a collection of literary works. Students learn to recognize plot, theme, character, setting, style, and figurative language and to consider the interaction of those elements. They also learn about the history of the composition, transmission, and translation of the works. There is emphasis on the original cultural context of the stories and on the ways they have been revised and reinterpreted in other cultures. The purpose of the course is not to supplant the Bible as a religious text, but to enhance each student's appreciation of the Bible regardless of his or her religious convictions. (multicultural content) (writing intensive)
Prerequisite: ENGL& 101 with a minimum grade of C.

**ENGL 262  Children's Literature (5)**
Children's Literature is the study of classic and contemporary fiction and poetry for children, from the early reading levels through high school. Although the course is intended for students who plan to become teachers, it is open to all students who meet the prerequisites. Students examine and critique a variety of works on the basis of the elements of literature, such as plot, character, theme, setting, and style. They research the historical contexts of the works. They present their critiques and findings in written form, along with specific suggestions for teaching the works. (multicultural content) (writing intensive)
Prerequisite: ENGL& 101 with a minimum grade of C.

**ENGL 264  English Literature: From Beowulf Through Shakespeare (5)**
Survey of English literature from three major periods of English literature: Old English (500-1100), Middle English (1100-1500), and the English Renaissance. (writing intensive)
Prerequisite: ENGL& 101 with a minimum grade of C.

**ENGL 265  English Literature: From Donne Through Blake (5)**
Survey of English literature from the Donne (1630s) through Blake (early Romantics, 1780s). (writing intensive)
Prerequisite: ENGL& 101 with a minimum grade of C.

**ENGL 267  Contemporary American Fiction (5)**
Study of American fiction written since 1960 with an emphasis on the major writers and themes of contemporary fiction. (multicultural content) (writing intensive)
Prerequisite: Completion of READ 095 and ENGL 096 with a minimum grade of C or assessment at college-level reading and writing.

**ENGL 276  Creative Writing: Fiction (3)**
A workshop for the writing of fiction (short story, novel), with particular attention to techniques used by contemporary authors. Course is flexible to meet needs of individual students. Performance/skills course. (writing intensive)
Prerequisite: ENGL& 101 with a minimum grade of C.

**ENGL 278  Creative Writing: Poetry (2)**
A workshop for the writing of poetry, and the study and analysis of poetry techniques. Course is flexible to meet the needs of the individual students and may be repeated. Performance/skills course. (writing intensive)
Prerequisite: ENGL& 101 with a minimum grade of C.

**ENGL 280  Literatures of Diversity (5)**
An introduction to the literatures of various cultures. Includes a study of historical and cultural context within which the literature evolved. Various single authors or a combination of authors will be studied from quarter to quarter. May be taken twice as cultures or authors covered are different each offering. (multicultural content) (writing intensive)
Prerequisite: Completion of READ 095 and ENGL 096 with a minimum grade of C or assessment at college-level reading and writing.

**ENGL 299  Independent Study (5)**
Individual study, project-oriented. Instructor permission required and the successful completion of ENGL 101 and 102.

**ENGL& 220  Introduction to Shakespeare (5)**
(Formerly ENGL 250) Introduction to Shakespeare through a study of several of his tragedies, histories, comedies, and sonnets. (writing intensive)
Prerequisite: ENGL& 101 with a minimum grade of C.

**ENGL& 235  Technical Writing (5)**
(Formerly ENGR 231) A practical course in organizing, developing and writing technical information, including reports. Attention given to organizational patterns and report formats common to scientific and technical disciplines and technical writing conventions, including headings, illustrations, style and tone.
Prerequisite: ENGL& 101 with a grade of C or higher.

**ENGL& 244  American Literature I (5)**
(Formerly ENGL 267) Survey of American literature from the beginnings through the Civil War. (multicultural content) (writing intensive)
Prerequisite: ENGL 095 with a minimum grade of C or equivalent.
ENGL& 245  American Literature II  (5)  
(Formerly ENGL 268) Survey of American literature from the Civil War to the eve of World War I examining the current literary periods or genres: Slave and Abolition narratives, Transcendentalism, Pastoral Tradition, Naturalism, Early Feminism, American Gothic, Expressionism, and Romanticism. Writing assignments, primarily analytical, are based on the reading, research and discussion of literature. (multicultural content) (writing intensive)  
Prerequisite: ENGL/ 095 with a minimum grade of C or equivalent.

ENGL& 246  American Literature III  (5)  
(Formerly ENGL 269) Survey of American literature from 1910-1960 examining the current literary periods: Imagism, Confessional Poetry, Beat Generation, Lost Generation, Southern Renaissance, Harlem Renaissance, Modernism, Realism, Naturalism, Post-Modernism, and Metafiction. Writing assignments, primarily analytical, are based on the reading, research and discussion of literature. (multicultural content) (writing intensive)  
Prerequisite: ENGL/ 095 with a minimum grade of C or equivalent.

EAR 085  Introduction to Reading, Writing and Grammar  (14)  
Beginning -level contextualized reading, writing, and grammar class for nonnative speakers of English. Students learn basic reading, spelling, and sentence structure, and are introduced to the writing process through a series of project-based activities. Prerequisite: EAP placement exam.

EAP 089  Pronunciation and Conversation I  (3)  
A beginning-level course in conversation and pronunciation for non-native speakers of English. Students are introduced to the pronunciation of specific English sounds and basic intonation patterns, contextualized and practiced in conversation.  
Prerequisite: EAP placement exam.

EAP 090  Pronunciation and Conversation II  (2)  
A course in pronunciation and conversation for non-native speakers of English at the advanced-beginning or low-intermediate level. While developing conversational fluency, students improve their pronunciation of both the specific sounds and the intonation patterns of English. Some practice in note-taking is also included.  
Prerequisite: EAP-089 with a grade of C or higher, or EAP placement exam.

EAP 092  Grammar and Speaking II  (5)  
The second in a series of five grammar and speaking courses for non-native speakers of English at the advanced-beginner level. This course is designed to give students a strong grammatical basis in English and to improve their speaking and listening skills. At least one oral report is required.  
Prerequisite: EAP 095 with a minimum grade of C or EAP placement exam.

EAP 093  Grammar and Speaking III  (5)  
The third in a series of five grammar and speaking classes for non-native speakers of English at the low-intermediate level. The focus is on grammar usage with work on the comprehension of spoken English.  
Prerequisite: EAP 092 with a grade of C or higher, or EAP placement exam.

EAP 094  Grammar and Speaking IV  (5)  
The fourth in a series of five grammar and speaking classes for non-native speakers of English at the high intermediate level. The class focuses on grammar plus classroom discussion and reports. Prerequisite: EAP-093 with a grade of C or higher, or EAP placement exam.

EAP 095  Reading, Writing, & Grammar I  (14)  
Beginning-level contextualized reading, writing, and grammar class for nonnative speakers of English. Students learn the basics of sentence structure and the writing process through a series of project-based activities. Reading and grammar activities provide support for the writing projects and develop students’ reading comprehension and vocabulary as they progress from writing simple sentences to single narrative paragraphs.  
Prerequisite: EAP placement exam.

EAP 096  Reading and Writing II  (10)  
The second in a series of five reading and writing courses for non-native speakers of English. Students are introduced to the writing process as they progress from sentences to one-paragraph compositions. Reading assignments provide support for the writing projects while improving students’ reading comprehension, speed and vocabulary.  
Prerequisite: EAP-095 with a grade of C or higher, or EAP placement exam.

EAP 097  Reading and Writing III  (10)  
The third in a series of five reading and writing courses for non-native speakers of English. Students practice the writing process of short narrative, descriptive and summary compositions. Grammar and mechanics are practiced in the context of writing assignments. Reading lessons support writing activities and build reading comprehension, retention, and vocabulary.  
Prerequisite: EAP-096 with a minimum grade of C or EAP placement exam.
English for Academic Purposes

EAP 098   Reading and Writing IV  (8)
The fourth in a series of five reading and writing courses for non-native speakers of English. Students progress from one-paragraph to multiple-paragraph compositions, focusing on the writing process for persuasive, descriptive, narrative, and expository essays. Readings provide background for compositions while building students' vocabulary, comprehension, and retention.
Prerequisite: EAP 097 with a minimum grade of C or instructor permission.

EAP 099   High Intermediate EAP Composition and Reading  (10)
EAP 99 synthesizes skills taught in EAP 98 and 94 in the context of a variety of introductory-level transfer or professional/technical courses, introducing students to the reading and writing skills necessary for college success. Coursework moves from one-paragraph to multiple-paragraph compositions, focusing on the writing process for persuasive, descriptive, narrative, and expository essays while also working on sentence-level issues. Readings provide background for compositions; support learning in the content course; and build students' vocabulary, comprehension, and retention.
Prerequisite: EAP placement exam or EAP 097 with a minimum grade of C and EAP 093 with a minimum grade of C.

EAP 154   Advanced Composition and Reading  (10)
EAP 154 synthesizes skills taught in EAP-155 and EAP-159 in the context of a variety of transfer or professional technical courses, helping students build the reading and writing skills necessary for success in these courses. Course work focuses on increasing reading speed, comprehension, and retention; and gaining mastery of the essay writing process and editing/polishing skills.
Prerequisite: Either completion of EAP 094 and EAP 098 with minimum grade of C, or completion of EAP 099 with a minimum grade of C, or EAP placement exam.

EAP 155   Grammar and Speaking V  (5)
The last in a series of five grammar and speaking courses for non-native speakers of English at the advanced level. The course focuses on areas of English grammar that present difficulties to advanced students of the language; aural comprehension, speaking skills, and vocabulary development are also included.
Prerequisite: EAP 094 with a grade of C or higher, or EAP placement exam.

EAP 159   Reading and Writing V  (7)
The last in a series of five reading and writing courses for non-native English speakers, designed to prepare advanced students for composition classes with native speakers. Focuses on multiple-paragraph essays, stressing revising and polishing skills. Readings provide background for the writing component, with emphasis on comprehension, speed, retention, and vocabulary.
Prerequisite: EAP 098 with a grade of C or higher, or EAP placement exam.

EAP 160   Advanced Writing  (5)
An advanced writing course for non-native speakers of English. The course focuses on assessment and improvement of sentence structure and writing style, allowing students to edit their own writing in order to improve accuracy, variety, and sophistication of sentences and paragraphs.
Prerequisite: EAP 155 with a grade of C or higher, or EAP placement exam.

EAP 162   Advanced Reading  (5)
An advanced course in reading for non-native speakers of English. The course focuses on reading skills including finding main ideas and details, looking at patterns of organization and transitions, and developing vocabulary.
Prerequisite: EAP 159 with a grade of C or higher, or EAP placement exam.

EAP 190   American Culture & Conversation (3)
A course in conversational English focused on contemporary American culture for non-native speakers of English at the high-intermediate or advanced level. Students explore current issues in American life through readings, videos, and conversation. This course may be taken twice for credit.
Prerequisite: EAP 090 with a minimum grade of C or EAP 093 with a minimum grade of C or EAP placement exam.

EAP 191   Pronunciation & Conversation III  (2)
Instruction and practice in recognition and production of individual phonemes of American English and of word accent and intonation levels at the high intermediate-advanced level. Students participate in a variety of speech activities: speech giving, poetry reading, role playing, debating.
Prerequisite: EAP 090 with a minimum grade of C or EAP 093 with a minimum grade of C or EAP placement exam.

EAP 193   Pronunciation & Conversation IV  (2)
An advanced course in English pronunciation and conversation for nonnative speakers of American English as well as word stress and sentence-level intonation patterns. This course includes a variety of speech activities such as speech giving, debating, role playing, and individual and panel presentations
Prerequisite: EAP 191 with a minimum grade of C or instructor permission.

EAP 194   American Culture and Conversation II - Advanced  (3)
A course in conversational English focused on contemporary American culture for nonnative speakers of English at the advanced level. Students explore current issues in American life through readings, videos, conversation, and interviews.
Prerequisite: EAP 190 with a minimum grade of C or instructor permission.
Environmental Science

Students seeking courses for general interest or degree distribution requirements may consider any environmental science courses.

Students intending to major in Environmental Science at a baccalaureate institution should work towards an Associate of Science degree with an Environmental Science specialization and consult with an environmental science advisor in the biology or earth science departments.

**ENVS& 101 Introduction to Environmental Science** (5)
(Formerly ENVSC-106) An interdisciplinary science course for both non-science majors and beginning science students. Topics such as overpopulation, energy, biodiversity, climate change, and pollution are covered. Underlying scientific principles are identified and related to relevant global, national and local perspectives. Laboratories and field trips included.

*Prerequisite: ENGL 095 with a minimum grade of C or equivalent; and either MATH 090 with a minimum grade of C or MATH 093 with a minimum grade of C or equivalent.*

**ENVS 179 Special Topics in Environmental Science** (2)
Specific environmental topics will be explored using a variety of methods which may include seminars, lectures, research projects, presentations, laboratory experiments, field work, and all-day or overnight field trips depending on the quarter offered. Topics for any one quarter may include biodiversity, toxins and human health, invasive species, water quality, climate change etc.

*Prerequisite: ENGL 095 with a minimum grade of C or equivalent; and either MATH 090 with a minimum grade of C or equivalent or MATH 093 with a minimum grade of C or equivalent.*

**ENVS 210 Maps, GIS and the Environment** (5)
Introduces students to the elements of geographic information systems (GIS) including cartography, data structure, map overlays, and spatial analysis. Applications of GIS to environmental issues relating to hydrology and watershed management, soil science, land-use planning, and conservation are explored in a hands-on style, incorporating both field activities and GIS software. This course is the same course as GEOG 210. Students may receive credit for either ENVSC 210 or GEOG 210 but not both. Laboratories and field trips included.

*Prerequisite: ENGL 095 with a minimum grade of C or equivalent; and either MATH 090 with a minimum grade of C or equivalent or MATH 093 with a minimum grade of C or equivalent.*

---

Experiential Learning

**EXPLR 190 Electronic Portfolio** (2)
Students will clarify their educational intent, study academic standards and work independently. They create inventories of prior learning, participate in discussions, share and collect feedback about experiential learning. Students combine theory with practice through reflective assignments. They develop a professional portfolio for prior learning assessment, transfer and/or future employers.

**EXPLR 290 Internship Experience** (3)
Transfer students may enroll in a work experience internship related to their major area of interest. The work experience may be in either a private or public sector organization. Course includes an orientation, training, site supervision and hour reporting. Internship orientation, mentoring and reporting will be done through Transition Services.

**EXPLR 295 Service Learning Experience** (2)
This course assists students to develop a greater civic awareness and engagement. Students complete an orientation, complete 30-60 service hours and participate in an online classroom. Students combine theory with practice through reflective assignments. When combined with EXPLR-296, this class satisfies the culminating project requirements for local school districts.

**EXPLR 296 Capstone Experience** (1)
This course will assist students to develop an overarching view of their learning through a capstone experience bridging their classroom and community experiences. Students develop a portfolio of their work, prepare a scholarly paper reflecting the knowledge and skills acquired through their external experience and deliver a public presentation.

*Prerequisite: EXPLR 295.*
French

The basic tenets of communications including reading, writing, speaking and listening are developed in a dynamic second language acquisition environment enhanced by technology. Grammar is used as a communication tool to express meaning as students take part in small group discussions, cultural investigation, and presentation. Authentic materials will be focused on in the class as well assessment. Students should expect to be immersed in the language. English will be used at a minimum.

FRCH& 121 French I (5)
(Formerly FREN-101) The first year of the beginning French language sequence consists of 121, 122, and 123. FRCH&-121 is the first quarter of the sequence. (multicultural content)
Prerequisite: READ 095 and ENGL 095 with a minimum grade of C or ENGL/ 095 with a minimum grade of C or assessment at college-level reading and writing or instructor permission.

FRCH& 122 French II (5)
(Formerly FREN-102) FRCH&-122 is the second quarter of the first-year language sequence and continues to build on the skills acquired in FRCH&-121. (multicultural content)
Prerequisite: FRCH& 121 with a minimum grade of C or instructor permission.

FRCH& 123 French III (5)
(Formerly FREN-103) FRCH&-123 is the third quarter of the first-year language sequence and continues to build on the skills acquired in FRCH&-122. This course satisfies the Multicultural distribution requirement. (multicultural content)
Prerequisite: FRCH& 122 with a minimum grade of C or instructor permission.

Fresh Start

FRSH 098 English - Fresh Start (5)
Introduction to literacy and study skills for beginning students enrolled in the Fresh Start program. Academically, the focus is on developing competence in Reading, English, and Technology, but instruction is also provided for social development and is aimed at providing students with skills to be resilient and to focus on program completion.

FRSH 100 Pathways to College Success (5)
This course is designed as an introduction to college for students entering the Fresh Start program. Its purpose is to prepare students to meet the demands of college, understand the expectations of instructors, develop social skills, and improve life management techniques in order to increase their success once they transition into regular TCC courses. Topics will include goal setting, time management, values identification, conflict management, problem solving, and resource identification.

Geography

GEOG 110 Geography of the Pacific Rim (5)
Students will study the geographical elements of the Pacific Rim area. The physical and cultural attributes of each country will be compared. Problems related to the physical environment, ethnic composition, and resources will be emphasized.

GEOG 205 Physical Geography (5)
Study of the formation and evolution of the physical features of the earth, including the atmosphere, climate, and weather; rocks, minerals, vegetation, and soils; erosion and modification of the earth's surfaces; and human impact and modification. Laboratory included.
Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL/ 095 with a minimum grade of C and MATH 090 or MATH 093 with a minimum grade of C or equivalent assessment in these areas.

GEOG 210 Maps, GIS and the Environment (5)
Introduces students to the elements of geographic information systems (GIS) including cartography, data structure, map overlays, and spatial analysis. Applications of GIS to environmental issues relating to hydrology and watershed management, soil science, land-use planning, and conservation are explored in a hands-on style, incorporating both field activities and GIS software. This course is the same course as ENVSC 210. Students may receive credit for either GEOG 210 or ENVSC 210 but not both. Laboratories and field trips included.
Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL/ 095 with a minimum grade of C and MATH 090 or MATH 093 with a minimum grade of C or equivalent assessment in these areas.
Geology

Students seeking courses for general interest or degree distribution requirements may consider GEOL& 101, GEOL 108, GEOL 125, GEOL 179 and GEOL& 208 for the Associate in Arts and Sciences, General Studies and Applied Sciences degrees. GEOL 105 is suitable for general elective categories only. Students intending to major in Geology at a baccalaureate institution should work towards an Associate of Science degree with an Earth Sciences Specialization and consult with the earth sciences advisor.

GEOL& 101 Introduction to Physical Geology (5)
(Formerly GEOL 101) Introduces students to the materials and landscapes of the earth and the diverse geological processes that produce and change them. Subjects include rock formation, volcanoes, glaciers, rivers, and earthquakes. The laboratory includes various activities such as studying rock and mineral specimens, and local field trips. Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL/ 095 with a minimum grade of C and MATH 090 or MATH 093 with a minimum grade of C or equivalent assessment in these areas.

GEOL 108 Fossils and the History of Life (5)
Introduction to the geological and biological processes and events that generated the amazing record of life on earth. Topics include plate tectonics, rocks, fossilization processes, principles of evolution, and a survey of the history of life. Lab includes studying rock and fossil specimens and involves field trips. This course is the same as BIOL 105. Students may receive credit for either GEOL 108 or BIOL 105 but not both. Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL/ 095 with a minimum grade of C and MATH 090 or MATH 093 with a minimum grade of C or equivalent assessment in these areas.

GEOL 125 Geology in the Field (5)
An intensive course in introductory geology, covering the fundamental principles of physical geology and an introduction to field methods. Extended field trip required. Exact itinerary varies quarterly. Laboratory included. Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL/ 095 with a minimum grade of C and MATH 090 or MATH 093 with a minimum grade of C or equivalent assessment in these areas.

GEOL 179 Special Topics in Geology (2)
These are seminars designed to provide geology students with the opportunity to study selected geologic topics and techniques. Topics and/or techniques covered will generally be determined by the instructor but may also reflect the expressed need or interest of students in the earth science program. The seminars will be comprised of lecture, laboratory and fieldtrip activities in varying proportions depending on the specific topic and needs of participating students.

GEOL& 208 Geology of the Pacific Northwest (5)
(Formerly GEOL 208) Study of the geologic history of the Pacific Northwest. Emphasis on both the role of plate tectonics in assembling the region as well as how surface processes such as rivers and volcanism have shaped the landscapes of the area. Field trips required. Laboratory included. Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL/ 095 with a minimum grade of C and MATH 090 or MATH 093 with a minimum grade of C or equivalent assessment in these areas.

GEOL 299 Independent Study in Geology (1)
Independent study of selected geologic topics. Prerequisite: Instructor permission.

German

The basic tenets of communications including reading, writing, speaking, and listening are developed in a dynamic second language acquisition environment enhanced by technology. Grammar is used as a communication tool to express meaning as students take part in small group discussions, cultural investigation, and presentation. Authentic materials will be focused on in the class as well as assessment. Students should expect to be immersed in the language. English will be used at a minimum.

GERM& 121 German I (5)
(Formerly GERM-101) This is the first quarter course in the sequence of GERM& 121, GERM& 122, and GERM& 123. (multicultural content) Prerequisite: READ 095 and ENGL 095 with a minimum grade of C or ENGL/ 095 with a minimum grade of C or assessment at college-level reading and writing or instructor permission.

GERM& 122 German II (5)
(Formerly GERM-102) GERM& 122 is the second quarter course in the sequence of GERM& 121, GERM& 122, and GERM& 123. (multicultural content) Prerequisite: GERM& 121 with a minimum grade of C or instructor permission.

GERM& 123 German III (5)
(Formerly GERM-103) GERM& 123 is the third quarter course in the sequence of GERM& 121, GERM& 122, and GERM& 123. This course satisfies the Multicultural distribution requirement. (multicultural content) Prerequisite: GERM& 122 with a minimum grade of C or instructor permission.
Health Information Technology

Note: Classes are offered in online format.

HIM 130 Medical Terminology I (3)
Study of roots, prefixes, suffixes; principles of word building, study of diagnostic, operative, and symptomatic terms of body systems, emphasis on accurate spelling and pronunciation; study of medical abbreviations, selected eponyms, clinical laboratory and radiology terminology. Course covers multiple systems with a focus on musculoskeletal, respiratory, and cardiovascular systems.
Prerequisite: Assessment at college-level reading and writing.

HIM 131 Medical Terminology II (5)
Continuing study of selected roots, prefixes and suffixes; principles of word building; study of diagnostic, operative, and symptomatic terms of body systems with emphasis on accurate spelling and pronunciation of all medical terms; study of medical abbreviations, selected eponyms, clinical laboratory and radiology terminology.
Prerequisite: HIM 130.

HIM 220 Inpatient Coding (5)
The focus of this course is on the coding guidelines surrounding inpatient diagnostic and procedural coding.
Prerequisite: BIOL& 170 or BIOL& 175 with a minimum grade of C, HIM 125 with a minimum grade of C, HIM 140 with a minimum grade of C, and HIM 160 with a minimum grade of C.

HIM 310 Data Governance (5)
This course covers the management health care data including integration needs and the standardization of data. Topics include documentation guidelines, the exchange of data, health information technologies and data integrity.
Prerequisite: Acceptance into the HIM BAS program - instructor permission only; RHIT credential; MATH 093 and MATH 136 or MATH& 146.

HIM 320 Healthcare Privacy, Confidentiality, and Security (3)
This course covers privacy, security and confidentiality of internal and external health information use and exchange. Students will gain knowledge of data quality and monitoring programs and the legal and ethical implications of health data disclosure. Topics will include privacy, confidentiality, security principles, policies, and procedures, health information laws, regulations, and standards, and elements of a compliance program.
Prerequisite: Acceptance into the HIM BAS Program - instructor permission only; RHIT credential; MATH 093 and MATH 136 or MATH& 146.

HIM 330 Revenue Cycle Management (5)
This course will cover an in depth analysis of revenue cycle and reimbursement methodologies in. Students will learn how to develop and implement healthcare finance and compliance processes in response to increasing demands of the healthcare industry. Topics will include reimbursement management, severity of illness systems, chargemaster management, casemix management, audit processes, and payment systems.
Prerequisite: Acceptance into the HIM BAS Program - instructor permission only; RHIT credential; MATH 093 and MATH 136 or MATH& 146.

HIM 340 Data Quality Management and Performance Improvement (5)
This course covers the foundational base that guides facilities in the management and analysis of healthcare data and that ensures data integrity. Topics include quality assessment and management tools, utilization and resource management, risk management, and disease management processes.
Prerequisite: Acceptance into the HIM BAS Program - instructor permission only; RHIT credential; MATH 093 and MATH 136 or MATH& 146.

HIM 350 Health Information Systems Analysis and Design (5)
This course will examine the tools and knowledge necessary to take part in the planning, design, selection, implementation, integration, testing, evaluation, and support of health information technologies.
Prerequisite: Acceptance into the HIM BAS Program - instructor permission only; RHIT credential; MATH 093 and MATH 136 or MATH& 146.

HIM 410 Healthcare Compliance (5)
This course will evaluate current laws and standards related to health information initiatives. Students will study the link between regulatory compliance, revenue cycle and quality of care. Fraud and abuse trends will be discussed with an emphasis on establishing and managing policies and procedures for compliance.
Prerequisite: Acceptance into the HIM BAS Program - instructor permission only; RHIT credential; MATH 093 and MATH 136 or MATH& 146.

HIM 420 Human Resource Management and Leadership (5)
This course covers theories and best practices of human resource management in healthcare. Topics will include leadership styles, workplace diversity, forming quality work teams, equal opportunity, work analysis, staffing, training and development, performance appraisals, compensation, and grievance procedures.
Prerequisite: Acceptance into the HIM BAS Program - instructor permission only; RHIT credential; MATH 093 and MATH 136 or MATH& 146.

HIM 430 Data Analytics (5)
This course covers methods for extracting and analyzing data for decision making. Students will learn to analyze clinical data to identify trends. Students will gain knowledge of database querying, data exploration, and mining techniques to facilitate information retrieval.
Prerequisite: Acceptance into the HIM BAS Program - instructor permission only; RHIT credential; MATH 093 and MATH 136 or MATH& 146.
HIM 440  Organizational Management in Healthcare (5)
This course covers the foundational tools to effectively create and implement organizational management policies and procedures in a healthcare environment. Prerequisite: Acceptance into the HIM BAS Program - instructor permission only; RHIT credential; MATH 093 and MATH 136 or MATH& 146.

HIM 450  HIM Professional Practice Experience (3)
This course covers an environmental scan of emerging issues and trends in the HIM field. Students will focus on individualized projects that showcase their knowledge. All students will be paired with local health care institutions that will provide students with the opportunity to reinforce their competencies and skills sets. Prerequisite: HIM 310 with a minimum grade of C; HIM 320 with a minimum grade of C; HIM 330 with a minimum grade of C; HIM 340 with a minimum grade of C; HIM 350 with a minimum grade of C; HIM 410 with a minimum grade of C; HIM 420 with a minimum grade of C; HIM 430 with a minimum grade of C; HIM 440 with a minimum grade of C or concurrent enrollment.

HIT 105  Comprehensive Medical Terminology (5)
(Formerly HIM 106) This course covers the comprehensive study of roots, prefixes, suffixes, principles of word building, study of diagnostic, operative, and symptomatic terms of body systems with an emphasis on accurate spelling and pronunciation of all medical terms; study of medical abbreviations, eponyms, clinical laboratory and radiology terminology. Introduction to common diseases and pharmacology also included. This course is intended for Health Information Technology students. Taking both HIM 130 and HIM 131 or HIT 130/131 is equivalent to HIT 105. Prerequisite: ENGL& 101 with a minimum preparation: BIOL& 175 with a minimum grade of C.

HIT 110  Health Care Delivery Systems (5)
(Formerly HIM 110) This course covers healthcare delivery systems in the United States. Students will identify laws, regulations, standards, initiatives, and payment systems, and policies and procedures applicable to the various healthcare organizations. Students will learn the roles and disciplines of providers through the continuum of healthcare in the United States. Prerequisite: ENGL& 101 with a minimum grade of C and BIOL& 175 with a minimum grade of C and HIT 105 with a minimum grade of C; and either MATH& 146 with a minimum grade of C or both MATH 093 with a minimum grade of C and MATH 136 with a minimum grade of C.

HIT 125  Record Content and Standards I (5)
(Formerly HIM 125) This course covers the structure and format of health records across various settings as well as storage systems used in Health Information Management. Students will gain insight into the numerous databases, registries, and indices used in healthcare. Federal and state regulations involving Health Information Management will also be addressed. Prerequisite: ENGL& 101 with a minimum grade of C and BIOL& 175 with a minimum grade of C and HIT 105 with a minimum grade of C; HIT 110 with a minimum grade of C or concurrent enrollment; and either MATH& 146 with a minimum grade of C or both MATH 093 with a minimum grade of C and MATH 136 with a minimum grade of C.

HIT 141  Outpatient Diagnostic Coding (2)
(Formerly HIM 141) Instruction to the basic principles of diagnostic coding. Designed as an introductory course for beginners. Focus is on diagnostic coding in the outpatient care setting. Prerequisite: HIT 105 with a minimum grade of C, and either HIT 110 with a minimum grade of C or MO 101 with a minimum grade of C.

HIT 152  Advanced Outpatient Coding (5)
(Formerly HIM 152) An advanced coding course applying both ICD-10-CM and CPT to the more difficult sections of the coding systems. Course includes extensive advanced practice using coding exercises and abstracted medical records in a virtual environment. Prerequisite: HIT 141 with a minimum grade of C and HIT 170 with a minimum grade of C.
Health Information Technology

HIT 160 Pathophysiology (5)
(Formerly HIM 160) Selected general medical conditions and diseases of specific body systems, including etiology, signs, symptoms, diagnostic procedures, clinical course, therapy and prognosis will be discussed.
Prerequisite: HIT 105 with a minimum grade of C and HIT 110 with a minimum grade of C and HIT 125 with a minimum grade of C.

HIT 170 CPT Coding (5)
(Formerly HIM 216) Instruction in basic, comprehensive, and more advanced aspects of coding with Current Procedural Terminology (CPT-4) for use in various health care settings. Designed to provide the student with an understanding of CPT coding guidelines, rules, and regulations; a basic understanding of HCPCS Level II Coding; a basic working knowledge of E/M coding methods; and a thorough working knowledge of CPT-4.
Prerequisite: HIT 141 with a minimum grade of C or HIT 140 with a minimum grade of C.

HIT 175 Data Quality and Performance Improvement (5)
(Formerly HIM 241) This course covers the study and application of continuous quality improvement, utilization management, and standards for hospital accreditation and licensure. This course also addresses the role of the Joint Commission, government agencies, and the use of vital statistics.
Prerequisite: HIT 115 with a minimum grade of C and HIT 125 with a minimum grade of C.

HIT 179 Ethical Issues in Health Information Technology Seminar (1)
Students will discuss current ethical issues in Health Information Management (topics change each quarter)
Prerequisite: HIT 110 with a minimum grade of C or concurrent enrollment and HIT 125 with a minimum grade of C or concurrent enrollment.

HIT 186 Outpatient Coding Clinical (2)
(Formerly HIM 186) Students will apply skills and knowledge acquired in previous courses to outpatient coding settings in the community.
Prerequisite: HIT 152 with a minimum grade of C or concurrent enrollment.

HIT 195 Health Law and Ethics (3)
(Formerly HIM 195) This course covers the legislative and regulatory process, laws, regulations, and policies and procedures pertaining to confidentiality, privacy, release of information, and professional and practice-related ethical issues.
Prerequisite: HIT 105 with a minimum grade of C and HIT 110 with a minimum grade of C
RECOMMENDED PREPARATION: ENGL 102 with a minimum grade of C or ENGL 235 with a minimum grade of C.

HIT 200 Pharmacology for Health Information Technology (2)
(Formerly HIM 150) This is an introductory course in pharmacology for health care personnel to include terminology, drug classification and usage. This course emphasizes the clinical application of medications and treatment of disease.
Prerequisite: HIT 160 with a minimum grade of C.

HIT 210 Revenue Cycle (5)
(Formerly HIM 210) HIM students will be given the opportunity to apply knowledge and skills that are necessary in health care reimbursement to create and analyze examples of various payment methodologies utilized in healthcare in the United States. Students will gain an understanding of the importance of coding and compliance and its impact on healthcare reimbursement and the revenue cycle process. In addition, students will learn about the importance of linking quality to reimbursement and how third party payers are implementing various value based purchasing plans and pay for performance criteria in healthcare. Students will practice calculating various payment methodologies frequently used in various healthcare settings.
Prerequisite: HIT 170 with a minimum grade of C and HIT 175 with a minimum grade of C and HIT 221 with a minimum grade of C.

HIT 211 Intermediate Coding (5)
(Formerly HIM 221) This course covers the coding rules and guidelines surrounding inpatient diagnostic and procedural coding using ICD 10 CM and ICD 10 PCS.
Prerequisite: HIT 141 with a minimum grade of C and HIT 160 with a minimum grade of C.

HIT 222 Health Records In Alternative Care (3)
(Formerly HIM 222) Study of health record systems for psychiatric, long-term care, home health care and hospice, including coding compliance licensure and accreditation standards.
Prerequisite: HIT 170 with a minimum grade of C and HIT 221 with a minimum grade of C and HIT 225 with a minimum grade of C.

HIT 225 Record Content and Standards II (5)
(Formerly HIM 225) This course covers healthcare data requirements, including Joint Commission standards, Governmental regulations, corporate compliance, and HIPAA applications in healthcare settings.
Prerequisite: HIT 125 with a minimum grade of C and HIT 175 with a minimum grade of C and HIT 195 with a minimum grade of C.

HIT 242 Leadership and Management I (5)
(Formerly HIM 153) This course covers oversight duties in a healthcare office to include managing the revenue cycle, compliance regulations, human resources, health information, and general business processes.
Prerequisite: HIT 225 with a minimum grade of C.

HIT 245 Advanced Coding and Compliance (5)
(Formerly HIM 245) This course covers advanced application and instruction on the more difficult sections of the coding systems for both inpatient and outpatient coding. Topics also include coding compliance issues. Discussion of legacy and alternative coding systems is also included in this course.
Prerequisite: HIT 170 with a minimum grade of C and HIT 221 with a minimum grade of C.

HIT 250 Inpatient Coding Professional Practice Experience (2)
(Formerly HIM 250) This professional practice experience allows students to apply skills and knowledge acquired in previous courses to the outpatient coding setting.
Prerequisite: HIT 245 with a minimum grade of C.
Health Information Technology

HIT 254  HIT Capstone  (3)
(Formerly HIM 254) This course is the culminating class for the HIT program.
Students will participate in leadership projects, create capstone projects to strengthen their
AHIMA Entry Level Competencies, prepare for the national Registered Health Information
Technician exam, and prepare for employment.
Prerequisite: HIT 210 with a minimum grade of C HIT 242 with a minimum grade of C
or concurrent and HIT 245 with a minimum grade of C. Co-Requisite: HIT 255.

HIT 255  HIT Professional Practice Experience (4)
(Formerly HIM 255) Students will apply skills and knowledge acquired in previous courses
in their professional practice experiences.
Prerequisite: HIT 254.

MO 110  Medical Office Procedures  (5)
This class covers customary daily activities of a medical office including computerized
appointment setting, insurance verification and compliance, chart maintenance,
documentation creation, filing, customer service skills, confidentiality, patient referrals,
and being part of the healthcare team.
Prerequisite: CU 105 with a minimum grade of C and MO 101 with a minimum grade of C
and HIT 130 with a minimum grade of C.

MO 115  Medical Scribe (4)
This course provides students with skills necessary to enter information into a
patient’s electronic health record or chart at the direction of a physician or licensed independent practitioner. Topics include Basic Coding, HIPAA Compliance, Medico-legal risk mitigation, EHR functionality, elements of documentation, CMS Physician Quality Reporting Systems, The Joint Commission’s Accountability Measures, and a general knowledge of the roles and responsibilities of medical personnel.
Prerequisite: HIT 105 with a minimum grade of C and ENGL & 101 with a minimum grade of C and BIOL & 175 with a minimum grade of C. May be taken concurrently.

MO 151  Insurance/Claims Processing  (5)
(Formerly HIT 151) This course is designed to introduce information about major
insurance programs and federal healthcare legislation, provide a basic knowledge of
national diagnosis and procedural coding systems, and learn to simplify the process
of completing claims.
Prerequisite: MO 110 with a minimum grade of C; and MO 120 with a minimum grade of C; and either HIT 141 with a minimum grade of C or HIT 140 with a minimum grade of C; HIT 170 with a minimum grade of C must be taken before MO 151 or concurrently.

MO 185  Medical Reimbursement Specialist
Clinical  (3)
(Formerly HIT 185) Students will apply skills and knowledge acquired in previous courses
to medical reimbursement settings in the community.
Prerequisite: MO 151 with a minimum grade of C or concurrent enrollment.

OLL 101  Success in Online Learning  (2)
This course will help prepare students for success in online courses in any discipline.
Students will explore strategies for online communication, identify online tools and resources, identify problem solving techniques for technology, and identify coping skills for working in an online environment.
This course is open to all students.

History

HIST & 126  World Civilizations I  (5)
(Formerly HIST 111) Historical study of human societies in the world, with emphasis on
their interactions with each other and the continuous transitions of their traditions
from antiquity to the 9th century.
(multicultural content)
Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL/ 095 with a minimum grade of C or assessment at college-level reading and writing.

HIST & 127  World Civilizations II  (5)
(Formerly HIST 112) Historical study of human societies in the world, with emphasis on
their interactions with each other, and the continuous transitions of their traditions
from the 9th to the 18th century.
(multicultural content)
Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL/ 095 with a minimum grade of C or assessment at college-level reading and writing.

HIST & 128  World Civilization III  (5)
(Formerly HIST 113) Historical study of human societies in the world, with emphasis on
their interactions with each other, and the continuous transitions of their traditions
from the 18th century to the present.
(multicultural content)
Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL/ 095 with a minimum grade of C or assessment at college-level reading and writing.

HIST & 146  U.S. History I  (5)
(Formerly HIST 241) The course will explore the key political, social, cultural, and economic
events in the American colonies in the 17th and 18th centuries. Discussions will focus on
the individuals, issues, ideas, and events most responsible for shaping modern America.
Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL/ 095 with a minimum grade of C or assessment at college-level reading and writing.
History

HIST 147  U.S. History II (5)
(Formerly HIST-242) The course will explore the key political, social, cultural, and economic events in American society in the 19th Century. Discussions will focus on the individuals, issues, ideas, and events most responsible for shaping modern America. Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL/095 with a minimum grade of C or assessment at college-level reading and writing.

HIST 148  U.S. History III (5)
(Formerly HIST-243) The course will explore the key political, social, cultural, and economic events in American society in the 20th Century. Discussions will focus on the individuals, issues, ideas, and events most responsible for shaping modern America. Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL/095 with a minimum grade of C or assessment at college-level reading and writing.

HIST 210  History of Modern Europe (5)
An introduction of the common heritage, global dynamics, and historical components that crafted the making of modern Europe. The course will assess the unfolding historical events from the 17th century up to the present, examining major societies in the region, including British, French, German, Italian, and Russian societies, among others. The focus will be on the interactions among Europe’s different societies, and between Europe and the larger world. (multicultural content) Prerequisite: ENGL 101 with a minimum grade of C or concurrent enrollment.

HIST 211  History of China (5)
Historical study of human societies in China, with emphasis on their interactions with other societies in the greater world, and the continuous transitions of their traditions from antiquity to the present. (multicultural content) Prerequisite: ENGL 101 with a minimum grade of C or concurrent enrollment.

HIST 214  Pacific NW History (5)
(Formerly HIST-264) The course will examine the exploration, settlement and growth of the Pacific Northwest, with an emphasis on Washington State. Topics will include the settlement and creation of Washington Territory, as well as the social, economic and political issues that have shaped Washington State in the 19th and 20th centuries. Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL/095 with a minimum grade of C or assessment at college-level reading and writing.

HIST 219  Native American History (5)
(Formerly HIST-251) This course will examine the history of Native American cultures in the United States. Through readings, lectures, and class discussions, students will explore the unique histories of several specific Native cultures, as well as the impact that these cultures had in shaping the course of American history. (multicultural content) Prerequisite: ENGL 101 with a minimum grade of C or concurrent enrollment.

HIST 220  African-American History (5)
Formerly HIST-254) The course will examine the history of African-Americans in the United States, tracing the African-American experience from colonial times to present-day America. Topics will include the development of the institution of slavery in America, the post-Civil War experience of African-Americans, and the struggle for civil rights and social justice in America in the 20th Century. (multicultural content) Prerequisite: ENGL 101 with a minimum grade of C or concurrent enrollment.

HIST 230  History of Japan (5)
Historical study of human societies in Japan with emphasis on their interactions with other societies in the greater world, and the transitions of their traditions from antiquity to the present. (multicultural content) Prerequisite: ENGL 101 with a minimum grade of C or concurrent enrollment.

HIST 231  American History, American Film (5)
This course will examine U.S. History, society and culture since 1929 through the lens of Hollywood feature films. Topics include: the Great Depression, the Cold War at home and abroad, gender roles and the American family, and the civil rights movement. (multicultural content) Prerequisite: ENGL/095 with a minimum grade of C or concurrent enrollment.

HIST 240  Religion in America and the Modern World (5)
The course will examine the history and impact of different religions and religious ideas in the modern world, with a focus on how these various religions and ideas have impacted the social, political, and cultural history of the United States. (multicultural content) Prerequisite: ENGL 101 with a minimum grade of C or concurrent enrollment.

HIST 244  The 1960s (5)
This course will examine key political, social, cultural, economic, and diplomatic trends in American society from 1960 to 1974. Topics covered will include John F. Kennedy and the “New Frontier,” Lyndon Johnson’s “Great Society,” the civil rights movement, the women’s movement, the war in Vietnam, the anti-war movement, and Richard Nixon and Watergate. Particular focus will be on the individuals, issues, ideas and events most responsible for shaping this period and our understanding of it. (writing intensive) Prerequisite: ENGL 095 with a minimum grade of C or concurrent enrollment.

HIST 249  America and the Rise to Globalism (5)
This course will survey the United States’ rise to world power from 1898 to the present, with particular attention given to the causes and consequences of increased U.S. participation in world affairs, America’s initial reluctance and ultimate acceptance of the responsibility of world leadership. Prerequisite: ENGL 095 with a minimum grade of C or concurrent enrollment.
Human Development

HD 098 Managing Math Anxiety (2)
Increasing our awareness of why we have math anxiety and an appreciation of our own attitudes can actually help us to learn anxiety management tools and strategies to learn math. An emphasis is placed on understanding problem solving techniques and math assertiveness.
Prerequisite: MATH 085 (may be taken concurrently).

HD 101 Student Success Seminar (3)
To provide individuals with an opportunity to cultivate the skills necessary to become confident, successful students. Topics may include: personal learning styles, time management, goal setting, test-taking techniques, academic planning, degree audit, self care, money management, relationships, communication, exploring careers, memory techniques, college and community resources, ethics, respecting diversity, and information literacy.

HD 105 Career and Life Planning (3)
Students will assess their unique interests, values, capabilities and personalities as related to career choice and future life planning. Practical and effective job search and decision making skills will be taught, as well as skills to prepare students for an ever-changing world of work.

HD 110 Human Relations (3)
Introductory course in personal growth through interpersonal communication. Primarily an experiential course, designed to facilitate learning and growth in self-awareness, self-esteem, and self-expression, with the goal of promoting positive relationships with others. (multicultural content)

HD 114 Exploring Human Potential (3)
This course helps students discover and develop their individual potential. Students explore who they are and how to set meaningful goals in their own terms. We identify ways to unlock our individual potential and learn how to establish an action plan for positive change.

HD 116 Life Choices (3)
Students will increase self-awareness and decision making skills by exploring: adult growth and development; the influence of culture, roles and stereotypes; and steps to successfully navigate the process of constant change and transition.
Prerequisite: ENGL/085 with a minimum grade of C or equivalent.

HD 299 Independent Study (1)
Independent observation, analysis and reporting of a selected problem in Human Development.
Prerequisite: Instructor permission.

Note: These courses are NOT sequential. Nor is one prerequisite to another.

Humanities

HUM& 101 Intro to Humanities (5)
(Formerly HUMAN-100) An introduction to the humanities through investigation of current cultural events offered by local communities. Study of the arts - painting, sculpture, architecture, drama, film, music and dance - will be enhanced by attending performances and on-location field trips to sites in the community. Students will become familiar with terminology of the arts and with community performance/demonstrations of these same arts. (multicultural content) (writing intensive) Prerequisite: ENGL/095 with a minimum grade of C or equivalent.

HUM 110 Introduction to Pacific Rim Cultures (5)
(Formerly HUMAN-110) A general introduction to a Pacific Rim culture (Southeast Asia, China, Japan, Korea, Mexico or Central America) emphasizing history, language, literature, arts, politics, economy, and society. (multicultural content)
Prerequisite: ENGL/095 with a minimum grade of C or equivalent. Recommended Preparation: ENGL& 101 with a minimum grade of C or LS 101 with a minimum grade of C.

HUM 111 Reading Popular Fiction (2)
This course is designed to encourage students to read books of their own choosing (or from a recommended list) and to increase the amount of time spent reading. The students will choose books to read, meet at predictable times, generate questions, respond to questions, and discuss topics in an open and natural conversation, rotate roles, and share with others. This course can be repeated twice for a maximum of 4 credits.
Prerequisite: Assessment at or above READ 075.
### Humanities

<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>HUM&amp; 116</td>
<td>Humanities I (5)</td>
<td></td>
<td>(Formerly HUMAN-101) An introduction to the global humanities through the study of six major art forms: literature, drama, music, painting, sculpture, and architecture from the ancient world to 1400. The course will focus on connecting ideas and beliefs with their expressions. (writing intensive) Prerequisite: ENGL 095 with a minimum grade of C or equivalent.</td>
</tr>
<tr>
<td>HUM&amp; 117</td>
<td>Humanities II (5)</td>
<td></td>
<td>(Formerly HUMAN-102) An introduction to the global humanities through the study of six major art forms: literature, drama, music, painting, sculpture, and architecture from 1400 to 1800. The course will focus on connecting ideas and beliefs with their expressions. (multicultural content) (writing intensive) Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL/095 with a minimum grade of C or assessment at college-level reading and writing.</td>
</tr>
<tr>
<td>HUM&amp; 118</td>
<td>Humanities III (5)</td>
<td></td>
<td>(Formerly HUMAN-103) An introduction to the global humanities through the study of seven major art forms: literature, drama, music, film, painting, sculpture, and architecture from 1800 to the present. The course will focus on connecting ideas and beliefs with their expressions. (multicultural content) Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL/095 with a minimum grade of C or assessment at college-level reading and writing.</td>
</tr>
<tr>
<td>HUM 120</td>
<td>The American Multicultural Arts Experience (5)</td>
<td></td>
<td>(Formerly HUMAN-120) An introduction to the unique contributions of American art, theater, dance, literature, and/or music by various American ethnic cultures. Prerequisite: ENGL/095 with a minimum grade of C or better or equivalent.</td>
</tr>
<tr>
<td>HUM 130</td>
<td>Introduction to Film (5)</td>
<td></td>
<td>(Formerly HUMAN-130) Study in motion picture techniques and the development of cinema as an art form. Prerequisite: ENGL/095 with a minimum grade of C or equivalent.</td>
</tr>
<tr>
<td>HUM 131</td>
<td>Intro to Film Production (5)</td>
<td></td>
<td>Humanities 131 allows students the opportunity to participate in a wide range of aspects of the film-making process. Students will explore and engage in various technical elements of the art of filmmaking, in part by taking active roles in the writing, acting, filming, and editing of various film production projects. By gazing through the lens of the camera, students will develop their own understanding of film as a contemporary art form, while also accentuating their film analysis and interpretation skills.</td>
</tr>
<tr>
<td>HUM 179</td>
<td>Themes or Topics in Humanities (Revolving Topics) (5)</td>
<td></td>
<td>(Formerly HUM 260) A study of a theme or topic through its expressions, notably literature, drama, music, film, painting, sculpture and architecture. Various themes or topics will be studied from quarter to quarter. May be taken twice as themes and topics are different each offering. Prerequisite: ENGL/095 with a minimum grade of C or equivalent.</td>
</tr>
<tr>
<td>HUM 285</td>
<td>The City (5)</td>
<td></td>
<td>(Formerly HUMAN-285) An in-depth study covering history, philosophy, religion, art, architecture and literature of a culturally significant city. A different city, time, and place will be studied each quarter Humanities 285 is offered. Prerequisite: ENGL/095 with a minimum grade of C or equivalent. Recommended Preparation: ENGL &amp; 101 with a minimum grade of C or LS 101 with a minimum grade of C.</td>

<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>HSP 100</td>
<td>Introduction To Human Services (5)</td>
<td></td>
<td>This course provides an overview of the history, philosophy, and present status of the major Human Services delivery systems; examination of the roles of practitioners as well as occupational and educational alternatives for graduates; exploration of services provided by local social service agencies. Prerequisite: ENGL 095 or ENGL/095 with a minimum grade of C or assessment at college-level reading and writing.</td>
</tr>
<tr>
<td>HSP 103</td>
<td>Therapeutic Approaches and Techniques (5)</td>
<td></td>
<td>This course examines principles, concepts, and processes related to counseling and interviewing; role and function of the helping professional is examined; counseling and interviewing skills are demonstrated and practiced in class. Prerequisite: ENGL 095 or ENGL/095 with a minimum grade of C or assessment at college-level reading and writing.</td>
</tr>
<tr>
<td>HSP 107</td>
<td>Behavioral Health and Wellness (5)</td>
<td></td>
<td>(Formerly HSP-207) This course explores theories ans strategies for wellness and self-care. A life-long approach is used to learn relaxation techniques and coping strategies to reduce stress. Therapeutic use of pharmacology and illicit use of drugs and their impact on the community is also examined.</td>
</tr>
<tr>
<td>HSP 112</td>
<td>Best Practices in Human Services (5)</td>
<td></td>
<td>This course examines the fundamental roles and functions of managing client case loads in a variety of systems including substance treatment and social services. Will explore best practices in acquiring client data, documentation, and file management; ASAM criteria for adult and adolescent assessment and treatment planning will be covered. Prerequisite: HSP 100 with a minimum grade of C and HSP 103 with a minimum grade of C; or instructor permission.</td>
</tr>
</tbody>
</table>
Human Services

HSP 113 Advanced Helping Strategies (5)
(Formerly HSP-106) This course explores the role of group, family, and treatment systems; strategies for helping in these areas and other relevant Human Services issues will be examined.
Prerequisite: HSP 100 with a minimum grade of C and HSP 103 with a minimum grade of C, or permission of instructor.

HSP 117 Ethics and Professional Development (5)
(Formerly HSP-105) This course will examine personal belief systems, ethical principles, and laws related to the Human Services field; Develop critical thinking skills to explore central work-related issues and develop leadership skills while preparing to enter the helping field, internships, and careers.
Prerequisite: HSP 100 with a minimum grade of C and HSP 103 with a minimum grade of C, or permission of instructor.

HSP 121 Survey of Addictions and Pharmacology (5)
(Formerly HSP-200) This course is an introduction to the physiological, psychological and socio-cultural aspects of addiction related issues. An overview of the pharmacology of psychoactive drugs including an explanation of how brain chemistry changes result in compulsive use is examined.
Prerequisite: HSP 100 with a minimum grade of C and HSP 103 with a minimum grade of C and HSP 112 with a minimum grade of C and HSP 113 with a minimum grade of C and HSP 117 with a minimum grade of C, or instructor permission.

HSP 126 Cultural Competencies for Human Services (5)
(Formerly HSP-261) This is an online course that will examine the elements that create differences within society. The primary goal of this course is to expose learners to a variety of cultural ideas, promote tolerance for differences, and assist in learning cultural competence when working with diverse populations. Culture, ethnicity, lifestyles, religion, disabilities, age, and gender will be explored to increase awareness of cultural biases and related concerns. (multicultural content)
Prerequisite: ENGL/095 with a minimum grade of C or equivalent or instructor permission.

HSP 130 Recovery Education (5)
This course will provide an overview of treatment and recovery from substance abuse dependency and impulse control disorders. Included in this course will be the physiological, psychosocial, and systemic concerns about alcohol/drugs and the related issues of process addictions.
Prerequisite: ENGL/095 with a minimum grade of C or equivalent; or concurrent enrollment.

HSP 217 Advocacy in Human Services (5)
This course will explore the distinct components of advocacy in the helping professions. Topics to be covered will be: how to identify and challenge oppressive practices, policies, and mindsets; how to defend clients’ rights; and how to overcome barriers that prevent clients from having their needs met.
Prerequisite: HSP 100 with a minimum grade of C and HSP 103 with a minimum grade of C and HSP 112 with a minimum grade of C and HSP 113 with a minimum grade of C and HSP 117 with a minimum grade of C, or instructor permission.

HSP 224 Dynamics of Family Violence (5)
(Formerly HSP 214) This course explores the history, philosophy and present status of violence in the family; examines cultural and social perspectives regarding violence across the life span including child mistreatment, sexual abuse, and elder maltreatment; and exposure to service delivery systems specific to family violence.
Prerequisite: HSP 100 with a minimum grade of C and HSP 103 with a minimum grade of C and HSP 112 with a minimum grade of C and HSP 113 with a minimum grade of C and HSP 117 with a minimum grade of C, or instructor permission.

HSP 230 Co-occurring Disorders Assessment and Treatment (5)
This course is an overview of co-occurring disorders in behavioral health and Human services settings. A brief overview of specific mental disorders, substance use disorders, and evidence based strategies used to serve those with co-occurring disorders will be covered. This course will survey effective co-occurring programming, screening processes, and practices used to serve this population.
Prerequisite: HSP 100 with a minimum grade of C and HSP 103 with a minimum grade of C and HSP 112 with a minimum grade of C and HSP 113 with a minimum grade of C and HSP 117 with a minimum grade of C and HSP 121 with a minimum grade of C or concurrent enrollment or instructor permission.
Human Services

HSP 241 Working with Youth and Families (5)  
(Formerly HSP-203) This course explores the theory of social learning and application to the development with appropriate social skills. Part of the course learning will occur through the actual experiences of working with children, youth, and families. 
Prerequisite: HSP 100 with a minimum grade of C and HSP 103 with a minimum grade of C and HSP 112 with a minimum grade of C and HSP 113 with a minimum grade of C and HSP 117 with a minimum grade of C; or instructor permission.

HSP 251 Prevention Strategies (5)  
(Formerly HSP-205) This course content includes an overview of prevention, current research, prevention planning, role of the media, program models and evaluation methodology. 
Prerequisite: HSP 100 with a minimum grade of C and HSP 103 with a minimum grade of C and HSP 112 with a minimum grade of C and HSP 113 with a minimum grade of C and HSP 117 with a minimum grade of C; or instructor permission.

HSP 262 Loss and Grief through the Lifespan (5)  
This course focuses on losses ranging from everyday setbacks to stigmatizing issues. The grief process will be examined from a variety of approaches including cultural, religious, and developmental perspectives. End of life concerns will also be covered. 
Prerequisite: HSP 100 with a minimum grade of C and HSP 103 with a minimum grade of C and HSP 112 with a minimum grade of C and HSP 113 with a minimum grade of C and HSP 117 with a minimum grade of C; or instructor permission.

HSP 265 Aging and Adult Services (5)  
(Formerly HSP-209) This course reviews the changing needs of people as they progress through the later stages of life. Social interactions, cognitive abilities, physical changes, health issues, psychological adaptations, recreational options, and other life domain concerns will be explored to prepare the students wishing to work with an aging population. 
Prerequisite: HSP 100 with a minimum grade of C and HSP 103 with a minimum grade of C and HSP 112 with a minimum grade of C and HSP 113 with a minimum grade of C and HSP 117 with a minimum grade of C; or instructor permission.

HSP 265 Aging and Adult Services (5)  
(Formerly HSP-209) This course reviews the changing needs of people as they progress through the later stages of life. Social interactions, cognitive abilities, physical changes, health issues, psychological adaptations, recreational options, and other life domain concerns will be explored to prepare the students wishing to work with an aging population. 
Prerequisite: HSP 100 with a minimum grade of C and HSP 103 with a minimum grade of C and HSP 112 with a minimum grade of C and HSP 113 with a minimum grade of C and HSP 117 with a minimum grade of C; or instructor permission.

HSP 268 Loss and Grief through the Lifespan (5)  
This course focuses on losses ranging from everyday setbacks to stigmatizing issues. The grief process will be examined from a variety of approaches including cultural, religious, and developmental perspectives. End of life concerns will also be covered. 
Prerequisite: HSP 100 with a minimum grade of C and HSP 103 with a minimum grade of C and HSP 112 with a minimum grade of C and HSP 113 with a minimum grade of C and HSP 117 with a minimum grade of C; or instructor permission.

HSP 282 Program and Proposal Development (5)  
(Formerly HSP-208 Program Planning and Grant Writing) This course will examine the various elements required to create a new program or project; research potential funding sources; write an effective funding proposal; create and apply program evaluation strategies. 
Prerequisite: HSP 100 with a minimum grade of C and HSP 103 with a minimum grade of C and HSP 112 with a minimum grade of C and HSP 113 with a minimum grade of C and HSP 117 with a minimum grade of C; or instructor permission.

HSP 291 Supervised Clinical Practicum I (5)  
(Formerly HSP-191) This course is the first of supervised clinical practicum experiences and requires 116 hours of work during the quarter in a community setting. The focus of HSP-291 is on integrating oneself into the workplace. The weekly seminars offer helpful suggestions and discussions on how to establish a good work relationship, and strengthen communication skills. 
Prerequisite: HSP 100 with a minimum grade of C and HSP 103 with a minimum grade of C and HSP 112 with a minimum grade of C and HSP 113 with a minimum grade of C and HSP 117 with a minimum grade of C.

HSP 292 Supervised Clinical Practicum II (5)  
(Formerly HSP-192) This course requires 116 hours of supervised work experience. The focus of the HSP 292 weekly seminars shifts to understanding integration into the professional role within the Human Services field. Students will examine the organization of agencies and other pertinent professional issues related to student’s experiences. 
Prerequisite: HSP 291 with a minimum grade of C.

HSP 293 Supervised Clinical Practicum III (5)  
(Formerly HSP-193) This final clinical practicum experience again requires 116 hours of supervised work. The focus on HSP 293 is on integration of field experience with classroom learning to form a personal theory of helping. Weekly seminars will alternate between discussing issues that arise from the field and refining helping strategies as well as helping students to synthesize theories and techniques into a working model. 
Prerequisite: HSP 292 with a minimum grade of C.
Information Technology

IT 102  Microcomputer Fundamentals  (5)
This course provides concepts and hands-on experience in understanding and supporting a PC-compatible microcomputer. Topics include microprocessors, system architecture, system boards, expansion cards, memory, input/output devices, and peripherals. The student learns how to build, configure, and troubleshoot a personal computer, and install its operating system. The objectives of the course are based on those of the A+ Hardware Core Certification Exam.
Prerequisite: CU 100 with a minimum grade of C or Program Chair permission.

IT 110  Operating Systems I  (5)
The student is introduced to operating systems used on desktop microcomputers. The course covers installation and configuration, memory and storage management, batch and script files, device drivers, troubleshooting and maintenance tools, and virus protection. Emphasis is on current Windows operating systems. The objectives of the course are based on those of the A+ Operating System (OS) Technologies Certification Exam.
Prerequisite: CU 100 with a minimum grade of C or Program Chair permission.

IT 112  Help Desk Operations  (2)
The goal of this course is to provide the student with a good understanding of the concepts, technologies, and processes used in the business community to support in-house and remote staff through help desk operations.
Prerequisite: CU 100 with a minimum grade of C or Program Chair permission.

IT 115  Certification Exam Preparation  (2)
Students will prepare to take the COMPTIA certification exams by reviewing material based on the current exam objectives.
Prerequisite: IT 102 and IT 110 or equivalent training/knowledge.

IT 201  Introduction to Programming  (5)
An introduction to programming and programming concepts. Students will use process mapping, flowcharting, pseudocode, and critical thinking skills to analyze various types of problems as preliminary design tools, and then will design, code, test, and debug programs using a programming language.
Prerequisite: BUS 110 with a minimum grade of C or MATH& 107 with a minimum grade of C. Co-Requisite: IT 262 with a minimum grade of C or Program Chair permission.

IT 210  Operating Systems II  (5)
This course extends the skills learned in IT-110 to more advanced desktop operating systems. Installation, maintenance, and troubleshooting are stressed.
Prerequisite: IT 102 and IT 110 with a minimum grade of C or Program Chair permission.

IT 230  Introduction to Project Management  (2)
An introduction to Project Management from a team member perspective. Students will learn the different tools and techniques used in initiating, planning, developing, documenting and completing a project.
Prerequisite: ENGL& 101 and BUS& 101 or BUS 164 or Program Chair permission.

IT 245  Data Modeling  (2)
Data Modeling focuses on the design of relational databases using such tools as entry relationship diagrams and normalization to create an efficient database design. This class studies the data modeling process as well as the interaction that must take place between the designer and user to develop a workable database design.
Prerequisite: CU 210 with a minimum grade of C or Program Chair permission.

IT 247  IT Project Management  (5)
Project Management for IT professionals and projects from a team member perspective. Students will learn the different tools and techniques used in initiating, planning, developing, documenting and completing an IT project.
Prerequisite: IT 230 or IT 261 with a minimum grade of C or Program Chair permission.

IT 248  Database Implementation  (3)
Focuses on the process to implement a database. Students will use both a graphical user interface and structured query language to implement tables, relationships, views, indexes, stored procedures, and triggers.
Prerequisite: CU 210 with a minimum grade of C or Program Chair permission.

IT 257  Social Media  (3)
This course is designed to provide students with a foundational skill set in the new, evolving world of social media tools and strategies so that they can immediately apply them in the workplace.
Prerequisite: CU 105 with a minimum grade of C or Program Chair permission. Recommended Preparation: CU 101.

IT 260  Client/Server Technology - LANs  (5)
This course introduces the student to the concepts of data communication in a Local Area Network (LAN) environment. It includes training in the methods and protocols used to allow networked computer systems to communicate in local environments. Topics include the OSI Communication Model, transmission media, protocol stacks especially TCP/IP, simple internetworking, and LAN services. Course objectives are based on those of the Network + and the retired Microsoft Network Essentials certification exams.
Prerequisite: IT 102 and IT 110 with a minimum grade of C and IT 261 (may be taken concurrently) or Program Chair permission.

IT 261  Administration of Networks  (5)
The student is introduced to networking and to a detailed study of network administration techniques. This is an applied course in the concepts of local area networks (LANs). The student focuses on configuration of file and print services. Methods and tools for designing, implementing, and maintaining a secure, expandable local area network environments are studied. Microsoft Windows 2003 Server is used as the platform for this course.
Prerequisite: IT 102 and IT 110 with a minimum grade of C and IT 260 (may be taken concurrently) or Program Chair permission.
Information Technology

IT 262  Technical Support of Windows Networks  (5)
This is a practical course in the installation, configuration, maintenance, and support of Local Area Networks (LANs) using the Windows Network Operating Systems (NOSs). A Microsoft Windows 2003 Server is installed and configured for secure and efficient file, print and application services. The architecture and functionality of the Windows 2003 Server OS are studied. The course also provides the theoretical, hands on, and practical techniques that can be used in preparation for the Server+ exam.
Prerequisite: IT 260 and IT 261 with a minimum grade of C and IT 270 (may be taken concurrently) or Program Chair permission. Recommended: IT 210.

IT 270  Service and Support Fundamentals  (5)
This course is an introduction to the methodologies and tools for personal computer and Local Area Network (LAN) troubleshooting from a proactive viewpoint. The student studies the methods to identify and repair the most likely causes of network faults caused by user, hardware, and software problems. Disaster Plans, including a Backup Plan, are developed. Quality customer service, journaling and documentation are emphasized. Configuration management and patch/service release installation is learned. Server performance monitoring is discussed.
Prerequisite: IT 260 and IT 261 with a minimum grade of C and IT 262 (may be taken concurrently) or Program Chair permission. Recommended: IT 210.

IT 271  Internetworking  (5)
The skills learned in IT 270 are extended to applications on wide-area networks. Equipment, such as client computers, servers, bridges, hubs, switches, routers, and DSU/CSU units, are installed and configured. While the course is not specific to one vendor, many objectives parallel those of the Cisco Certified Network Associate (CCNA) Certification.
Prerequisite: IT 262 and IT 270 with a minimum grade of C and IT 280 (may be taken concurrently) or Program Chair permission.

IT 274  Network Security Fundamentals  (5)
The Network Security Fundamentals course is an introduction to the various technical and administrative aspects of Information Security and Assurance in a network-centric computing environment. The course provides the foundation for understanding the key issues associated with determining appropriate levels of protection for information and computing assets. The course will also provide information on how to design and manage a secure network infrastructure.
Prerequisite: CU 105 with a minimum grade of C or equivalent knowledge or Program Chair permission. Recommended: IT 260.

IT 277  Data Storage Security and Management  (5)
This course covers the core elements of storage infrastructure including various storage networking technologies, business continuity, information availability, storage management and security concepts, principles and best practices.
Prerequisite: IT 274 and IT 261 with a minimum grade of C or Program Chair permission.

IT 280  Advanced Networking Technologies  (5)
This is a capstone course for the Network and Convergence Technologies program. Students will demonstrate a complete foundation skill set by using the knowledge and skills acquired in previous course work to implement a complete and secure network using project management, business analysis, budget development, presentation, and technical knowledge and skills.
Prerequisite: IT 262 and IT 270 with a minimum grade of C and IT 271 (may be taken concurrently) or Program Chair permission.

IT 290  Work Internship  (5)
During one quarter of the sophomore year, students can receive college credits for hands-on computer related work experience and training in a private or public sector organization.
Prerequisite: Program Chair permission.

IT 299  Independent Study & Special Projects  (1)
Study on an individual basis
Prerequisite: Program Chair permission.

Japanese

The basic tenets of communications including reading, writing, speaking, and listening are developed in a dynamic second language acquisition environment enhanced by technology.

Grammar is used as a communication tool to express meaning as students take part in small group discussions, cultural investigation, and presentation. Authentic materials will be focused on in the class as well as assessment. Students should expect to be immersed in the language. English will be used at a minimum.

JAPN& 121  Japanese I  (5)
(Formerly JAPAN-101) The first year of the beginning Japanese language sequence of 121, 122, and 123. JAPN&-121 is the first quarter of the sequence. (multicultural content)
Prerequisite: READ 095 and ENGL 095 with a minimum grade of C or equivalent knowledge or Program Chair permission.

JAPN& 122  Japanese II  (5)
(Formerly JAPAN-102) JAPN&-122 is the second quarter of the first-year language sequence and continues to build on the skills acquired in JAPN&-121. (multicultural content)
Prerequisite: JAPN&-121 with a minimum grade of C or instructor permission.

JAPN& 123  Japanese III  (5)
(Formerly JAPAN-123) JAPN&-123 is the third quarter of the first-year language sequence and continues to build on the skills acquired in JAPN&-122. This course satisfies the Multicultural distribution requirement. (multicultural content) (writing intensive)
Prerequisite: JAPN&-122 with a minimum grade of C or instructor permission.
Library Science

LS 101 Introduction to Research (2)
Meet course-related research needs by learning to identify, find, evaluate, incorporate, and cite appropriate sources using a range of research tools.

LS 102 Research Skills for Social Sciences (2)
Students concurrently registered in 200-level social sciences courses will meet course-related research needs by developing strategies to identify, find, evaluate, incorporate and cite appropriate sources using a broad range of research tools. Evaluation and use of sources for specific disciplines will be emphasized.
Co-Requisite: Concurrently registered in a 200-level Social Science course.

Logistics

LOG 102 Transportation & Distribution (5)
This course will introduce students to the role and importance of transportation and distribution of cargo in the nation's economy and to overview the operations of each mode of the transportation industry. Students will be introduced to the carrier cost structures and operating characteristics, and public policy as it relates to transportation regulations. Practical aspects of transportation and distribution such as planning, routing, scheduling and loading cargo, and adhering to regulatory, safety, security and administrative requirements will be stressed.
Prerequisite: ENGL/ 095 with a minimum grade of C or assessment at college-level reading and writing. Recommended: LOG 102.

LOG 104 Applied Warehousing and Inventory Management (5)
This course introduces students to practical concepts of warehousing and inventory management including the types of equipment, storage processes and systems, the technologies used to identify and track units in a warehouse, and the regulations designed to ensure safety in warehouse operations. Students will gain a better understanding of warehouse processes through field trips and/or applied lab exercise. Includes a series of applied hands-on exercises. This version of Warehousing & Inventory Management is required for students in the Business AAS degree.
Prerequisite: ENGL/ 095 with a minimum grade of C or assessment at college-level reading and writing. Recommended: LOG 102.

LOG 110 International Logistics (3)
This course is an introduction to International Logistics and how organizations enter into and maintain a global presence. Students will learn global trade strategies and some of the controllable and uncontrollable factors that determine success in a global market.

LOG 112 Importing & Exporting (3)
This course is an introduction to the processes and documentation used in importing and exporting products in today's international marketplace.
Prerequisite: ENGL/ 095 with a minimum grade of C or assessment at college-level reading and writing. Recommended: LOG 102.

LOG 115 Logistics Security and Risk Management (5)
This course overviews logistics security threats and risks and the countermeasures that can be used to secure fixed assets and assets in transit. Students will become familiar with applicable domestic and international standards, laws, and regulations as well as the technologies that are used in ensuring that the supply chain is safe.
Recommended Preparation: LOG 102 with a minimum grade of C.
Math Advising Resource Center

Math Advising Resource Center (MARC) classes are offered to accompany math classes in which students may benefit from extra support. MARC classes are designed to help students gain the skills necessary to be successful in math classes by providing an introduction to math specific study strategies. Each class is two credits. These classes are graded “S/U” only and are non-repeatable.

MARC 075  Tools for Review Arithmetic Success (2)
An optional course to be taken concurrently with MATH-075, designed to strengthen both mathematical skills and study skills, and to increase success in this course. Students will work in small groups with coaching from a math tutor and an instructor. Topics include: math study skills, reading a math textbook, overcoming math and test anxiety, learning style evaluation, test taking skills and stress management.
Prerequisite: Must be taken concurrently with MATH 075.

MARC 085  Tools for Introduction to Algebra Success (2)
An optional course to be taken concurrently with MATH-085, designed to strengthen both mathematical skills and study skills, and to increase success in this course. Students will work in small groups with coaching from a math tutor and an instructor. Topics include: math study skills, reading a math textbook, overcoming math and test anxiety, learning style evaluation, test taking skills and stress management.
Prerequisite: Must be currently enrolled in MATH 085.

MARC 090  Tools for Elementary Algebra Success (2)
An optional course to be taken concurrently with MATH-090, designed to strengthen both mathematical skills and study skills, and to increase success in this challenging course. Students will work in small groups with coaching from a math tutor and an instructor. Topics include: math study skills, reading a math textbook, overcoming math and test anxiety, learning style evaluation, test taking skills and stress management.
Prerequisite: Must be currently enrolled in MATH 090.

MARC 093  Tools for Descriptive Statistics with Algebra Success (2)
An optional course to be taken concurrently with MATH-093, designed to strengthen both mathematical and study skills, and to increase success in this course. Students will work in small groups with coaching.
Prerequisite: Must be currently enrolled in MATH 093.

MARC 095  Tools for Intermediate Algebra Success (2)
An optional course to be taken concurrently with MATH-095, designed to strengthen both mathematical skills and study skills, and to increase success in this challenging course. Students will work in small groups with coaching from a math tutor and an instructor. Topics include: math study skills, reading a math textbook, overcoming math and test anxiety, learning style evaluation, test taking skills and stress management.
Prerequisite: Must be currently enrolled in MATH 095.

Mathematics

Before enrolling in their first math course at TCC, students must take a mathematics placement test unless they have taken a college-level mathematics class within the last two years. TCC offers both college transfer and pre-college-level courses. For students who graduated within the past year from either Tacoma or Peninsula high schools, there is an alternate placement for mathematics based upon recent high school math work. Courses numbered below 100 cannot be applied toward degree or certificate requirements. See Advising for details.

Students considering a major in mathematics, engineering, science or computer science will normally complete MATH 115, 116, 124, 125, 126, 220, 224, and 238. Business and economics majors should complete MATH 111 and 112. The use of computer applications, including spreadsheets, is included in MATH 108, 111, and 112. For these classes, CU 103 and CU 203 are recommended as prerequisites if a student does not have spreadsheet experience.

MATH 010  Arithmetic and Algebra Review (2)
MATH-010 provides an individualized review of arithmetic and algebra topics based on the assessed needs of the student. Sessions will be led by an instructor with interactive computer software used as the primary mode of presentation. May be taken more than once, and is graded "S/U" only.
Prerequisite: Instructor permission.

MATH 075  Review Arithmetic (5)
(Previously MATH-086) Review of basic mathematics including arithmetic of whole numbers, fractions, decimals, percentages, ratios, proportions and plane geometry. Four-function basic calculator required.
Prerequisite: ENGL/085 with a minimum grade of C (may be taken concurrently) or assessment at above ENGL/085 or ABE 046 with a minimum grade of C (may be taken concurrently) or READ 075 with a minimum grade of C.
Mathematics

MATH 085  Introduction to Elementary Algebra  (5)
(Previously MATH-088) Beginning algebra specifically designed for students with no algebra background. Topics include introduction to variables and signed numbers, solutions to linear equations and inequalities, simplification of algebraic expressions, evaluation and manipulation of formulas, an emphasis on word problems and graphing of linear equations. Scientific calculator required. 
Prerequisite: ENGL/085 with a minimum grade of C (may be taken concurrently) or equivalent; and either MATH 075 with a minimum grade of C or equivalent or ABE 068 with a minimum grade of B-.

MATH 090  Elementary Algebra  (5)
Topics include linear equations, polynomials, factoring, rational expressions, and graphing. Scientific calculator required. 
Prerequisite: ENGL/085 with a minimum grade of C or equivalent; and either MATH 075 with a minimum grade of C or ABE 068 with a minimum grade of B- or equivalent..

MATH 093  Descriptive Statistics with Algebra  (5)
Based on the Statway curriculum for teaching statistics with integrated algebra. Introduction to descriptive statistics. Topics include data analysis and statistical studies, graphical and tabular summaries of data, measures of central tendency and variability, basic probability, functions, linear equations, linear regression and two-way tables. Preparation course for MATH-136. 
Prerequisite: MATH 085 with a minimum grade of C or assessment above MATH 085 and READ 095 or ENGL/095 (may be taken concurrently) with a minimum grade of C or assessment above READ 095 or ENGL/095.

MATH 094  Statway Bridge to Business Algebra  (5)
Topics include rates of change, introduction to functions, linear, quadratic, exponential and logarithmic functions and their applications, systems of linear equations and inequalities and their applications. 
Prerequisite: MATH 136 with a minimum grade of C.

MATH 095  Intermediate Algebra  (5)
(Formerly MATH-099) Topics include introduction to functions; linear, quadratic, exponential and logarithmic functions and their applications; systems of linear equations and inequalities and their applications; rational exponents and radicals. 
Prerequisite: MATH 090 with a minimum grade of C or assessment above MATH 090 and READ 095 or ENGL/095 with a minimum grade of C or assessment above READ 095 or ENGL/095.

MATH 096  Accelerated Algebra  (3)
A survey of algebraic concepts and skills intended for students majoring in math, science, or engineering. Topics include linear, quadratic, and radical functions, simplifying expressions, and solving equations. This course integrates the necessary algebraic skills and concepts into MATH-140 Introduction to Precalculus. 
Prerequisite: MATH 090 with a minimum grade of B or MATH 095 with a minimum grade of C or appropriate MATH placement and READ 095 or ENGL/095 with a minimum grade of C or assessment above READ 095 or ENGL/095. Co-requisite: MATH 140.

MATH 107  Math in Society  (5)
(Formerly MATH-107) A general education course investigating quantitative reasoning and its applications and role in society. Topics may include graph theory, statistics, coding, game theory, symmetry, and geometric and numerical patterns. Mathematical theory combined with quantitative skills will be used in applications to a variety of problems encountered in mathematics and the world. A thematic approach may be taken in this course. 
Prerequisite: MATH 095 with a minimum grade of C or assessment above MATH 095 and ENGL/095 with a minimum grade of C or assessment above ENGL/095.

MATH 110  Accelerated Math 1  (5)
(Formerly MATH-110) A course for prospective teachers focusing on the mathematics underlying modern elementary school math curricula. Topics include geometry, measurement, probability, and statistics. Emphasizes deep conceptual understanding, problem solving and communication of mathematical ideas. 
Prerequisite: MATH 095 with a minimum grade of C or equivalent; and ENGL/095 with a minimum grade of C or equivalent.

MATH 111  Accelerated Math 2  (5)
(Formerly MATH-111) A course for prospective teachers focusing on the mathematics underlying modern elementary school math curricula. Topics include geometry, measurement, probability, and statistics. Emphasizes deep conceptual understanding, problem solving and communication of mathematical ideas. 
Prerequisite: MATH 095 with a minimum grade of C or equivalent; and ENGL/095 with a minimum grade of C or equivalent.

MATH 117  Math 1  (5)
A brief introduction to pre-calculus concepts and skills. Topics include polynomial functions, graphing and transformations, exponential and logarithmic functions, and an introduction to trigonometry. 
Prerequisite: MATH 095 with a minimum grade of B or MATH 090 with a minimum grade of C or appropriate MATH placement and READ 095 or ENGL/095 with a minimum grade of C or assessment above READ 095 or ENGL/095. Co-requisite: MATH 140.

MATH 131  Math for Elementary Education 1  (5)
(Formerly MATH-170) A course for prospective teachers focusing on the mathematics underlying modern elementary school math curricula. Topics include deductive reasoning, set theory, whole numbers, fractions, decimals and their operations, and proportion and percentage. Emphasizes deep conceptual understanding, problem solving, and communication of mathematical ideas. 
Prerequisite: MATH 095 with a minimum grade of C or equivalent; and ENGL/095 with a minimum grade of C or equivalent.

MATH 132  Math for Elementary Education 2  (5)
(Formerly MATH-171) A course for prospective teachers focusing on the mathematics underlying modern elementary school math curricula. Topics include geometry, measurement, probability, and statistics. Emphasizes deep conceptual understanding, problem solving and communication of mathematical ideas. 
Prerequisite: MATH 095 with a minimum grade of C or equivalent; and ENGL/095 with a minimum grade of C or equivalent.

MATH 136  Inferential Statistics  (5)
Based on the Statway curriculum for teaching statistics with integrated algebra. Introduction to inferential statistics. Topics include modeling with linear, exponential and quadratic functions, probability distributions, confidence intervals and hypothesis testing for one and two sample proportions and means tests. Completion of MATH-136 is equivalent to completion of MATH&-146. 
Prerequisite: MATH 093 with a minimum grade of C.

MATH 140  Introduction to Precalculus  (2)
This course integrates analytic geometry concepts into MATH-096 Accelerated Algebra. Topics include 1-dimensional and 2-dimensional coordinate geometry, parameterized families of functions and their graphs. 
Prerequisite: MATH 090 with a minimum grade of B or MATH 095 with a minimum grade of C or appropriate MATH placement and READ 095 or ENGL/095 with a minimum grade of C or assessment above READ 095 or ENGL/095. Co-requisite: MATH 096.
Mathematics

MATH& 141 Precalculus I (5)
(Formerly MATH-115) In-depth study of the concept of a function, including graphs, transformations, operations on functions, and inverse functions. General theory of functions is applied to the study of polynomial, absolute value, radical, rational, exponential, and logarithmic functions. First course in a two course sequence designed to prepare students for Calculus. Graphing calculator required.
Prerequisite: MATH 140 with a minimum grade of C or appropriate MATH placement and READ 095 or ENGL/095 with a minimum grade of C or assessment above READ 095 or ENGL/095.

MATH& 142 Precalculus II (5)
(Formerly MATH-116) An introduction to trigonometric functions and their applications. Topics include unit circle definition of trigonometric functions, graphs, identities, inverse trigonometric functions, and solving equations and triangles. Also included is an introduction to conic sections and parametric equations. Second course in a two course sequence designed to prepare students for Calculus. Graphing calculators are required.
Prerequisite: MATH& 141 with a minimum grade of C or appropriate MATH placement and READ 095 or ENGL/095 with a minimum grade of C or assessment above READ 095 or ENGL/095.

MATH& 146 Introduction to Statistics (5)
(Formerly MATH-108) Introduction to the basic principles of probability, descriptive statistics, and inferential statistics. Topics include properties of probability, graphical and tabular summaries of data, measures of central tendency and variability, probability distributions, confidence intervals, hypothesis testing, and linear regression.
Prerequisite: MATH 095 or TMATH 100 with a minimum grade of C or assessment above MATH 095 and READ 095 or ENGL/095 with a minimum grade of C or assessment above READ 095 or ENGL/095.

MATH 147 College Algebra for Business and Economics (5)
(Formerly MATH-111) A precalculus course for business majors. Topics include: polynomials, inequalities, rational functions, marginal revenue and costs, matrix algebra, systems of equations, linear programming by graphing and simplex methods, exponential and logarithmic functions, linear regression, and the time value of money. Required: graphing calculator and knowledge of Excel spreadsheets including graphing.
Prerequisite: MATH 095 with a minimum grade of C or equivalent; and ENGL/095 with a minimum grade of C or equivalent.

MATH& 148 Business Calculus (5)
(Formerly MATH-112) (For students in business, economics, social sciences and other fields requiring minimal calculus.) Topics include the derivative, rates of change, maxima and minima, the integral and applications of integrals. Required: graphing calculator and knowledge of Excel spreadsheets including graphing.
Prerequisite: MATH 147 with a minimum grade of C or equivalent; and ENGL/095 with a minimum grade of C or equivalent.

MATH& 151 Calculus I (5)
Topics of calculus are presented geometrically, numerically, and symbolically. MATH& 151 topics include sequences, infinite series, Taylor series, Taylor polynomials, vectors, and functions of several variables. Graphing calculator required.
Prerequisite: MATH& 153 with a minimum grade of C or appropriate MATH placement and department permission; and ENGL/095 with a minimum grade of C or equivalent.

MATH& 152 Calculus II (5)
Topics of calculus are presented geometrically, numerically, and symbolically. MATH& 152 topics include applications of integration, differentiation, and methods of integration including improper integrals. Graphing calculator required.
Prerequisite: MATH& 151 with a minimum grade of C or appropriate MATH placement and department permission and READ 095 or ENGL/095 with a minimum grade of C or assessment above READ 095 or ENGL/095.

MATH& 153 Calculus III (5)
Topics of calculus are presented geometrically, numerically, and symbolically. MATH& 153 topics include sequences, infinite series, Taylor series, Taylor polynomials, vectors, and functions of several variables. Graphing calculator required.
Prerequisite: MATH& 152 with a minimum grade of C or appropriate MATH placement and department permission; and ENGL/095 with a minimum grade of C or equivalent.

MATH 220 Linear Algebra (5)
Topics include linear systems of equations, matrices, determinants, vectors, abstract vector spaces, linear transformations, eigenvectors and applications. Graphing calculator required.
Prerequisite: MATH& 153 with a minimum grade of C or appropriate MATH placement and department permission and READ 095 or ENGL/095 with a minimum grade of C or assessment above READ 095 or ENGL/095.

MATH 238 Elements of Differential Equations (5)
Prerequisite: MATH& 153 with a minimum grade of C or appropriate MATH placement and department permission and READ 095 or ENGL/095 with a minimum grade of C or assessment above READ 095 or ENGL/095.
Mathematics

MATH& 254  Calculus IV  (5)
(Formerly MATH-224) Topics of multivariable calculus are presented geometrically, numerically, and algebraically. Emphasis is on problem-solving and understanding concepts. Computers and graphing calculators are used as tools to assist the student in learning to think mathematically. Topics include cylindrical and spherical coordinates, vector valued functions, functions of several variables, partial differentiation, gradients, and double and triple integrals and vector calculus, including Green's and Stokes' theorems. Graphing calculator required. 
Prerequisite: MATH& 153 with a minimum grade of C or appropriate MATH placement and department permission and READ 095 or ENGL/ 095 with a minimum grade of C or assessment above READ 095 or ENGL/ 095.

CMATH 075  Computer-Based Review Arithmetic  (5)
A self-paced, computer-based course covering the same material as MATH 075. Review of basic mathematics including arithmetic of whole numbers, fractions, decimals, percents, ratios, proportions, and plane geometry. A four function calculator is required. 
Prerequisite: Assessment at CMath 075 level; and ENGL/ 085 with a minimum grade of C (may be taken concurrently) or equivalent. A student who has earned a grade of “U” in any CMATH course will not be allowed to take any other CMATH course.

CMATH 085  Computer-Based Introduction to Elementary Algebra  (5)
A self-paced, computer-based course covering the same material as MATH 085. Topics include introduction to variables and signed numbers, solutions to linear equations and inequalities, simplification of algebraic expressions, evaluation and manipulation of formulas, with an emphasis on word problems and graphing of linear equations. A scientific calculator is required. 
Prerequisite: MATH 075 with a minimum grade of C or assessment above MATH 075, READ 085 with a minimum grade of C or assessment above READ 085 or ENGL/ 085 with a minimum grade of C or assessment above ENGL/ 085. A student who has earned a grade of “U” in any CMATH course will not be allowed to take any other CMATH course.

CMATH 090  Computer-Based Intermediate Algebra  (5)
A self-paced, computer based course covering the same material as MATH 090. Topics include introduction to functions; linear, quadratic, exponential, and logarithmic functions and their applications; systems of linear equations and inequalities and their applications; rational exponents and radicals. Prerequisite: MATH 090 with a minimum grade of C or assessment above MATH 090, READ 085 with a minimum grade of C or assessment above READ 085 or ENGL/ 085 with a minimum grade of C or assessment above ENGL/ 085. A student who has earned a grade of “U” in any CMATH course will not be allowed to take any other CMATH course.

CMATH 095  Computer-Based Elementary Algebra  (5)
A self-paced, computer based course covering the same material as MATH 095. Topics include linear equations, factoring, rational expressions, and graphing. A scientific calculator is required. 
Prerequisite: MATH 085 with a minimum grade of C or Assessment above MATH 085, ENGL/ 085 with a minimum grade of C or equivalent A student who has earned a grade of “U” in any CMATH course will not be allowed to take any other CMATH course.
**Math: Technical**

**TMATH 100  Mathematics for the Health Sciences (5)**

An intermediate algebra-based course for Health Science students, satisfying the requirements for the nursing, radiology and respiratory therapy programs. Topics will cover graphing and graph analysis, linear, exponential, and logarithmic functions, roots, unit conversions, scientific notation, biostatistics, and applications involving various algebraic concepts applied specifically to the Health Science fields. Scientific calculator required. See schedule or instructor for recommended calculator.

**Prerequisite:** MATH 090 with a minimum grade of C or appropriate MATH placement and READ 095 or ENGL/095 with a minimum grade of C or assessment above READ 095 or ENGL/095.

---

**Music**

**MUSC 100  Fundamentals of Music (5)**

(Formerly MUS-100) This introductory class covers the basics of reading and understanding written music notation. Topics covered include: pitch names, rhythmic notation, basic terminology, simple piano keyboard familiarity, basic singing, intervals, and scales. This class is beneficial to students with a limited or no musical background.

**MUSC& 105  Music Appreciation (5)**

(Formerly MUS-107) (For the general college student; recommended for education majors.) A focus on listening to music with understanding. A strong emphasis on learning the elements of music, and how they relate to different styles of music.

**MUSC 106  World Music (5)**

(Formerly MUS-106) An introduction to musics of various cultures of the world. This class explores the elements of music, music as an expression of human values, music as an identity, and music as a lifestyle. (multicultural content)

**MUSC 110  Introduction to Digital Music (5)**

This course introduces students to using computers and digital audio work station applications to make music. Topics covered include: an applied understanding of the elements of music, basic audio editing techniques, basic recording techniques, basic MIDI sequencing, and live performance with digital technology.

**MUSC 120  Music in the Classroom (5)**

(Formerly MUS-120) Designed to instruct elementary education majors in practices with which they might implement music into their classrooms. This course will encompass individual music lesson plans as well as techniques to utilize music within other classroom subjects. Students will lead songs, lessons, and practice exercises in teaching music.

**MUSC 123  Class Applied Music: Guitar (1)**

(Formerly MUS-123) Class instruction in performance. Beginning and Intermediate sections offered each quarter.

**MUSC 124  Class Applied Music: Piano I (2)**

(Formerly MUS-124) Class instruction for the beginning piano student. Development of physical skills required for performance on keyboard instruments as well as an emphasis on reading music and an understanding of basic music theory. (Performance/skills course)

**MUSC 125  Class Applied Music: Piano II (2)**

(Formerly MUS-125) Second class in a sequence of instruction for the beginning piano student. Continued development of physical skills required for performance on keyboard instruments, as well as an emphasis on reading music and an understanding of basic music theory. (Performance/skills course)

**MUSC 126  Class Applied Music: Piano III (2)**

(Formerly MUS-126) Third quarter of class instruction for the beginning piano student. Continued development of physical skills required for performance on keyboard instruments, as well as an emphasis on reading intermediate/advanced piano music and an understanding of music theory. (Performance/Skill course)

**Prerequisite:** MUSC-124 or instructor permission.

**MUSC 130  Private Vocal or Instrumental Instruction (1)**

(Formerly MUS-130) Private instruction in either voice or instrument for credit. May be taken three times on same instrument.

**Prerequisite:** Music Department Chair permission.

**MUSC 131  Applied Lessons: String 1 (1)**

Private instruction on a string instrument (violin, viola, cello, bass, harp, guitar). One-on-one instruction in weekly lessons. (Performance/skills course)

**Prerequisite:** Instructor permission.

**MUSC 132  Applied Lessons: Brass 1 (1)**

Private instruction on brass instrument (horn, trumpet, trombone, euphonium, tuba). One-on-one instruction in weekly lessons. (Performance/skills course)

**Prerequisite:** Instructor permission.
Music

MUSC 133 Applied Lessons: Woodwind 1 (1)
Private instruction on a woodwind instrument (flute, oboe, clarinet, bassoon, or saxophone). One-on-one instruction in weekly lessons. (Performance/skills course)
Prerequisite: Instructor permission.

MUSC 134 Applied Lessons: Percussion 1 (1)
Private instruction on traditional concert percussion instruments. One-on-one instruction in weekly lessons. (Performance/skills course)
Prerequisite: Instructor permission.

MUSC 135 Applied Lessons: Keyboard 1 (1)
Private instruction on traditional keyboard instruments (piano, organ). One-on-one instruction in weekly lessons. (Performance/skills course)
Prerequisite: Instructor permission.

MUSC 136 Applied Lessons: Voice 1 (1)
Private instruction in singing. One-on-one instruction in weekly lessons. (Performance/skills course)
Prerequisite: Instructor permission.

MUSC 141 Music Theory I (5)
(Formerly MUSC 141) Introduction to the materials of Western music, notation, rhythm, scales, intervals, and diatonic triads. Includes elementary ear-training and sight-singing.

MUSC 142 Music Theory II (5)
(Formerly MUSC 142) Introduction to the study of Western diatonic harmony. Analysis of 18th and 19th century harmonic usage; composition exercises stressing correct voice-leading and chord succession. Further development of aural skills through ear-training and sight-singing.
Prerequisite: MUSC 141 with a minimum grade of C or instructor permission.

MUSC 143 Music Theory III (5)
(Formerly MUSC 143) Continued study of Western diatonic harmony, and introduction to chromatic harmony through analysis and composition exercises. Further development of aural skills through ear-training and sight-singing.
Prerequisite: MUSC 142 with a minimum grade of C or instructor permission.

MUSC 151 TCC Singers I (2)
(Formerly MUSC 170 and MUSC 170) Non-auditioned mixed chorus which rehearses and performs a broad variety of both sacred and secular choral music. At least one concert on-campus each quarter. Open to all singers; previous choral experience helpful but not essential. May be taken 3 times. (Performance/skills course)
Prerequisite: Three quarters of MUSC-170 for 270.

MUSC 152 TCC Voices I (2)
(Formerly MUSC 180 and MUSC 180) A vocal ensemble whose members are selected by audition. Known for their versatility and polished performances, this group sings both on and off campus several times each quarter. May be taken 3 times. (Performance/skills course)
Prerequisite: Instructor permission by audition.

MUSC 153 Music Theory IV (5)
(Formerly MUSC 175) A mixed, non-auditioned chorus which rehearses and performs music specifically within the “gospel” genre. At least one concert on-campus each quarter. Open to all singers; previous choral experience helpful but not essential. May be taken three times. (Performance/skills course)

MUSC 155 Gospel Choir (2)
(Formerly MUSC 175) A mixed, non-auditioned chorus which rehearses and performs music specifically within the “gospel” genre. At least one concert on-campus each quarter. Open to all singers; previous choral experience helpful but not essential. May be taken 3 times. (Performance/skills course)
Prerequisite: Instructor permission by audition.

MUSC 156 Orchestra I (2)
(Formerly MUSC 160) Preparation and performance of orchestra music. Students are expected to attend weekly rehearsals, and participate in all concerts. The orchestra is a combination of student and volunteer community musicians. This course is designed for experienced orchestra musicians, in their first year of participation in ensembles at TCC. May be taken 3 times. (Performance/skills course)
Prerequisite: Audition or instructor permission.

MUSC 161 Symphonic Band (2)
(Formerly MUSC 290 and MUSC 290) Preparation and performance of concert band music. Students are expected to attend weekly rehearsals, and participate in at least one quarterly concert. This band is a combination of student and volunteer community musicians. This course is designed for students in their first year of participation in the TCC symphonic band. May be taken three times. (Performance/skills course)
Prerequisite: Audition only - instructor approval needed.

MUSC 162 TCC Voices II (2)
(Formerly MUSC 291 and MUSC 291) Preparation and performance of jazz band music. Students are expected to attend weekly rehearsals, and participate in at least one quarterly concert. This band is a combination of student and volunteer community musicians. This course is designed for students in their first year of participation in the TCC jazz band. (Performance/skills course)
Prerequisite: Audition only - instructor approval needed.

MUSC 163 Special Topics in Music (5)
(Formerly MUSC 150) Studies of music related topics outside of the normal course offerings. Topics may include: focused analysis of a music genre, application of different music media, or a detailed examination of historical music styles.

MUSC 164 Private Vocal or Instrumental Instruction (1)
(Formerly MUSC 230) Private instruction in either voice or instrument for credit. May be taken three times on same instrument.
Prerequisite: Music Department chair permission.

MUSC 165 Jazz Band I (2)
(Formerly MUSC 291 and MUSC 291) Preparation and performance of jazz band music. Students are expected to attend weekly rehearsals, and participate in at least one quarterly concert. This band is a combination of student and volunteer community musicians. This course is designed for students in their first year of participation in the TCC jazz band. (Performance/skills course)
Prerequisite: Audition only - instructor approval needed.

MUSC 166 TCC Voices II (2)
(Formerly MUSC 291 and MUSC 291) Preparation and performance of jazz band music. Students are expected to attend weekly rehearsals, and participate in at least one quarterly concert. This band is a combination of student and volunteer community musicians. This course is designed for students in their first year of participation in the TCC jazz band. (Performance/skills course)
Prerequisite: Audition only - instructor approval needed.

MUSC 167 Choir II (2)
(Formerly MUSC 270) Non-auditioned choir which rehearses and performs music specifically within the “gospel” genre. At least one concert on-campus each quarter. Open to all singers; previous choral experience helpful but not essential. May be taken 3 times. (Performance/skills course)

MUSC 168 Orchestra II (2)
(Formerly MUSC 260) Preparation and performance of orchestra music. Students are expected to attend weekly rehearsals, and participate in all concerts. The orchestra is a combination of student and volunteer community musicians. This course is designed for experienced orchestra musicians, in their first year of participation in ensembles at TCC. May be taken 3 times. (Performance/skills course)
Prerequisite: Audition or instructor permission.
MUSC 232  Applied Lessons: Brass 2  (1)
Private instruction on brass instruments (horn, trumpet, trombone, euphonium, tuba), at an intermediate through advanced level. One-on-one instruction in weekly lessons. (Performance/skills course)
Prerequisite: MUSC 132 with a minimum grade of C and instructor permission.

MUSC 233  Applied Lessons: Woodwind 2  (1)
Private instruction on woodwind instrument (flute, oboe, clarinet, bassoon, or saxophone), at an intermediate through advanced level. One-on-one instruction in weekly lessons. (Performance/skills course)
Prerequisite: MUSC 133 with a minimum grade of C and instructor permission.

MUSC 234  Applied Lessons: Percussion 2  (1)
Private instruction on traditional concert percussion instruments, at an intermediate through advanced level. One-on-one instruction in weekly lessons. (Performance/skills course)
Prerequisite: MUSC 134 with a minimum grade of C and instructor permission.

MUSC 235  Applied Lessons: Keyboard 2  (1)
Private instruction on traditional keyboard instruments (piano, organ) at intermediate or advanced level. One-on-one instruction in weekly lessons. (Performance/skills course)
Prerequisite: MUSC 135 with a minimum grade of C and instructor permission.

MUSC 236  Applied Lessons: Voice 2  (1)
Private instruction in singing at an intermediate through advanced level. One-on-one instruction in weekly lessons. (Performance/skills course)
Prerequisite: MUSC 136 with a minimum grade of C and instructor permission.

MUSC& 241  Music Theory IV  (5)
The study of chromatic harmony in Western music. Analysis of 18th and 19th century harmonic usage; continued secondary chord functions and temporary harmonic modulations. Introduction to large-scale binary and ternary form and analysis. Further development of aural skills through ear training and sight singing.
Prerequisite: MUSC 143 with a minimum grade of C or instructor permission by audition.

MUSC& 242  Music Theory V  (5)
The study of extended chromatic harmony. An analysis of 18th and 19th century harmonic usage; modulations, extended chromatic chord structures, and mode mixture. Continued study of binary and ternary forms and analysis. Further development of aural skills through ear training and sight singing.
Prerequisite: MUSC& 241 with a minimum grade of C or instructor permission.

MUSC& 243  Music Theory VI  (5)
Introduction to Western and non-Western post-chromatic theory. Analysis of 20th and 21st century harmonic usage; modal theory, and atonal theory. Further development of aural skills through ear training and sight singing.
Prerequisite: MUSC& 242 with a minimum grade of C or instructor permission.

MUSC 244  Applied Lessons: Woodwind 2  (1)
Private instruction on woodwind instrument (flute, oboe, clarinet, bassoon, or saxophone), at an intermediate through advanced level. One-on-one instruction in weekly lessons. (Performance/skills course)
Prerequisite: MUSC 133 with a minimum grade of C and instructor permission.

MUSC 245  Applied Lessons: Percussion 2  (1)
Private instruction on traditional concert percussion instruments, at an intermediate through advanced level. One-on-one instruction in weekly lessons. (Performance/skills course)
Prerequisite: MUSC 134 with a minimum grade of C and instructor permission.

MUSC 246  Applied Lessons: Keyboard 2  (1)
Private instruction on traditional keyboard instruments (piano, organ) at intermediate or advanced level. One-on-one instruction in weekly lessons. (Performance/skills course)
Prerequisite: MUSC 135 with a minimum grade of C and instructor permission.

MUSC 247  Applied Lessons: Voice 2  (1)
Private instruction in singing at an intermediate through advanced level. One-on-one instruction in weekly lessons. (Performance/skills course)
Prerequisite: MUSC 136 with a minimum grade of C and instructor permission.

MUSC 248  Applied Lessons: Brass 2  (1)
Private instruction on brass instruments (horn, trumpet, trombone, euphonium, tuba), at an intermediate through advanced level. One-on-one instruction in weekly lessons. (Performance/skills course)
Prerequisite: MUSC 132 with a minimum grade of C and instructor permission.

MUSC 249  Independent Study  (1)
Independent learning activity designed jointly by student and instructor to improve and/or increase the learner's knowledge and skill in the area of music. This course is an elective, and transferability is inconsistent. Instructor approval needed for enrollment. Variable credit course.
Prerequisite: Instructor permission.
Nursing

NURS 111 Nursing I: Caring for the Well Client – Theory (5)
Didactic course prepares students to care for clients of any age in a variety of wellness settings in the community. Includes an introduction to wellness concepts. Learning experiences are designed to develop basic skills related to obtaining a complete assessment on clients.
Prerequisite: Admittance to the Nursing program.

NURS 112 Nursing I: Caring for the Well Client – Clinical (5)
Prepares students to care for clients of any age in a variety of wellness settings in the community. Includes an introduction to wellness concepts. Learning experiences are designed to develop basic skills related to obtaining a complete assessment on clients.
Prerequisite: Admittance to the Nursing program; NURS 111 if not taking concurrently.

NURS 113 Nursing Interventions I: Assessment (Lab) (1)
This course consists of supervised practice and check-offs under simulated conditions for nursing technical skills.
Prerequisite: Admittance to the Nursing program.

NURS 115 Skills and Assessment Lab I (3)
This course introduces the nursing student to the application of concepts through clinical skills in the laboratory setting. Concepts of assessment, caring interventions, teaching and learning, safety, mobility, elimination, perfusion, oxygenation, and infection will be included across the lifespan. Students will participate in supervised practice and competency validation under simulated conditions.
Prerequisite: CHEM& 121 with a minimum grade of B; and BIOL& 242 with a minimum grade of B; and BIOL& 260 with a minimum grade of B; and either ENGL& 101 with a minimum grade of B or ENGL& 102 with a minimum grade of B; and PSYC& 200 with a minimum grade of B; and either CMST& 101 with a minimum grade of C or CMST& 220 with a minimum grade of C; and TEAS Test; and Admission to the Nursing Program.

NURS 116 Skills and Assessment Lab II (3)
This course introduces the nursing student to the application of concepts through clinical skills in the laboratory setting. Concepts of assessment, caring interventions, comfort, fluid and electrolytes, elimination, nutrition and digestion, metabolism, tissue integrity, and infection will be included across the lifespan. Accurate calculation, measurement, and administration of medications will also be emphasized. Students will participate in supervised practice and competency validation under simulated conditions.
Prerequisite: NURS 115 with a minimum grade of C; NURS 119 with a minimum grade of C; NURS 171 with a minimum grade of C; NURS 172 with a minimum grade of C; NURS 181 with a minimum grade of C; NURS 191 with a minimum grade of C.

NURS 117 Skills and Assessment Lab - LPN Transition (3)
This course is designed for LPNs transitioning to the RN program. It reinforces the application of concepts through clinical skills in the laboratory setting and introduces the LPN to skills necessary to successfully transition to the role of RN. Concepts of assessment, caring interventions, comfort, fluid and electrolytes, elimination, nutrition and digestion, metabolism, tissue integrity, and infection will be included. Accurate calculation, measurement, and administration of medications will also be emphasized. Students will participate in supervised practice and competency validation under simulated conditions.
Prerequisite: Active unencumbered WA LPN License and acceptance into the nursing program; CHEM& 121 with a minimum grade of B; and either ENGL& 101 with a minimum grade of B or ENGL& 102 with a minimum grade of B; and BIOL& 242 with a minimum grade of B; and PSYC& 200 with a minimum grade of B; and either CMST& 101 with a minimum grade of C or CMST& 220 with a minimum grade of C; and TEAS test and NLN Mobility Tests.

NURS 121 Nursing II: Caring for the Client with Minor Deviations from Wellness/ Maternal Newborn - Theory (5)
Didactic course provides learning experiences with clients of all ages with episodic and/or minor deviations from wellness. Concepts related to nursing care of the surgical client and the OB/GYN client are discussed. The principles of the nursing process, growth and development, nutrition, cultural sensitivity, pharmacology, health teaching, caring and communication are integrated throughout.
Prerequisite: NURS 111, NURS 112, NURS 113, NURS 141, and NURS 151.

NURS 122 Nursing II: Caring for the Client with Minor Deviations from Wellness/ Maternal Newborn - Clinical (5)
This course provides learning experiences with clients with episodic and/or minor deviations from wellness in the long term care setting in addition to the care of the maternal new born clients in the acute care setting. Growth and development of these clients will be expanded. Concepts related to the nursing care of the surgical client, and the clients with orthopedic conditions are discussed. The principles of the nursing process, growth and development, nutrition, cultural sensitivity, pharmacology, health teaching, caring and communication are integrated throughout.
Prerequisite: NURS 111, NURS 112, NURS 113 & NURS 141; NURS 151 with a minimum grade of C and NURS 121 (may be taken concurrently)

NURS 123 Nursing Interventions II: Basic Skills (Lab) (1)
Supervised check-off, under simulated conditions, for nursing skills and procedures commonly encountered in ambulatory, long term care and hospital settings.
Prerequisite: NURS 111, NURS 112, NURS 113, NURS 141; NURS 151 with a minimum grade of C and NURS 121 (may be taken concurrently).
NURS 125  Clinical and Simulation  
- LPN Transition (3)
This course provides continued learning opportunities through simulated and actual clinical practice of nursing care delivery. It includes select patient scenarios across the lifespan in a simulated lab setting, using application of concepts in coordination with other courses in the program. In the clinical setting, the students will have learning opportunities to apply concepts and skills in the caring of patients with medical-surgical needs in the acute care or specialty care setting across the lifespan. Principles of communication, safety, and application of the nursing process, including accurate calculation, measurement, and administration of medications, will be included in both the simulated and the clinical settings.
Prerequisite: Active unencumbered WA LPN License; acceptance into the nursing program; CHEM& 121 with a minimum grade of B; and either ENGL& 101 with a minimum grade of B or ENGL& 102 with a minimum grade of B; and BIOL& 242 with a minimum grade of B and PSYC& 200 with a minimum grade of B and BIOL& 260 with a minimum grade of B; and either CMST& 101 with a minimum grade of C or CMST 110 with a minimum grade of C or CMST& 220 with a minimum grade of C; and TEAS Test and NLN Mobility Tests.

NURS 131  Nursing III: Caring for the Client with Moderate Deviations from Wellness/ Pediatrics - Theory (5)
Didactic course provides learning experiences with clients of all ages with moderate deviations from wellness. Concepts related to the nursing care of adult clients and pediatric clients (including concepts of family-centered care) will be discussed, primarily in acute care settings. Growth and development of these clients will be expanded. The principles of the nursing process, nutrition, cultural sensitivity, pharmacology, health teaching, caring and communication are integrated throughout.
Prerequisite: NURS 121, NURS 122, NURS 123, and NURS 142.

NURS 132  Nursing III: Caring for the Client with Moderate Deviations from Wellness/ Pediatrics - Clinical (5)
Clinical course provides learning experiences with the adult med/surg client that has moderate deviations from wellness and the pediatric client, primarily in acute care settings. Growth and development of these clients will be expanded. The principles of the nursing process, nutrition, cultural sensitivity, pharmacology, health teaching, caring and communication are integrated throughout.
Prerequisite: NURS 121, NURS 122, NURS 123, and NURS 142, NURS 131 (or taken concurrently).

NURS 133  Nursing Interventions III: Advanced Skills (Lab) (1)
Supervised practice and check off under simulated conditions for nursing skills and procedures commonly encountered in the hospital setting such as: intravenous medication administration, central lines, tracheostomy care and blood administration.
Prerequisite: NURS 121, NURS 122, NURS 123, and NURS 142, NURS 131 (or taken concurrently).

NURS 141  Nursing Focus I: Gerontological Nursing (Theory) (1)
Concepts of gerontological nursing care are presented in this course. Emphasis is on the physical, psychological, social, and developmental changes that occur with aging.
Prerequisite: Admittance to the Nursing program.

NURS 142  Nursing Focus II: Pharmacology I (Theory) (1)
This course will introduce nursing students to the basics of clinical pharmacology including dosage calculations, pharmaceutics, pharmacokinetics, pharmacodynamics, drug classifications and references. Information will be presented on: anti-infectives, neurosensory, pain/comfort, and food/fluid drugs.
Prerequisite: NURS 111, NURS 112, NURS 113, NURS 141 or instructor permission.

NURS 143  Nursing Focus III: Pharmacology II (Theory) (1)
This course is a continuation of NURS 142, Pharmacology I. The basics of clinical pharmacology are expanded. Information will be presented on pharmaceutics, pharmacokinetics, and pharmacodynamics of respiration, circulation, neurosensory and food/fluid drugs.
Prerequisite: NURS 121, NURS 122, NURS 123, NURS 142 or instructor permission.

NURS 151  Nursing I: Nursing Technology (Theory) (2)
Common and essential skills for register nurses to communicate are covered using technology, such as security, etiquette, software programs, web based programs, course management systems, accessing nursing research, and electronic medical record software.
Prerequisite: NURS 111 with a minimum grade of C.

NURS 153  Pharmacology I (1)
This course introduces the student to pharmacology. Pharmacological concepts included in this course are: pharmacokinetics, routes of administration, dosage calculation, safe medication administration, therapeutic effects, side and adverse effects, interactions, and contraindications. Specific drug information on assessment; Health, Wellness and Illness; and Nutrition across the lifespan is covered.
Prerequisite: BIOL& 242 with a minimum grade of B; and either ENGL& 101 with a minimum grade of B or ENGL& 102 with a minimum grade of B; and CHEM& 121 with a minimum grade of B; and PSYC& 200 with a minimum grade of B; and BIOL& 260 with a minimum grade of B; and either CMST& 101 with a minimum grade of C or CMST 110 with a minimum grade of C or CMST& 220 with a minimum grade of C; and TEAS Test and NLN Mobility Tests.
**NURS 154  Pharmacology II (1)**
This course continues with pharmacological concepts about the pharmacokinetics, routes of administration, dosage calculation, safe medication administration, therapeutic effects, side and adverse effects, interactions, and contraindications of specific medications for the following areas: Sexuality, Reproduction, Development, Stress and Coping, Comfort, Self, Grief and Loss, Mobility, and Sensory perception across the lifespan.
Prerequisite: NURS 171 with a minimum grade of C and NURS 172 with a minimum grade of C and NURS 115 with a minimum grade of C and NURS 191 with a minimum grade of C and NURS 181 with a minimum grade of C and NURS 183 with a minimum grade of C.

**NURS 155  Pharmacology III (1)**
This course continues with pharmacological concepts about the pharmacokinetics, routes of administration, dosage calculation, safe medication administration, therapeutic effects, side and adverse effects, interactions, and contraindications of specific medications for these areas across the lifespan: Fluid and Electrolytes, Acid-Base Balance, Inflammation, Tissue Integrity, Infection, Cellular Regulation, Metabolism, Immunity, and Elimination.
Prerequisite: NURS 173 with a minimum grade of C and NURS 174 with a minimum grade of C and NURS 116 with a minimum grade of C and NURS 192 with a minimum grade of C and NURS 154 with a minimum grade of C and NURS 182 with a minimum grade of C.

**NURS 156  Pharmacology - LPN Transition (1)**
This course continues with pharmacological concepts about the pharmacokinetics, routes of administration, dosage calculation, safe medication administration, therapeutic effects, side and adverse effects, interactions, and contraindications of specific medications for these areas across the lifespan: Fluid and Electrolyte and Acid-Base Balance, Inflammation, Tissue Integrity, Infection, Cellular Regulation, Metabolism, Immunity, and Elimination.
Prerequisite: Active unencumbered WA LPN license and acceptance into the nursing program; and CHEM& 121 with a minimum grade of B; and either ENGL& 101 with a minimum grade of B or ENGL& 102 with a minimum grade of B; and BIOL& 242 with a minimum grade of B; and PSYC& 200 with a minimum grade of B; and either CMST& 101 with a minimum grade of C or CMST& 220 with a minimum grade of C; and TEAS Test and NLN Mobility Tests.

**NURS 171  Health and Illness Concepts 1A (2)**
This course introduces the student to the beginning knowledge of nursing practice. Health and Illness concepts included in this course are: Assessment, Health, Wellness and Illness, and Nutrition.
Prerequisite: CHEM& 121 with a minimum grade of B and either ENGL& 101 with a minimum grade of B or ENGL& 102 with a minimum grade of B; and PSYC& 200 with a minimum grade of B; and either CMST& 101 with a minimum grade of C or CMST& 220 with a minimum grade of C; and TEAS Test and Admission to the Nursing Program.

**NURS 172  Health and Illness Concepts 1B (2)**
This course introduces the student to the intermediate knowledge of nursing practice. Health and Illness concepts included in this course are: Assessment, Health, Wellness and Illness, and Nutrition.
Prerequisite: CHEM& 121 with a minimum grade of B and either ENGL& 101 with a minimum grade of B or ENGL& 102 with a minimum grade of B; and either CMST& 101 with a minimum grade of C or CMST& 220 with a minimum grade of C; and TEAS Test and Admission to the Nursing Program.

**NURS 173  Health and Illness Concepts 2A (2)**
This course introduces the student to the beginning knowledge of nursing practice. Health and Illness concepts included in this course are: Stress and Coping, Comfort, Self, Grief and Loss, Mobility, and Sensory Perception. All concepts are applied to the care of individuals across the lifespan and include elements of nutrition as applicable.
Prerequisite: NURS 171 with a minimum grade of C and NURS 115 with a minimum grade of C and NURS 181 with a minimum grade of C and NURS 172 with a minimum grade of C and NURS 191 with a minimum grade of C.

**NURS 174  Health and Illness Concepts 2B (2)**
This course introduces the student to the intermediate knowledge of nursing practice. Health and Illness concepts included in this course are: Stress and Coping, Comfort, Self, Grief and Loss, Mobility, and Sensory Perception. All concepts are applied to the care of individuals across the lifespan and include elements of nutrition as applicable.
Prerequisite: NURS 171 with a minimum grade of C and NURS 115 with a minimum grade of C and NURS 181 with a minimum grade of C and NURS 172 with a minimum grade of C and NURS 191 with a minimum grade of C.

**NURS 175  Health and Illness Concepts 3A (2)**
This course introduces the student to the intermediate knowledge of nursing practice. Health and Illness concepts included in this course are: Stress and Coping, Comfort, Self, Grief and Loss, Mobility, and Sensory Perception. All concepts are applied to the care of individuals across the lifespan and include elements of nutrition as applicable.
Prerequisite: NURS 173 with a minimum grade of C and NURS 116 with a minimum grade of C and NURS 154 with a minimum grade of C and NURS 174 with a minimum grade of C.
NURS 176  Health and Illness Concepts 3B  (3)
This course introduces the student to intermediate knowledge of nursing practice. Health and illness concepts included in this course are: Cellular Regulation, Metabolism, Immunity, and Elimination. All concepts are applied to the care of individuals across the lifespan and include elements of nutrition as applicable.
Prerequisite: NURS 173 with a minimum grade of C and NURS 116 with a minimum grade of C and NURS 154 with a minimum grade of C and NURS 174 with a minimum grade of C and NURS 192 with a minimum grade of C and NURS 182 with a minimum grade of C.

NURS 177  Health & Illness Concepts - LPN Transition  (3)
This course introduces the student to intermediate knowledge of nursing practice. Health and illness concepts included in this course are: Cellular Regulation, Metabolism, Immunity, and Elimination. All concepts are applied to the care of individuals across the lifespan and include elements of nutrition as applicable.
Prerequisite: Active unencumbered WA LPN license and acceptance into the nursing program and CHEM& 121 with a minimum grade of B; and either ENGL& 101 with a minimum grade of B or ENGL& 102 with a minimum grade of B; and BIOL& 242 with a minimum grade of B; and PSYC& 200 with a minimum grade of B; and BIOL& 260 with a minimum grade of B; and either CMST& 101 with a minimum grade of C or CMST& 220 with a minimum grade of C; and TEAS Test and NLN Mobility Tests.

NURS 181  Professional Concepts I  (1)
This course introduces the student to beginning knowledge, skills & attitudes of nursing as a profession and includes the following concepts across the lifespan: Professional Behaviors, Accountability, Advocacy, and Clinical Decision Making.
Prerequisite: CHEM& 121 with a minimum grade of B; and BIOL& 260 with a minimum grade of B; and PSYC& 200 with a minimum grade of B; and BIOL& 242 with a minimum grade of B; and either ENGL& 101 with a minimum grade of B or ENGL& 102 with a minimum grade of B; and either CMST& 101 with a minimum grade of C or CMST& 220 with a minimum grade of C; and TEAS Test and NLN Mobility Tests.

NURS 182  Professional Concepts II  (1)
This course introduces the student to beginning knowledge, skills and attitudes of nursing as a profession and includes the following concepts across the lifespan: Legal Issues, Health Care Systems, and Informatics.
Prerequisite: NURS 115 with a minimum grade of C; and NURS 153 with a minimum grade of C; and NURS 171 with a minimum grade of C; and NURS 172 with a minimum grade of C; and NURS 181 with a minimum grade of C; and NURS 191 with a minimum grade of C.

NURS 183  Professional Concepts III  (1)
This course introduces the student to intermediate knowledge, skills and attitudes of nursing as a profession and includes the following concepts across the lifespan: Teaching and Learning, Safety, and Evidence-Based Practice.
Prerequisite: NURS 116 with a minimum grade of C; and NURS 154 with a minimum grade of C; and NURS 173 with a minimum grade of C; and NURS 174 with a minimum grade of C; and NURS 182 with a minimum grade of C; and NURS 192 with a minimum grade of C.

NURS 184  Professional Concepts - LPN Transition  (2)
This course introduces students to intermediate knowledge, skills, and attitudes of nursing as a profession and includes the following concepts across the lifespan: Accountability, Clinical Decision Making, Legal, Informatics, Teaching and Learning, Safety, and Evidence Based Practice.
Prerequisite: Active unencumbered WA LPN License and acceptance into the nursing program and CHEM& 121 with a minimum grade of B; and either ENGL& 101 with a minimum grade of B or ENGL& 102 with a minimum grade of B; and BIOL& 241 with a minimum grade of B; and BIOL& 242 with a minimum grade of B; and PSYC& 200 with a minimum grade of B; and BIOL& 260 with a minimum grade of B; and either CMST& 101 with a minimum grade of C or CMST& 220 with a minimum grade of C; and TEAS Test and NLN Mobility Tests.

NURS 191  Clinical I  (3)
This course introduces students to the application of concepts and skills in sub-acute care and community settings. Principles of communication, assessment, safety, and application of the nursing process will be included across the lifespan.
Prerequisite: CHEM& 121 with a minimum grade of B; and either ENGL& 101 with a minimum grade of B or ENGL& 102 with a minimum grade of B; and BIOL& 242 with a minimum grade of B; and PSYC& 200 with a minimum grade of B; and BIOL& 260 with a minimum grade of B; and either CMST& 101 with a minimum grade of C or CMST& 110 with a minimum grade of C; and NURS 181 with a minimum grade of C; and NURS 191 with a minimum grade of C.

NURS 192  Clinical II  (3)
This course introduces students to the application of concepts and skills in subacute and acute care settings across the lifespan, including maternal-child and pediatrics. Mental health concepts are an additional focus as applied to patients/clients in non-psychiatric settings. Principles of communication, safety, and application of the nursing process, including accurate calculation, measurement, and administration of medications, will be included.
Prerequisite: NURS 115 with a minimum grade of C; NURS 153 with a minimum grade of C; NURS 171 with a minimum grade of C; NURS 172 with a minimum grade of C; NURS 181 with a minimum grade of C; and NURS 191 with a minimum grade of C.
Nursing

NURS 193  Clinical III  (3)
This course introduces students to the application of concepts and skills in caring for patients/clients with medical-surgical needs in the acute care setting across the lifespan. Principles of communication, safety, and application of the nursing process, including accurate calculation, measurement, and administration of medications, will be included.
Prerequisite: NURS 116 with a minimum grade of C and NURS 154 with a minimum grade of C and NURS 173 with a minimum grade of C and NURS 174 with a minimum grade of C; NURS 182 with a minimum grade of C; and NURS 192 with a minimum grade of C.

NURS 211  Nursing IV: Caring for the Client with Acute/Complex I Problems - Theory  (5)
Didactic course provides learning experiences with adult clients with acute, complex problems. Concepts related to care of the client with major injuries and illness or system failure are discussed. Principles of the nursing process, growth and development, nutrition, cultural sensitivity, pharmacology, health teaching, caring and communication are integrated throughout.
Prerequisite: NURS 131, NURS 132, NURS 133, NURS 143 or instructor permission.

NURS 212  Nursing IV: Caring for the Client with Acute/Complex I Problems - Clinical  (5)
Clinical course provides learning experiences with adult clients with acute/complex I problems. Concepts related to care of the client with major injuries and illness or system failure are discussed. Principles of the nursing process, growth and development, nutrition, cultural sensitivity, pharmacology, health teaching, caring and communication are integrated throughout.
Prerequisite: NURS 131, NURS 132, NURS 133, NURS 143 or instructor permission.

NURS 221  Nursing V: Caring for the Client with Acute/Complex II/Chronic Problems - Theory  (5)
Didactic course provides experiences for the client with chronic physical and mental disorders across the lifespan. Emphasis is on self-awareness and a respect for the dignity of the individual. Principles of the nursing process, growth and development, nutrition, cultural sensitivity, pharmacology, health teaching, caring and communication are integrated throughout.
Prerequisite: NURS 211, NURS 212, NURS 241 or instructor permission.

NURS 222  Nursing V: Caring for the Client with Acute/Chronic Complex II Problems - Clinical  (5)
Clinical course provides learning experiences for adult clients with complex II and chronic physical and mental disorders. Emphasis is on self-awareness, perception and respect for the dignity of the individual. Principles of the nursing process, growth, and development, nutrition, cultural sensitivity, pharmacology, health teaching, caring and communication are integrated throughout.
Prerequisite: NURS 211, NURS 212, NURS 241/ NURS 221 (or taken concurrently).

NURS 226  Clinical Simulation IV  (2)
This course provides continued learning opportunities through simulated practice of nursing care delivery. It includes participation in select patient/client scenarios across the lifespan in a simulation lab setting, using application of concepts in coordination with other courses in the program.
Prerequisite: NURS 221, NURS 222 & NURS 242 or instructor permission.

NURS 227  Clinical Simulation V  (2)
This course provides advanced learning opportunities through simulated practice of nursing care delivery. It includes participation in select patient/client scenarios across the lifespan in a simulation lab setting, using application of concepts in coordination with other courses in the program.
Prerequisite: NURS 226 with a minimum grade of C and NURS 256 with a minimum grade of C and NURS 271 with a minimum grade of C and NURS 272 with a minimum grade of C and NURS 284 with a minimum grade of C and NURS 294 with a minimum grade of C.

NURS 228  Clinical Simulation VI  (1)
This course provides culminating learning opportunities through simulated practice of nursing care delivery. It includes participation in select patient/client scenarios across the lifespan in a simulation lab setting, using application of concepts in coordination with other courses in the program.
Prerequisite: NURS 227 with a minimum grade of C NURS 257 with a minimum grade of C NURS 273 with a minimum grade of C NURS 274 with a minimum grade of C NURS 285 with a minimum grade of C NURS 295 with a minimum grade of C.

NURS 231  Seminar in Care Management  (1)
A seminar for students taking Nursing 232, Nursing Preceptorship. Course provides students an opportunity to share experiences and feelings associated with the preceptorship experience. The instructor facilitates the discussion to incorporate previously taught concepts, especially leadership.
Prerequisite: NURS 221, NURS 222 & NURS 242 or instructor permission.

NURS 232  Nursing VI: Preceptorship-Manager of Care  (8)
Clinical course that provides learning experiences for students in assigned areas. Emphasis is on managing the care of multiple clients. The student is paired with an experienced RN who serves as a mentor/preceptor.
Prerequisite: NURS 221, NURS 222 & NURS 242, or instructor permission.

NURS 233  Preparation for RN Licensure  (1)
A seminar to prepare students for the National Council Licensing Exam-RN (NCLEX-RN). The course includes assessment of both nursing knowledge and critical thinking skills.
Prerequisite: NURS 221, NURS 222 & NURS 242 or instructor permission.
Nursing

NURS 234  Transition to Practice: Seminar (1)
This course supports the student’s Transition To Practice clinical experience in NURS 296. It provides the opportunity to reflect on clinical experiences with peers, and formulate problem-solving strategies that can be applied in the clinical setting.
Prerequisite: NURS 227 with a minimum grade of C; NURS 257 with a minimum grade of C; NURS 273 with a minimum grade of C; NURS 274 with a minimum grade of C; NURS 285 with a minimum grade of C; NURS 295 with a minimum grade of C. Co-Requisite: NURS 296.

NURS 241  Nursing Focus IV: Leadership and Management (Theory) (2)
Leadership skills associated with patient care management are introduced. Concepts discussed will include: supervision, delegation, conflict resolution, leadership styles, quality assurance, responsibility, accountability, and collaboration.
Prerequisite: NURS 131, NURS 132, NURS 133 & NURS 143 or instructor permission.

NURS 242  Nursing Focus V: End of Life Care (2)
This course provides learning experiences for the client at the end of life. Course will include both ‘high tech’ and ‘high touch’ situations and the ethical dilemmas associated with each. The principles of communication, ethics, legal aspects, symptom management, cultural and spiritual competence regarding death are integrated.
Prerequisite: NURS-211, NURS-212 & NURS-241 or instructor permission.

NURS 243  Nursing Focus VI: Trends and Issues (2)
This course will include a presentation of concepts necessary to become a member of the discipline of nursing. Ethical-legal issues, health care trends both nationally and globally, political awareness and collaboration with health care team members will be the primary topics.
Prerequisite: NURS 221, NURS 222 & NURS 242 or instructor permission.

NURS 244  Preparation for the Natl Council Licensing Exam (1)
This course is to prepare students through extensive assessment and review for the National Council of State Boards in Nursing’s National Council Licensing Examination for Registered Nurses (NCLEX-RN).
Prerequisite: NURS 273 with a minimum grade of C; NURS 274 with a minimum grade of C; NURS 275 with a minimum grade of C; NURS 276 with a minimum grade of C; NURS 277 with a minimum grade of C; NURS 278 with a minimum grade of C; NURS 279 with a minimum grade of C.

NURS 255  Pharmacology IV (1)
This course continues with pharmacological concepts about the pharmacokinetics, routes of administration, dosage calculation, safe medication administration, therapeutic effects, side and adverse effects, interactions, and contraindications of specific medications for these areas across the lifespan: Oxygenation, Perfusion, Thermoregulation, Cognition, Violence, Mood and Affect, Stress and Coping, Neuroprotection, and Behavior.
Prerequisite: NURS 175 with a minimum grade of C and NURS 176 with a minimum grade of C and NURS 124 with a minimum grade of C and NURS 155 with a minimum grade of C and NURS 183 with a minimum grade of C.

NURS 256  Pharmacology V (1)
This course continues with pharmacological concepts about the pharmacokinetics, routes of administration, dosage calculation, safe medication administration, therapeutic effects, side and adverse effects, interactions, and contraindications of specific medications or fluids for medications in these areas: immunity, fluid and electrolytes, tissue integrity, infection, cellular regulation, metabolism, comfort, and grief and loss across the lifespan.
Prerequisite: NURS 271 with a minimum grade of C and NURS 272 with a minimum grade of C and NURS 273 with a minimum grade of C and NURS 274 with a minimum grade of C and NURS 275 with a minimum grade of C and NURS 276 with a minimum grade of C.

NURS 260  Nursing Focus VI: Advanced Intravenous Therapy Skills (1)
This course provides advanced content related to the care of clients receiving intravenous fluids. Concepts related to selecting solutions, managing common complications, legal/ethical considerations, infection control, managing catheters and implanted port devices are discussed. Principles of the nursing process, growth and development, nutrition, pharmacology and health teaching are integrated.
Prerequisite: NURS 221, 222 and 242 or instructor permission.

NURS 261  LPN to ADN Articulation (Bridge - Entering Level IV) Theory (4)
Articulation (bridge) course for LPNs entering the ADN program. The following concepts are discussed: role transition, wellness-illness continuum, nursing process, caring behaviors, prevention concepts, dosage calculations, medication administration, fluid and electrolyte balance, history and physical assessment based upon NANDA diagnostic categories, cultural and ethnic concerns, and selected medical conditions.
Prerequisite: Admittance to the Nursing Program and Active LPN license in Washington. Co-Requires: NURS 262 and NURS 263.

NURS 262  LPN to ADN Articulation (Bridge - Entering Level IV) Clinical (3)
Clinical course that supports the 4th quarter LPN Bridge theory. Provides learning experiences with the moderate ill client and their family, primarily in acute care settings. Growth and development of these clients will be expanded. The principles of the nursing process, nutrition, cultural sensitivity, pharmacology, health teaching, caring and communication are integrated throughout.
Prerequisite: Admittance to the Nursing Program. Co-Requisites: NURS 261 and NURS 263.
Nursing

NURS 263  LPN TO ADN Articulation (Bridge - Entering Level IV) Lab (1)
Supervised practice and check off under simulated conditions for nursing skills and procedures commonly encountered in the hospital setting such as: intravenous medication administration, central lines, tracheostomy care and blood administration. 
Prerequisite: Admittance to the Nursing Program. Co-Requisites: NURS 261 and NURS 262.

NURS 271  Health and Illness Concepts 4A (2)
This course introduces the student to intermediate knowledge of nursing practice. Health and illness concepts included in this course are: Oxygenation, Perfusion, and Thermoregulation. All concepts are applied to the care of individuals across the lifespan and include elements of nutrition as applicable. 
Prerequisite: NURS 175 with a minimum grade of C and NURS 124 with a minimum grade of C and NURS 165 with a minimum grade of C and NURS 183 with a minimum grade of C and NURS 176 with a minimum grade of C and NURS 193 with a minimum grade of C.

NURS 272  Health and Illness Concepts 4B (3)
This course introduces the student to intermediate knowledge of nursing practice. Health and illness concepts included in this course are: Cognition, Violence, Mood and Affect, Stress and Coping, Neuroprotection, and Behavior. All concepts are applied to the care of individuals across the lifespan and include elements of nutrition as applicable. 
Prerequisite: NURS 175 with a minimum grade of C and NURS 124 with a minimum grade of C and NURS 165 with a minimum grade of C and NURS 183 with a minimum grade of C and NURS 176 with a minimum grade of C and NURS 193 with a minimum grade of C.

NURS 273  Health and Illness Concepts 5A (2)
This course introduces the student to advanced knowledge of nursing practice. It addresses complex aspects of the following health and illness concepts: Immunity, Fluid and Electrolytes, Tissue Integrity, and Infection. All concepts are applied to the care of individuals across the lifespan and include elements of nutrition as applicable. 
Prerequisite: NURS 271 with a minimum grade of C and NURS 226 with a minimum grade of C and NURS 256 with a minimum grade of C and NURS 284 with a minimum grade of C and NURS 272 with a minimum grade of C and NURS 294 with a minimum grade of C.

NURS 274  Health and Illness Concepts 5B (3)
This course introduces the student to advanced knowledge of nursing practice. It addresses complex aspects of the following Health and Illness concepts: Cellular Regulation, Metabolism, Comfort, and Grief and Loss. All concepts are applied to the care of individuals across the lifespan and include elements of nutrition as applicable. 
Prerequisite: NURS 271 with a minimum grade of C and NURS 226 with a minimum grade of C and NURS 256 with a minimum grade of C and NURS 284 with a minimum grade of C and NURS 272 with a minimum grade of C and NURS 294 with a minimum grade of C.

NURS 278  Professional Concepts IV (1)
This course introduces the student to intermediate knowledge, skills, and attitudes of nursing as a profession and includes the following concepts across the lifespan: Collaboration, Managing Care, and expands on Legal Issues. 
Prerequisite: NURS 124 with a minimum grade of C and NURS 155 with a minimum grade of C and NURS 175 with a minimum grade of C and NURS 176 with a minimum grade of C and NURS 183 with a minimum grade of C and NURS 193 with a minimum grade of C.

NURS 284  Professional Concepts IV (1)
This course introduces the student to intermediate knowledge, skills, and attitudes of nursing as a profession and includes the following concepts across the lifespan: Health Policy, Health Care Systems, Ethics, and Clinical Decision Making. 
Prerequisite: NURS 226 with a minimum grade of C and NURS 256 with a minimum grade of C and NURS 271 with a minimum grade of C and NURS 272 with a minimum grade of C and NURS 284 with a minimum grade of C and NURS 294 with a minimum grade of C.

NURS 286  Professional Concepts VI (1)
This course introduces the student to advanced knowledge and attitudes of nursing as a profession and includes the concepts across the lifespan: Quality Improvement, Professional Behaviors, and Accountability. 
Prerequisite: NURS 227 with a minimum grade of C and NURS 271 with a minimum grade of C and NURS 272 with a minimum grade of C and NURS 274 with a minimum grade of C and NURS 285 with a minimum grade of C and NURS 295 with a minimum grade of C.

NURS 294  Clinical IV (3)
This course continues learning opportunities for students to apply concepts and skills in caring for patients/clients with medical-surgical needs in the acute care or specialty care setting across the lifespan. Principles of communication, safety, and application of the nursing process, including accurate calculation, measurement, and administration of medications, will be included. 
Prerequisite: NURS 124 with a minimum grade of C and NURS 155 with a minimum grade of C; NURS 175 with a minimum grade of C; NURS 176 with a minimum grade of C; NURS 183 with a minimum grade of C; NURS 193 with a minimum grade of C.

NURS 295  Clinical V (3)
This course advances learning opportunities for students to apply concepts and skills in caring for patients/clients with complex medical-surgical needs in the acute care or specialty care setting across the lifespan. Principles of communication, safety, and application of the nursing process, including accurate calculation, measurement, and administration of medications, will be included. 
Prerequisite: NURS 226 with a minimum grade of C; NURS 256 with a minimum grade of C; NURS 271 with a minimum grade of C; NURS 272 with a minimum grade of C; NURS 284 with a minimum grade of C; NURS 294 with a minimum grade of C; and NURS 294 with a minimum grade of C.
Nursing

NURS 296 Transition to Practice: Clinical (8)
This course is the student's culminating clinical experience and provides immersion into clinical nursing practice. All previously acquired knowledge, skills and attitudes are reinforced and applied to patient/client care under the supervision of an experienced registered nurse in community partners' health care facilities.
Prerequisite: NURS 227 with a minimum grade of C; NURS 257 with a minimum grade of C; NURS 273 with a minimum grade of C; NURS 274 with a minimum grade of C; NURS 285 with a minimum grade of C; NURS 295 with a minimum grade of C. Co-Requisite: NURS 234.

NURS 299 Individualized Studies in Nursing (1)
Independent learning activity designed jointly by student and instructor to improve and/or increase the knowledge and skill of the learner.
Prerequisite: Instructor permission.

Nutrition

NUTR& 101 Human Nutrition (5)
A scientific study of human nutrition, with an emphasis on a chemical understanding of the major nutrients, a biologic understanding of the gastrointestinal tract and a practical understanding of dietary needs throughout life. This is not a lab course. Students may not receive credit for both NUTR 101 and NUTR&101.
Prerequisite: ENGL 095 with a minimum grade of C or equivalent; and MATH 090 with a minimum grade of C or equivalent Recommended Preparation: CHEM& 110 with a minimum grade of C or BIOL& 100 with a minimum grade of C or BIOL& 160 with a minimum grade of C.

Oceanography

Students seeking courses for general interest or degree distribution requirements may consider OCEA& 101 and OCEA 179 for the Associate in Arts and Sciences, General Studies and Applied Sciences degrees. Students intending to major in Oceanography at a baccalaureate institution should consult with the Earth Sciences advisor.

OCEA& 101 Introduction to Oceanography (5)
(Formerly OCEAN-101) Focuses on topics such as the origin of ocean basins, seawater chemistry, atmospheric and oceanic circulation, waves, and marine ecosystems. The laboratory includes investigations of oceanographic phenomena and local field trips.
Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL/ 095 with a minimum grade of C or MATH 090 with a minimum grade of C or equivalent assessment in these areas.

OCEA 179 Special Topics in Oceanography (2)
These are seminars designed to provide Oceanography students with the opportunity to study selected oceanography topics and techniques. Topics and/or techniques covered will generally be determined by the instructor but may also reflect the expressed need or interest of students in the earth science program.

OCEA 299 Independent Study in Oceanography (1)
Independent study of oceanographic topics.
Prerequisite: Instructor permission.
Paralegal

PLST 106  Legal Document Production  (3)
A basic course teaching technical skills in Microsoft Office computer applications with an emphasis on Microsoft Word and Microsoft Outlook as applied in a law office setting. Students will work through a series of hands-on assignments specifically tailored to legal documents, calendaring and general case management.
Prerequisite: CU 102 with a minimum grade of C or equivalent; or CU 105 with a minimum grade of C or equivalent. Recommended preparation: CU 091 with a minimum grade of C or recommended ability to type 35 wpm.

PLST 149  Writing Basics for Paralegals  (3)
(This formerly ADLJ 149) This introductory paralegal course is designed to improve the students' writing through emphasis on word usage, grammar and punctuation in typical legal contexts. Students will improve their proofreading and editing skills as they review and draft legal documents with a focus on accuracy and attention to detail.
Prerequisite: Assessment at college-level English and reading.

PLST 150  Paralegal Fundamentals & Ethics  (5)
(This formerly ADLJ 150) Students will be introduced to the varied and rewarding responsibilities of a paralegal. Topics will cover careers, paralegal organizations, ethics and professional responsibility, paralegal skills and attributes, sources of American law, the court system, specific areas of law, and preparation for the internship.
Prerequisite: Assessment at college-level English and reading.

PLST 151  Legal Research and Writing I  (5)
(This formerly ADLJ 151) An introduction to developing effective methods of legal research and writing: Students will participate in a series of exercises that include finding statutes and case decisions in books and through computer-assisted legal research. Students will focus on identifying legal issues and validating cases and statutes while drafting letters, case briefs, and an objective memorandum. This is the first of two required legal research and writing courses.
Prerequisite: Assessment at college-level English and reading.

PLST 152  Introduction to Civil Law  (5)
(This formerly ADLJ 152) This course is designed to introduce the student to the foundations of civil law, including substantive issues; contracts; domestic relationships; wills, estates, and probate; torts and personal injury; and the legal profession. Classroom activities will include: case analysis; the drafting, examination and assessment of legal documents; application of general principles related to torts, contracts, family law, and wills; and relevant class projects pertaining to these areas. Activities outside the classroom will include online research and discussion board assignments.
Prerequisite: Assessment at college-level English and reading.

PLST 153  Civil Procedure I  (5)
(This formerly ADLJ 153) Students will be introduced to the procedural requirements in the civil litigation process with an emphasis on the requisite skills and knowledge essential to practicing paralegals. Statutes, case law and court rules (state and federal) will be examined, and the drafting of legal pleadings and other civil case documents will be assigned. Using simulated fact and legal scenarios, students will track and analyze the procedural aspects of a civil lawsuit from inception to verdict covering the stages of pleadings, discovery, motions practice, negotiations and pretrial settlement.
Prerequisite: Recommended: PLST 149 with a minimum grade of C.

PLST 154  Computer Applications in the Law  (3)
(This formerly ADLJ 154) This course is an introduction to computer technology and its applications within a law firm. Students will have the opportunity to apply hands-on training with Microsoft Office Suite (Word, Excel, Access and Outlook); timekeeping software; docket control/case management software; litigation support software; and evidence display software. Resources and techniques for the efficient application of software typically found in the law office are provided in addition to hands-on work with industry-specific software applications.
Prerequisite: ENGL/095 with a minimum grade of C or equivalent; and CU 105 or equivalent; and PLST 106 or equivalent.

PLST 155  Health/Dealing With Stress  (1)
(This formerly ADLJ 155) The paralegal field can challenge a professional's health and well-being. This online course helps the student recognize cues that may be barriers to optimal health and well-being, and offers tools and practicum for dealing with stress and achieving a healthy balance in various areas of life, including school, work, and family.
Prerequisite: Assessment of college-level English and reading.

PLST 156  Criminal Procedure for Paralegals  (5)
(This formerly ADLJ 156) This course is designed to teach students the basic concepts of substantive criminal law emphasizing Washington statutes and criminal procedure with a focus on individual rights under the United States Constitution. Students will prepare documents typically drafted by paralegals in a law office or agency in the field of criminal law defense or prosecution.
Prerequisite: Assessment at college-level English and reading or completion of ENGL 085 and READ 096 or ENGL 096.

PLST 221  Family Law  (3)
(This formerly ADLJ 221) This course will introduce students to the legal authorities and procedures involved in family law cases. Topics covered will include marriage, divorce, adoption, legal separation, paternity and child support, parenting plans, and other topics. Students will learn to identify and resolve various family law issues, as well as to draft common family law documents such as child support worksheets.
Prerequisite: Assessment at college-level English and reading.

PLST 222  Probate/Estate Planning  (3)
(This formerly ADLJ 222) Estate planning involves the financial and healthcare arrangements that are made during a person's lifetime as well as the preparation for transfer of that person's assets at death. Probate is the process of proving the validity of a will and ensuring that the instructions in a valid will are carried out. Students will develop knowledge and skills for the drafting of wills and trusts and for the procedural requirements of the probate process.
Prerequisite: Assessment at college-level English and reading.
PLST 223  Alternative Dispute Resolution (ADR)  (3)  
(Formerly ADLJ 223) Alternative Dispute Resolution is a method of resolving disputes before they go to trial. Negotiation, mediation and arbitration are forms of ADR. Paralegals may qualify as mediators and directly assist parties in reaching an agreement. Other paralegals will assist attorneys in this fast growing method of settling disputes. Students will become familiar with the ADR laws in Washington State.  
Prerequisite: ENGL 095 with a minimum grade of C or equivalent.  

PLST 224  Real Estate Law  (3)  
(Formerly ADLJ 224) An introduction to law and legal systems as related to real estate transactions. Major topics include forms of ownership; title, transfers and insurance; fraud, deceit and misrepresentation; contract law and documents; real estate security documents; and duties and liabilities of licensees.  
Prerequisite: Assessment at college-level English and reading or ENGL 095 and READ 095.  

PLST 225  Bankruptcy Law  (3)  
(Formerly ADLJ 225) Bankruptcy law is federal law with the proceedings taking place in the federal court system. Students will learn about the various types of relief for both individuals and businesses. They will gain knowledge and skills necessary for interviewing the debtor, reviewing creditors’ claims, and preparing the documents for submission to the bankruptcy court.  
Prerequisite: Assessment at college-level English and reading or ENGL 095 and READ 095 or ENGL/095.  

PLST 226  Administrative Law  (3)  
(Formerly ADLJ 226) This course will introduce students to the legal authorities and procedures involved in administrative law cases. Students will learn the state and federal legal authority that creates and empowers administrative agencies and the different areas in which administrative agencies are legally authorized to act. Students will also become familiar with the legal procedures used in administrative law cases, as well as the legal tribunals created to hear and decide administrative law cases.  
Prerequisite: Assessment at college-level English and reading.  

PLST 228  Employment and Labor Law  (3)  
(Formerly ADLJ 228) Employment and labor law includes laws governing health and safety in the workplace, labor unions and union-management relations, employment discrimination, wrongful employment termination, pension plans, retirement and disability income (Social Security), employee privacy rights, the minimum wage, and overtime wages. Students will research Washington State workers’ compensation statutes and learn about agencies where paralegals may represent clients during agency hearings.  
Prerequisite: Assessment at college-level English and reading.  

PLST 230  Business Organization/Corporations  (3)  
(Formerly ADLJ 230) Today’s business owners may choose among a variety of business entities for business formation. Besides the traditional sole proprietorship, partnership, and corporation, owners may form limited liability companies and limited liability partnerships. Students will learn about the different relationships, rights, obligations, and regulatory schemes of the various entities. In corporate law, students will develop knowledge and skill in preparing articles of incorporation, drafting corporate bylaws, preparing minutes of corporate meetings, drafting shareholder proposals, reviewing documents relating to the sale of corporate securities, assisting with corporate mergers and acquisitions, and filing papers necessary to terminate a corporation.  
Prerequisite: ENGL/095 with a minimum grade of C or equivalent.  

PLST 231  Contracts/Commercial Transactions  (3)  
(Formerly ADLJ 231) This course provides students with a working overview of the applied contract process. Following traditional instruction methodology as supplemented with practical law office skill development, the course outlines prerequisites of contracting parties and applicable laws(s), contract formation, contract performance, breach of contract and available remedies. The course introduces the students to commercial transactions including application and analysis under Article 2 of the Uniform Commercial Code (Washington State adopted version under Revised Code of Washington, Chapter 62A). Contracts and Commercial Law also includes a practicum element in basic contract drafting utilizing both goods and services components with attendant sources of law reflective of primary and secondary legal sources.  
Prerequisite: Assessment at college-level English and reading.  

PLST 232  Interviewing and Investigations  (5)  
(Formerly ADLJ 232) Students are introduced to the legal contexts in which interviewing and investigating skills are utilized. Great emphasis is placed on the development of communication skills for interviewing and the use of resources available for investigating, particularly Internet resources. Students will walk step by step through an investigation by learning how to plan an investigation; handle evidence; identify and locate witnesses; conduct interviews; and locate, evaluate and work with expert witnesses.  
Prerequisite: Completion of ENGL/095 or both ENGL 095 & READ 095 or assessment at college-level English and reading.  

PLST 233  Internship I - Paralegal  (5)  
(Formerly ADLJ 233) The Internship I course provides paralegal majors with the opportunity to apply their classroom learning to worksite responsibilities. The internship offers paralegal students practical work experience under the supervision of an attorney and often a skilled paralegal in day-to-day legal work. Weekly seminar discussions focus on professionalism. PLST 233 is a required course for all paralegal students.  
Prerequisite: MO 106 with a minimum grade of C; and PLST 232 and ENGL 095 and READ 095 or ENGL/095 and READ/095 or PLST 150, PLST 151, PLST 152, PLST 153, and PLST 154 with minimum grades of C; and PLST 156 or equivalent with a minimum grade of C; and CU 105 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or equivalent with a minimum grade of C; and PLST 156 or
Paralegal

PLST 234 Internship II - Paralegal (5)
(Formerly ADLJ 234) The elective Internship II course provides paralegal majors with additional opportunities to apply their classroom learning to worksite responsibilities. Weekly seminar discussions will focus on career advancement.
Prerequisite: PLST 233 and instructor permission.

PLST 235 Evidence and e-Discovery (3)
This course is a survey in evidence and e-Discovery. Following the groundwork and review of evidence law and discovery rules, the course will shift focus to the concepts, issues, and solutions presented by ESI (electronically stored information) and e-Discovery. Students will examine “white papers” written by both legal commentators and technical experts. Students should have an interest in current civil litigation procedures.
Prerequisite: PLST 153 with a minimum grade of C.

PLST 239 Transition Planning (1)
(Formerly ADLJ 239) Students take this course shortly before they complete the Paralegal program. Students will build paralegal skills, critique and hone their understanding of professionalism and ethics, research the current job market and networking opportunities, learn to manage work/family balance, update their portfolios, and evaluate the program.
Prerequisite: PLST 150, PLST 152, PLST 153, MO 106 and instructor permission.

PLST 251 Legal Research And Writing II (3)
(Formerly ADLJ 251) Building on the research and writing skills acquired in ADLJ 151, students prepare a variety of documents including a motion with persuasive brief. Emphasis is placed on in-depth research of primary and secondary authorities, validation of research, appropriate formatting, citation of legal sources, and strategies for effective writing.
Prerequisite: PLST 151 with a minimum grade of C.

PLST 253 Civil Procedure II (3)
(Formerly ADLJ 253) This course is a continuation of the concepts and legal applications learned in Civil Procedure I, to include further analysis of the various issues confronted in civil litigation. Students will learn to interpret and apply state and federal statutes and court rules to solve real legal problems. Students will draft various types of legal documents intended to be presented in court and will be able to formulate arguments for and against various legal positions that arise during a civil lawsuit.
Prerequisite: PLST 153.

Philosophy

PHIL& 101 Introduction to Philosophy (5)
(Formerly PHIL-100) This course will provide a survey of the human quest for greater understanding; connections among efforts to understand the universe; the nature of knowledge; reflections on language and other perennial questions concerning human nature and values. This course will provide an introduction to philosophical thought and issues, the intellectual systems and non-systems and writings of the great philosophers of the Western tradition. (writing intensive)
Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL/ 095 with a minimum grade of C or assessment at college-level reading and writing.

PHIL 105 Introduction to Critical Thinking (5)
Through directed practice in reading, writing, listening, and speaking, students learn to recognize the structure of arguments, to interpret texts and improve their critical thinking skills. They will analyze, write about and discuss carefully chosen classical and contemporary texts.
Prerequisite: Assessment at or above ENGL 095 and READ 095 or above ENGL/ 095.

PHIL& 106 Introduction to Logic (5)
(Formerly PHIL-120) This course will focus on deductive symbolic forms of argumentation, including propositional and predicate logic. It will prove an examination of the principles of Aristotelian and formal symbolic logic, the dynamics of deductive arguments and proofs, as well as the meaning of language. It will emphasize natural deduction and translation into propositional and predicate symbolism.
Prerequisite: Assessment at college-level English, reading, and math or ENGL 095 and READ 095 with a minimum grade of C or ENGL/ 095 with a minimum grade of C and MATH 095 or higher with a minimum grade of C-.
PHIL 190 World Philosophy (5)
This course will provide the student with an introductory survey of the world's major religious traditions from a philosophical perspective. Emphasis will be placed upon the development of critical, historical, and philosophical skills in the disciplines of history and sociology of religion and comparative studies. Comparative themes will be treated, as well as an exploration of the distinctive ways in which various traditions have understood issues and questions related to human selfhood. (multicultural content)
Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL 095 with a minimum grade of C or assessment at college-level reading and writing.

PHIL 200 Asian Philosophy (5)
This course will examine the major philosophies and philosophers that have been influential in shaping the minds of Asia. Special attention will be given to Confucianism, Legalism, Taoism, and Buddhism. (multicultural content)
Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL 095 with a minimum grade of C or assessment at college-level reading and writing.

PHIL 215 Introduction to Ethics (5)
This course will provide an introductory survey to the critical analysis of various philosophical approaches to the study of the process of moral inquiry. Materials will be drawn from different philosophers and others, using standards such as philosophical objectivism, subjectivism, relativism, and pluralism. Topics will include business and corporate ethics, medical ethics, capital punishment, human sexuality, abortion, euthanasia, social and individual, feminist and environmental perspectives, usses related to discrimination and animal rights.
Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL 095 with a minimum grade of C or assessment at college-level reading and writing.

PHIL 230 Contemporary Philosophy (5)
This course will focus on Western Philosophy in the late 19th and 20th centuries, exploring the dominant schools and anti-schools of philosophy. The course will cover the intellectual and social forces affecting and being effected by philosophy. Representative figures covered will include Kant, and Hegel as well as the existentialists, Kierengaard, Neitzsche, Heidegger, Sartre and the development of American Pragmatism, including the work of Pierce, James, Dewey, and the philosophies of Process, Bergson, Whitehead, and Dewey as well as the Analytical tradition.
Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL 095 with a minimum grade of C or assessment at college-level reading and writing.

PHIL 260 Philosophy of Science (5)
This course offers a conceptual and historical introduction to the nature of scientific progress and other issues current in the philosophy of science, including the validation and falsification of hypotheses, the debate over realism and anti-realism, the theoretic reduction of scientific theories, the status of laws of nature, and the role of rationality, objectivity and values of science.
Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL 095 with a minimum grade of C or assessment at college-level reading and writing.

PHIL 267 Problems in Philosophy of Religion (5)
This course offers an analysis of major issues in religious thought, including the existence of god, good and evil, immortality, religious experience, and the effect of religion on morality.
Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL 095 with a minimum grade of C or assessment at college-level reading and writing.

PHIL 270 Great Thinkers of the Western World (5)
This is a survey course of Western philosophy from Pre-Socratic Greek philosophy to the 21st Century. It will examine not only the ideas related to philosophy, but more particularly, the people who had them. It will further explore the impact and context of historical, psychological, economic, social, and religious forces upon these individuals.
Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL 095 with a minimum grade of C or assessment at college-level reading and writing.

PHIL 290 Political Philosophy and Ideology (5)
This course will cover the major political philosophers and their theories from ancient Greece to the present, including Plato and Aristotle, Machiavelli, Locke, Rousseau, Kant, Mill, Whitehead and others. Topics such as the individual, democracy, right, private property, liberty, coercion, equality, and peace, as well as others will be examined.
Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL 095 with a minimum grade of C or assessment at college-level reading and writing.

PHIL 299 Independent Study in Philosophy (5)
Independent Study is available for students who have had a previous course in Philosophy with a grade of a "C" or better and a demonstrated need for an area of study which is not available through an existing course.
Prerequisite: Previous course in Philosophy with a minimum grade of C and instructor permission.
Physical Education

In order to receive the Associate in Arts and Sciences or Associate in General Studies degrees, it is necessary to obtain three physical education activity credits. These credits can be included in the 90 credits needed for the degrees. (Students planning to transfer to other institutions should check their requirements.)

Beginning courses are prerequisites to intermediate courses, and intermediate courses are prerequisites to advanced courses. Advanced placement may be made by the instructor. An activity at the same level may not be repeated for credit. Most activities require extra fees.

The physical education requirements may be waived only with approval of the physical education department chairman. Students may request waivers only if there is a medical problem or a student has previous military service.

PE 100  Total Fitness  (2)
An up-to-date approach to physical fitness for better living. Combination lecture and lab, stressing the importance of life-long fitness. Increasing the awareness and establishing the values, benefits and necessity of regular physical activity related to health. Will include individual evaluation, prescription and program implementation.

PE 106  Tai Chi  (1)
Tai Chi is an ancient Chinese system of health giving exercise. Students will build concentration, increase flexibility, and improve physical fitness by learning and practicing basic Tai Chi forms and movements.

PE 108  Beginning Weight Training  (1)
A course designed to introduce the student to the benefits of a regular weight training routine. The student will be taught various exercises in isometric, isometric and isokinetic lifting. Safety precautions and guidelines will be stressed.

PE 109  Toning  (1)
An upbeat, high energy course that combines aerobic movements with muscle toning strength movements. Emphasis on total body conditioning. Instruction will include the safe and effective use of fitness apparatus including physio balls and hand weights.

PE 111  Walking for Wellness  (1)
This course is designed to introduce the student to walking and its contributions to wellness. Content includes benefits of walking, development of safe and effective walking skills, nutrition and equipment to enhance walking, and essential components of a walking program.

PE 118  Modern Dance  (1)
A course designed to get the student to appreciate modern dance as an art form as well as a physical fitness activity. Emphasis will be placed on developing cardio-respiratory fitness and flexibility through participating in dance routines.

PE 122  Beginning Bowling  (1)
A course designed to acquaint the student with the game of Bowling. Emphasis is placed on basic fundamentals, mechanics, faults and rules of bowling.

PE 126  Beginning Badminton & Pickleball  (1)
A course designed to allow the student to develop the necessary skills, fundamentals, strategies and knowledge of rules to participate in recreational badminton and pickleball.

PE 134  Softball  (1)
A course designed to introduce the student to the game of softball as a recreational and physical fitness activity. Emphasis is placed on basic individual and team fundamentals.

PE 135  Beginning Soccer  (1)
A course designed to introduce the student to soccer. Emphasis will be placed on basic fundamentals, strategies, and rules of the game.

PE 136  Volleyball  (1)
A course designed to introduce the student to the game of volleyball. Emphasis will be placed on basic skills, i.e., serve, set, pass, block, spike, team strategy and rules of play.

PE 140  Cardio Fitness  (1)
This course is designed to give student information and practical experience on how to maintain a healthy cardiovascular system. Physical activities, nutritional guidelines, and unhealthy behaviors pertaining to cardiovascular health will be covered.

PE 142  Introduction to Yoga  (1)
This course is designed to introduce students to the benefits of yoga as a way to understand the mind/body relationship in exercise and fitness. Basic yoga techniques will be taught as a way to develop balance, core strength, flexibility, and joint stability.

PE 155  Fast Fitness  (1)
Comprehensive physical education course designed to develop strength, flexibility, muscular endurance and cardiovascular efficiency in an effective and timely manner through the use of circuit training.

PE 170  Independent Fitness Lab I  (1)
Self-paced conditioning for the motivated student. This course is designed to give students the opportunity to assess current physical fitness level, establish personal fitness goals, develop and follow an individualized self-paced fitness program. Prerequisite: PE 100 with a minimum grade of C or PE 108 with a minimum grade of C or PE 140 with a minimum grade of C.

PE 171  Independent Fitness Lab II  (1)
Self-paced conditioning for the motivated student. This course is designed to give students the opportunity to assess current fitness goals, as well as develop and follow an individualized self-paced fitness plan. Prerequisite: PE-170.

PE 175  Hiking  (1)
This course is designed to introduce the student to basic techniques and skills necessary to enjoy minimum-impact hiking. Includes information on hiking essentials, trip planning, route finding, equipment, basic wilderness survival, and wilderness first aid. This course also includes several hiking trips throughout the quarter.
Physical Education

**PE 190 Health and Wellness (3)**
A course for students to learn how to take control of their personal health and lifestyle habits so they can make a constant and deliberate effort to stay healthy and achieve the highest potential for well-being. Encompasses a total wellness concept of one's physical, mental, emotional and social well being. Students will examine major health issues of contemporary society, with emphasis on identifying risk factors. (This course is a NOT a PE activity course.)

**PE 191 Contemporary Health and Wellness (5)**
Emphasis is placed on the relationship between course content and lifestyle choices to foster a better understanding of health issues today. Current issues include, but are not limited to, physical fitness and nutrition; weight management; stress and emotional health; chemical use and abuse; issues in contemporary human sexuality; communicable and noncommunicable disease; health-smart consumerism; the contemporary healthcare system; aging and dying; and environmental health issues. (This course is a NOT a PE activity course.)

**PE 200 Advanced Total Fitness (2)**
An advanced approach to physical fitness for more effective living. Combination of lecture and lab stressing the importance of developing positive life-long fitness activities. Course will include evaluation, prescription, program implementation, and goal setting. **Prerequisite:** PE-100 or instructor permission.

**PE 201 Sport Specific Conditioning (2)**
This course is designed to give advanced instruction for the physically active student. Consideration of sport specific and individual fitness goals will be given. Cardio conditioning; strength training; flexibility training, as well as the nutritional aspects of physical performance will be taught.

**PE 208 Intermediate Weight Training (1)**
This course is designed to develop cognitive knowledge pertaining to a higher level of strength training and applying this knowledge in a daily weight lifting program. Students will experience the benefits of weight lifting and will learn how to develop a weight training program designed to meet their personal weight training goals. **Prerequisite:** PE-108 or instructor permission.

**PE 222 Intermediate Bowling (1)**
A course designed to allow the student to improve his/her bowling skills. Emphasis on spot, pin, and line bowling. Delivery and form and playing a hookball will be emphasized. **Prerequisite:** PE 122 or instructor permission.

**PE 226 Intermediate Badminton/Pickleball (1)**
Instruction dealing with the techniques of Badminton/Pickleball. This is an intermediate level class dealing with playing strategies, tournaments, and individual playing styles. **Prerequisite:** PE 126.

**PE 233 Advanced Basketball (1)**
A course designed for the advanced basketball player who has competed at a high skill level. Special emphasis will be placed on advanced individual and team concepts.

**PE 235 Advanced Soccer Techniques (1)**
An advanced course in the fundamentals of soccer. Subjects covered will include physical fitness, basic skills, team play, laws of the game, and strategy.

**PE 236 Intermediate Volleyball (2)**
This course is designed to allow the student to improve upon his/her basic skills of playing volleyball. To be able to compete and enjoy the sport on a recreational level. **Prerequisite:** PE 136 or instructor permission.

**PE 237 Advanced Volleyball (1)**
This course is designed to give students the opportunity to improve their volleyball skills to an advanced level of play. Emphasis will be placed on skills and techniques used as a competitive as well as recreational level. **Prerequisite:** PE 136.

**PE 241 Baseball Techniques (1)**
A course in the fundamentals of baseball. Course content includes conditioning, basic skills, strategies, team-play concepts and rules of the game. **Prerequisite:** Experience in organized baseball- either high school or college.

**PE 285 Coaching Theory (2)**
Provides the novice and experienced coach with the basic teaching and coaching skills, techniques and strategies for coaching all sports and all ages. Includes lectures, group discussions, guest speakers, and actual performance of skills and techniques by individual class members. (This course is NOT a PE activity course.)

**PE 292 Advanced First Aid (5)**
The student will satisfy the requirements for advanced American Red Cross first aid and cardiopulmonary resuscitation certification (CPR). (This course is a NOT a PE activity course.)

**PE 295 Teaching Elementary Physical Education and Health (3)**
This course is designed to provide prospective K-6 educators with information, methods, and activities for teaching elementary physical education and health. Developmentally appropriate and quality physical education and health methods will be emphasized.

**PE 299 Individual Study in Physical Education (1)**
An independent learning activity, designed jointly by the student and the instructor to improve and/or increase the knowledge and skill of the learner. **Prerequisite:** Instructor permission.
## Physics

An advisor should be consulted to determine the appropriate level of physics course for your degree goal. Students intending to major in Physics at a baccalaureate institution should work toward an Associate of Science degree with a Physics Specialization.

**PHYS 114  General Physics I (6)**
Algebra-based physics for liberal arts students and certain professions. Study of basic mechanics including position, velocity, acceleration, forces, momentum, and energy. Laboratory included.
Prerequisite: TMATH 100 with a minimum grade of C or MATH 095 with a minimum grade of C and TMATH 100 with a minimum grade of C.

**PHYS 115  General Physics II (6)**
Algebra-based physics for liberal arts students and certain professions. Study of thermodynamics, oscillations, waves, capacitance, and electric forces/fields/potential energy. Laboratory included.
Prerequisite: PHYS 114 with a minimum grade of C and TMATH 100 with a minimum grade of C or MATH 095 with a minimum grade of C.

**PHYS 116  General Physics III (6)**
Algebra-based physics for liberal arts students and certain professions. Study of thermodynamics, oscillations, waves, capacitance, and electric forces/fields/potential energy. Laboratory included.
Prerequisite: PHYS 114 with a minimum grade of C and TMATH 100 with a minimum grade of C or MATH 095 with a minimum grade of C.

**PHYS 221  Engineering Physics - Mechanics (6)**
Mechanics. (Formerly Physics 121) Calculus based physics for engineering or those majoring in certain sciences. Introduces problem solving techniques and applications to real world situations. Topics include motions and causes of motion; conservation of energy, momentum and angular momentum; gravitation, center of mass, and torque. Laboratory included.
Prerequisite: MATH 151 with a minimum grade of C or equivalent.

**PHYS 222  Engineering Physics - Electricity and Magnetism (6)**
Electricity and Magnetism. (Formerly Physics 122) Calculus based physics for engineering or those majoring in certain sciences. Introduces problem solving techniques and applications to real world situations. Topics include Coulomb's Law, Gauss' Laws, circuits and circuit theory, electrical devices, Ampere's Law, electric and magnetic flux, and induction. Laboratory included.
Prerequisite: PHYS 221 with a minimum grade of C and MATH 152 with a minimum grade of C.

**PHYS 223  Engineering Physics - Waves, Optics, and Thermodynamics (6)**
Waves, Sound, Light and Thermodynamics. (Formerly Physics 123) Calculus based physics for engineering or those majoring in certain sciences. Introduces problem solving techniques and applications to real world situations. Topics include oscillations, damping, waves, interference, refraction, reflection, optical systems, fluids, specific heat, temperature, ideal gasses, and states of matter. Laboratory included.
Prerequisite: PHYS 221 (formerly PHYS 121).

**PHYS 299  Independent Study (1)**
Independent observation, analysis, and reporting of a physics-related topic.
Prerequisite: Instructor permission.

## Political Science

**POLS 101  Introduction to Political Science (5)**
(Formerly POLSC-101) This course is intended to serve as a comparative introduction to the concepts, methods, and subject areas of the discipline of political science. Students will explore various forms of political beliefs, behaviors, institutions, and processes at the individual, group, national, and international levels. Strongly recommended for those students with no prior coursework in political science.
Prerequisite: ENGL 095 with a minimum grade of C or equivalent.

**POLS 202  American Government (5)**
(Formerly POLSC-202) This course is intended to provide a basic understanding of the American political system. We will examine the structural foundations of American politics, including our constitutional framework, political culture, and political economy. We will then explore the various political institutions which serve as a link between citizens and government, including public opinion, the mass media, interest groups, social movements, political parties, and elections. Following this, we will turn our attention to the branches of the federal government, including Congress, the Presidency, the federal bureaucracy, and the Supreme Court.
Prerequisite: ENGL 095 with a minimum grade of C or equivalent.

**POLS 203  International Relations (5)**
(Formerly POLSC-203) This course is intended to serve as an introduction to the concepts, methods, and subject areas of the field of international relations within the discipline of political science. Students will explore various forms of political beliefs, behaviors, institutions, and processes shaping the relationships between states and other non-governmental actors in the international system.
Prerequisite: ENGL 095 with a minimum grade of C or equivalent.
Political Science

POLS 231 Politics and Film (5)
(Formerly POLSC-231) This course will examine a variety of political and legal issues through their portrayal in contemporary cinema. Students will read relevant Political Science literature as a background for an analysis of the films viewed in the course. Rotating themes include: elections and the presidency, law and justice, science fiction, organized labor, and American foreign policy. Prerequisite: ENGL& 101 with a minimum grade of C or concurrent enrollment.

POLS 298 Political Internship (1)
Variable credit (1-5). Students will participate in internships with either a political party, interest group, or an elected official and will meet periodically with the instructor to discuss assigned readings and a research paper based on the internship experience. Prerequisite: Instructor permission.

Psychology

PSYC 100 General Psychology (5)
(Formerly PSYCH-100) Introduction to psychology as an academic discipline, including research methods, the nervous system, heredity and development, social behavior, motivation, emotion, learning and memory, cognition, personality, and psychological disorders. Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL/ 095 with a minimum grade of C or assessment at college-level reading and writing.

PSYC 180 Human Sexuality (5)
(Formerly PSYCH-165) A scientific approach to the study of human sexuality and sexual behavior, including physiological and psychological components. Considers sexuality across the lifespan, sexual dysfunction, STDs and safer sex, sexual orientation, sexual response patterns, and the development of relationships. Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL/ 095 with a minimum grade of C or assessment at college-level reading and writing.

PSYC 200 Lifespan Psychology (5)
(Formerly PSYCH-206) An examination of the physical, social, emotional, and intellectual development of the human from conception to death. (Multicultural course) Prerequisite: PSYC& 100 with a minimum grade of C and ENGL& 101 with a minimum grade of C or concurrent enrollment.

PSYC 202 Biopsychology (5)
Biopsychology examines the biological basis of behavior, the nervous system, how it works to control behavior and sense the world, and what happens when it malfunctions. Topics include learning and memory, development, sex, drugs, sleep, the sense, emotions, and mental disorders. Course is intended for Psychology majors intending to transfer. Prerequisite: PSYC& 100 with a minimum grade of C and ENGL& 101 with a minimum grade of C or concurrent enrollment.

PSYC 205 Introduction to Personality (5)
(Formerly PSYCH-206) Introduction to development and dynamics of personality, the causes of individual differences, personality change and techniques of measuring aspects of personality will be studied. Prerequisite: PSYC& 100 with a minimum grade of C.

PSYC 209 Fundamentals of Psychological Research (5)
This course covers the key themes and concepts of psychological research and is a foundation course for students planning to take additional courses in psychology. Topics include hypothesis testing, experimental design, research strategies and techniques, fundamentals of scientific writing, search and evaluation of research literature in psychology, and ethical issues in psychological research. (Writing intensive) Prerequisite: PSYC& 100 with a minimum grade of C and ENGL& 101 with a minimum grade of C; and either MATH 136 with a minimum grade of C or MATH& 146 with a minimum grade of C.

PSYC 210 Abnormal Psychology (5)
(Formerly PSYCH-204) A study of the development and symptoms of mental health disorders. Topics covered include schizophrenia, mood disorders, anxiety disorders, personality disorders, psychosomatic disorders, sexual deviation, organic disorders, and the process of adjustment to stress. Attention is given to biosocial, cognitive, and cultural factors and their role in mental health. Prerequisite: PSYC& 100 with a minimum grade of C and ENGL& 101 with a minimum grade of C or concurrent enrollment.

PSYC 240 Social Psychology (5)
(Formerly SOC 240) An introduction to the study of the basic principles underlying the field of social psychology. Topics covered will include social beliefs and attitudes, prejudice, aggression, attraction and intimacy, conformity and persuasion. Prerequisite: PSYC& 100 with a minimum grade of C and ENGL& 101 with a minimum grade of C or concurrent enrollment.
Psychology

PSYC 299 Individual Study in Psychology (1)
(Formerly PSYCH-299) A variable credit (1-3) course based on independent study contracted between an instructor and a student. The emphasis will be a research related project which will provide an opportunity for students to pursue in-depth in an area previously or concurrently covered in a college-level course.
Prerequisite: PSYC& 100 with a minimum grade of B+ and instructor permission.

Radiologic Science

RS 100 Radiologic Science Orientation (3)
This course introduces students to the Radiologic Science program. Students learn of the program’s mission and goals, professional requirements, and commitment necessary for success, as well as learning of the on-campus student support services available to them. Additionally, students will become CPR certified and initiate the process of the Washington State requirement/s for X-ray licensing.
Prerequisite: Acceptance into the Radiologic Science program.

RS 101 Fundamentals of Radiologic Science and Health Care (4)
Content is designed to provide a foundation of the principles, practices and policies in healthcare and particularly radiology. The student will be introduced to the history of radiology, medicolegal ethics and professional associations. Radiation protection and safety, basic equipment operation, and principles of radiographic exposure will also be covered.
Prerequisite: Acceptance into the Radiologic Science program, or instructor permission.

RS 108 Radiation Physics I (4)
This course introduces the concepts of electromagnetic radiation, its production, control and interactions. The concepts of electricity, electromagnetism, and electrical circuits relating to imaging equipment operation are presented.
Prerequisite: RS 101 with a minimum grade of C or instructor permission.

RS 109 Radiation Physics II (5)
A continuation of Radiation Physics I. The correct and safe operation of various types of imaging equipment will be discussed. Information on radiation biology will be presented to correlate the hazards of ionizing radiation production and its interaction on human tissue.
Prerequisite: RS 108 or instructor permission.

RS 120 Clinical Education I (5)
Initial course in competency based radiography clinical education. Students orient to an assigned clinical education center and by instruction, observation, and experience, acquire the necessary basic skills to successfully image patients utilizing ionizing radiation.
Prerequisite: RS 101 and RS 140 and required immunizations, drug screening as required, background check, proof of medical insurance, proof of automobile insurance and current CPR card, and instructor permission.

RS 121 Clinical Education II (5)
This is a continuation of a series of competency based clinical education classes. Students attend an assigned clinical education center and by instruction, observation, and experience, acquire the necessary skills to successfully image patients utilizing ionizing radiation.
Prerequisite: RS 120 with a minimum grade of C and required immunizations, drug screening as required, background check, proof of medical insurance, proof of automobile insurance, current CPR card, and instructor permission.

RS 122 Clinical Education III (10)
This is a continuation of a series of competency based clinical education classes. Students attend an assigned clinical education center and by instruction, observation, and experience, acquire the necessary skills to successfully image patients utilizing X-ray ionizing radiation.
Prerequisite: RS 121 with a minimum grade of C and required immunizations, drug screening as required, background check, proof of medical insurance, proof of automobile insurance, current CPR card and instructor permission.

RS 140 Radiographic Positioning I (5)
This class studies basic positioning principles and terminology. It includes demonstration and lab experience in positioning and identifying related anatomy of the chest, abdomen, upper and lower extremities.
Prerequisite: Acceptance into Radiologic Science Program.
Radiologic Science

RS 141 Radiographic Positioning II (5)
This class studies basic positioning principles and terminology. It includes demonstration and lab experience in positioning and identifying related anatomy of the spine, hip and pelvis, and bony thorax. Common contrast media exams will also be covered.
Prerequisite: RS 140 or instructor permission.

RS 142 Radiographic Positioning III (5)
This class emphasizes basic positioning principles and terminology regarding the skull and facial structures. General principles of mammography, bone densitometry, geriatric imaging, & contrast media exams of the biliary, central nervous, and reproductive systems are also covered.
Prerequisite: RS 141 or instructor permission.

RS 150 Principles of Image Formation (1)
This class discusses the factors that are involved in radiographic image formation. Exposure factors and geometric factors that are involved in this process are covered.
Prerequisite: Acceptance into Radiologic Science Program or instructor permission.

RS 153 Principles of Digital Radiography (1)
This class introduces principles of digital radiography. Basic principles of computer operation as well as its relevancy to image formation with computed radiography (CR) and digital radiography (DR) will be presented.
Prerequisite: RS 150 or instructor permission.

RS 170 Introduction to Fundamentals of Patient Care (5)
Introduces patient care techniques commonly experienced in a radiology department such as venipuncture, proper body mechanics, sterile procedures, and medication & contrast media administration. Additionally, patient communication, HIPAA requirements and emergency CODE procedures are emphasized.
Prerequisite: Acceptance into Radiologic Science program or instructor permission.

RS 200 Cross Sectional Anatomy (3)
Anatomy of the human body will be studied in cross section. Anatomy of the brain, neck, thorax and heart, abdomen/pelvis and the musculoskeletal system will be presented in the transverse, sagittal, coronal, and oblique imaging planes using multiple diagnostic imaging modalities.
Prerequisite: BIOL& 241 with a minimum grade of C and BIOL& 242 with a minimum grade of C.

RS 214 Imaging Pathology (3)
A basic review of pathology and pathologic processes as demonstrated on diagnostic images is presented. The images for review include radiographic, and cross sectional CT and MRI images.
Prerequisite: Instructor permission.
RS 122 with a minimum grade of C.

RS 216 Pharmacology and IV Therapy (3)
This class involves a study of drugs common to an imaging department. The general pharmacologic principles, drug categories, routes of administration, drug administration safety, and current practice standards will be discussed. A discussion of contrast agents and their associated reactions will also be presented.
Prerequisite: RS 170 with a minimum grade of C or instructor permission.

RS 225 Clinical Education IV (8)
Students entering their second year in clinical will continue to learn new radiographic examinations while maintaining proficiency on previous exams. The students incorporate critical thinking skills and correlate them with previous experiences to enhance their ability to function more independently.
Prerequisite: RS 122 with a minimum grade of C and required immunizations, drug screening as required, background check, proof of medical insurance, proof of automobile insurance, current CPR card and instructor permission.

RS 227 Clinical Education VI (7)
Students in the second year of competency based clinical instruction are assigned to a clinical education center and by instruction, observation, and experience, continue to acquire new skills while refining and maintaining proficiency in previously learned examinations. Students incorporate critical thinking skills and correlate it with previous experiences to enhance their ability to function more independently.
Prerequisite: RS 226 with a minimum grade of C and required immunizations, drug screening as required, background check, proof of medical insurance, proof of automobile insurance, current CPR card and instructor permission.

RS 228 Clinical Education VII (10)
This is a capstone competency based clinical class in preparation for entry level clinical practice. Students in the second year of instruction are assigned to a clinical education center and continue to acquire new skills, while refining and maintaining proficiency in previously learned examinations. Students incorporate critical thinking skills and correlate it with previous experiences to enhance their ability to function more independently.
Prerequisite: RS 227 with a minimum grade of C and required immunizations, drug screening as required, background check, proof of medical insurance, proof of automobile insurance, current CPR card and instructor permission.

RS 233 Leadership and Management (1)
Studies leadership skills associated with patient care and management. Concepts discussed will include: supervision, delegation, conflict resolution, leadership styles, the work environment, responsibility, accountability, collaboration and résumé preparation.
Prerequisite: RS 225 with a minimum grade of C.
Radiologic Science

**RS 243  Radiographic Positioning IV (3)**
Demonstration and lab experience of alternate and special positioning of the upper and lower extremities, thoracic cage, shoulder girdle, pelvis, and spinal column. This course also includes a review of basic head work and special positioning of the orbit and temporomandibular joint. Information will be included for performing pediatric and trauma projections. A review of imaging with emphasis on basic quality assurance and image evaluation.
*Prerequisite: RS 242 with a minimum grade of C or instructor permission.*

**RS 244  Radiographic Positioning V (3)**
Advanced patient care procedures involving pediatric and/or severe trauma patient. Special emphasis on child and elder abuse. Includes information for the geriatric, pediatric and patient with disabilities to meet The Joint Commission requirements.
*Prerequisite: RS 243 with a minimum grade of C or instructor permission.*

**RS 250  Advanced Healthcare Organization (3)**
A closer look at the healthcare organization with emphasis on radiology. Radiology quality control and quality assurance factors will be presented. The five major content areas of diagnostic imaging will be correlated with quality patient care.
*Prerequisite: RS 244 with a minimum grade of C and RS 101 with a minimum grade of C; or instructor permission.*

**RS 255  Advanced Imaging Modalities (2)**
An overview of CT, MRI, U/S, NM and other advanced imaging modalities. The emphasis will be on the various energies used to generate images, the equipment and other dynamics of the imaging environment.
*Prerequisite: RS 108 with a minimum grade of C and RS 109 with a minimum grade of C and must be a second year Radiography Science student. Instructor permission.*

**RS 299  Independent Study (1)**
Independent learning activity, designed jointly by the student and instructor, to improve and/or increase the knowledge and skill of the learner.
*Prerequisite: Program chair permission.*

Respiratory Therapy

**RC 150  Fundamentals of Respiratory Care I (4)**
Introduces the beginning respiratory care student to basic procedures and skills required in the field. Covers principles and practices of patient assessment, hospital safety, aerosol therapy, bronchial hygiene and hyperinflation therapies.
*Prerequisite: Accepted into the Respiratory Care Program.*

**RC 151  Fundamentals of Respiratory Care II (4)**
Course will continue to build on the clinical skills and knowledge base acquired in RC 150. The Respiratory Care student will be introduced to the critical care environment this quarter. Emphasis is placed on airway management, diagnostic testing and non-Invasive ventilation.
*Prerequisite: RC 150.*

**RC 152  Introduction into Mechanical Ventilation (4)**
Course will continue to build on the clinical skills and knowledge base acquired in RC 150 & 151. This course is to introduce the respiratory student to basic concepts in Mechanical Ventilation including initiation of mechanical ventilation, modes of ventilation, ventilator management and weaning.
*Prerequisite: RC 151.*

**RC 153  Alternative Procedures in Respiratory Care (3)**
This course will provide students with knowledge regarding special procedures they will be assisting physicians in performing as well as introducing additional skills based upon Respiratory Care Scope of Practice. Information presented will build upon previously studied pathophysiologies as well as set-up, procedural skills and processing of specimens obtained when applicable. The course will be a combination of lecture and lab skills practice.
*Prerequisite: RC 152 with a minimum grade of C.*

**RC 160  Cardiopulmonary A & P and Pathophysiology (4)**
Course is designed to provide students with information about the structure and function of the respiratory system. Knowledge of a structure is essential to the understanding of the function of the structures, therefore topics include: respiratory and cardiac anatomy and progress to major concepts and mechanisms of cardiopulmonary physiology.
*Prerequisite: Accepted into the Respiratory Care Program.*

**RC 161  Arterial Blood Gases (3)**
Course is designed to provide students with additional information about the function of the respiratory system. The student will gain knowledge and interpretation skills regarding the function of gas exchange in the lungs as well as how normal blood gas values change in different disease states. Included will be a comprehensive overview of the subject matter in an organized, interesting manner in the form of lecture, small group discussion, or student presentations.
*Prerequisite: RC 160.*

**RC 162  Advanced RC Pathophysiology (3)**
Course is designed to provide students with advanced information about disease processes. General pathophysiology provides a foundation of information for the student to apply in the specialty area of respiratory care. Included will be a comprehensive overview of the disease process in an organized, interesting manner in the form of lecture, small group discussion, or student presentations.
*Prerequisite: RC 161 with a minimum grade of C.*

**RC 165  Evolving Roles in Respiratory Therapy (2)**
This course introduces students to current and future trends in health care. Specifically, this course will cover traditional and new roles for respiratory therapists and will present possibilities and tactics for respiratory therapists to work across the range of patient care.
*Prerequisite: Enrolled in the RC program.*
Respiratory Therapy

**RC 170  Respiratory Therapy Equipment I  (3)**
Course will provide students with a historical background on discovery and development of basic RC principles and technologies. Included is hands-on usage of equipment: pressure gauges, flow meters, regulators, oxygen delivery devices, compressed gas and liquid oxygen systems, humidity and aerosol generators, and positive- and negative-pressure breathing devices. Knowledge of history as it relates to RC is essential to assimilating the numerous, technical facets of the field.
Prerequisite: Accepted into the Respiratory Care Program.

**RC 171  Respiratory Therapy Equipment II  (3)**
Course is designed to provide first-year RC students with a background on the principles and technologies of emergency airway management, tracheostomy management, non-invasive patient monitoring, bedside pulmonary function assessment, true volume measuring devices vs. pneumotachometer devices, and RC home medical equipment including patient comfort and compliance issues.
Prerequisite: RC 170 with a minimum grade of C.

**RC 172  Respiratory Therapy Equipment III  (4)**
Course will provide the principles and technologies for the student to assimilate and interrelate technical and physiological criteria for treating patients on mechanical ventilation (CMV). Students learn logical thinking required to troubleshoot ventilator problems in the ICU and utilize different types of ventilators to gain confidence, proficiency, and appreciate the level of sophistication to which modern ventilators have risen.
Prerequisite: RC 171.

**RC 175  Respiratory Care Orientation  (2)**
Course will provide application of the basic skills required for patient care. The students will learn essential body mechanics to avoid injury; infection control principles; required confidentiality information; legal and ethical principles; and an introduction to vital signs. Students will also complete CPR certification, HIV/AIDS certification for healthcare providers, and receive their program student handbooks.
Prerequisite: Accepted into the Respiratory Care Program.

**RC 178  Respiratory Therapy Clinical I  (3)**
Course is intended to prepare the third quarter Respiratory Care student to care for patients in the Intensive Care Unit. Topics covered will include the initiation and care of the patient receiving mechanical ventilation and special RC procedures. This class consists of a lab/clinical rotation.
Prerequisite: RC 180 with a minimum grade of C.

**RC 181  Respiratory Therapy Clinical II  (3)**
Course will continue to build on the clinical skills and knowledge base acquired in first quarter. The Respiratory Care student will be introduced to the critical care environment this quarter. Emphasis is placed on airway management, ECG's, arterial blood gases, non-invasive ventilation and CPAP. This class consists of a lab/clinical rotation.
Prerequisite: Accepted into the Respiratory Therapy Program.

**RC 182  Respiratory Therapy Clinical III  (3)**
Course is intended to prepare the beginning Respiratory Care student to perform basic respiratory therapeutic modalities in the hospital setting. Emphasis is placed on patient assessment techniques, oxygen therapy, and bronchial hygiene. This class consists of a lab/clinical rotation.
Prerequisite: Accepted into the Respiratory Care Program.

**RC 180  Respiratory Therapy Clinical I  (3)**
Course is designed to prepare the beginning Respiratory Care student to perform basic respiratory therapeutic modalities in the hospital setting. Emphasis is placed on patient assessment techniques, oxygen therapy, and bronchial hygiene. This class consists of a lab/clinical rotation.
Prerequisite: Accepted into the Respiratory Care Program.

**RC 183  Respiratory Therapy Clinical IV  (4)**
Course content will emphasize advanced mechanical ventilation applications including non-conventional approaches to patient management in both adult and the pediatric/neonatal settings.
Prerequisite: RC 152 with a minimum grade of C.

**RC 192  Advanced Mechanical Ventilation  (4)**
Course content will emphasize advanced mechanical ventilator applications including non-conventional approaches to patient management in both adult and the pediatric/neonatal settings.
Prerequisite: Accepted into the Respiratory Care Program.

**RC 193  Respiratory Pharmacology I  (1)**
This is the first in a series of three courses in pharmacology. General pharmacological principles, drug classification, computations, routes of delivery and respiratory medication are emphasized.
Prerequisite: Accepted into the Respiratory Care Program.

**RC 194  Respiratory Pharmacology II  (1)**
This is the second in a series of three courses in pharmacology dealing with principles of mucolytics, antiasthmatics, antimicrobials, anti-inflammatory agents, surface-active and special applications.
Prerequisite: RC 193 with a minimum grade of C.

**RC 195  Respiratory Pharmacology III  (1)**
This is the third in a series of three courses in pharmacology dealing with principles in cold and cough agents, neonatal/pediatric aerosolized drug therapy, diuretics, cardiovascular pharmacology and the drugs affecting the central nervous system.
Prerequisite: RC 194 with a minimum grade of C.

**RC 240  Advanced Assessment and Diagnosis  (3)**
Course will provide second year students with information necessary to care for the critically ill patient. Advanced assessment and diagnosis takes general knowledge learned in first year theory classes and further analyzes patient assessment values to help students make more informed decisions regarding interventions necessary to support the respiratory patient during stabilization and care.
Prerequisite: RC 153 with a minimum grade of C or equivalent.
Respiratory Therapy

**RC 251** Respiratory Pathophysiology Case Presentations (2)
Course is designed to provide students with an introduction into problem-based learning and evidenced-based medicine using pathophysiology cases. Included will be a comprehensive overview of the various disease processes, surgical procedures, and new respiratory therapy technology.
*Prerequisite: RC 162 with a minimum grade of C.*

**RC 261** Pediatric and Neonatal Respiratory Care (4)
Course will provide second year students with an overview of pediatric and neonatal diseases. The field of neonatology/pediatrics is highly dynamic and requires up to date knowledge of clinical and technical skills. A neonatal/pediatric RCP is expected to be able to perform as an integral part of the highly specialized health care team as well as develop critical thinking skills.
*Prerequisite: RC 162 with a minimum grade of C.*

**RC 262** Review of Applications of Respiratory Care (4)
Course will provide students with a review for the advanced level practitioner written and clinical simulation NBRC examinations. Included will be comprehensive overviews of all respiratory subject matter, including: Analysis of Date, Equipment, and Therapies.
*Prerequisite: RC 152 with a minimum grade of C or equivalent and RC 261 with a minimum grade of C or equivalent; or instructor permission.*

**RC 263** Pulmonary Functions (3)
Course will provide students with information necessary for understanding Pulmonary Function Testing, Exercise Testing, and their interpretations. Included will be a comprehensive overview of the subject matter in the form of lecture, small group discussion, or student presentations.
*Prerequisite: Accepted into the Respiratory Therapy Program.*

**RC 272** Pulmonary Rehabilitation, Home Care, and Assistance in Specialty Procedures (3)
Course will provide students with information about the alternate settings of pulmonary rehabilitation and home care.
*Prerequisite: Accepted into the Respiratory Therapy Program.*

**RC 280** RC Specialty Clinical I (4)
Course will prepare the second year Respiratory Care student to perform advanced respiratory therapeutic modalities in a variety of settings. Emphasis is placed on advanced assessment techniques and patient education. This class consists of a clinical rotation only. Students will be assigned to Tuesday, Wednesday, or Thursday clinical days.
*Prerequisite: RC 183 with a minimum grade of C.*

**RC 281** Advanced Critical Care Clinical Rotation (4)
Course will prepare the second year Respiratory Care student to perform advanced respiratory therapeutic modalities in a variety of settings. Emphasis is placed on advanced assessment techniques and patient education. This class consists of a clinical rotation only. Students will be assigned to Tuesday, Wednesday, or Thursday clinical days.
*Prerequisite: RC 280 with a minimum grade of C.*

**RC 282** Neonatal Clinical Rotation (2)
Course will prepare the second year Respiratory Care student to perform advanced respiratory therapeutic modalities in a neonatal intensive care setting. Emphasis is placed on patient assessment techniques. This class consists of a five-week clinical rotation.
*Prerequisite: RC 281 with a minimum grade of C.*

**RC 283** Specialty Clinical Rotation II (2)
Course is designed to prepare the second year Respiratory Care student as an expert respiratory care practitioner. This five-week rotation is the last clinical rotation before graduation; therefore, students are encouraged to do their final rotation at their desired place of employment. This class consists of a clinical rotation only.
*Prerequisite: RC 281 with a minimum grade of C.*

**RC 290** Ethics and Professionalism in Respiratory Care (2)
While providing care and delivering therapies, RCP’s must be continuously aware of the legal and ethical implications of the services they deliver and their actions while delivering them. This course will provide students with information necessary for understanding legal issues and for making ethical decisions in respiratory care.
*Prerequisite: Enrolled into the RC program.*

**RC 299** Individual Study in Respiratory Therapy (1)
Independent learning activity designed jointly by student and instructor to improve and/or increase the learner’s knowledge and skill.
*Prerequisite: Instructor permission.*
Science

SCI 105 Introductory Topics in Natural Science (5)
Concepts from multiple scientific fields (including biology, chemistry, physics, and the earth and space sciences) will be investigated through the in-depth exploration of an applied interdisciplinary topic. This course will provide introductory-level science students with an expansive understanding of scientific principles, methods, and techniques. Laboratories and field work included.
Prerequisite: ENGL/095 with a minimum grade of C or equivalent; and MATH 090 with a minimum grade of C (may be taken concurrently) or equivalent or MATH 093 with a minimum grade of C (may be taken concurrently) or equivalent.

SCI 110 Physical Science and Technology (5)
(FORMERLY PHYSN-100 and SCI-100) In this course students investigate the underlying physical principles and interactions in topics like motion, forces, energy, heat and temperature, and the structure and properties of matter; and how they are applied and used in technology. A hands-on, team oriented approach is used to develop conceptual reasoning, interrelationships between concept and application, and effective communication skills. Laboratory included.
Prerequisite: ENGL/095 with a minimum grade of C or equivalent; and either MATH 090 with a minimum grade of C or equivalent or MATH 093 with a minimum grade of C or equivalent.

SCI 294 Undergraduate Research in Science (1-5)
Students will work as a part of a team for the quarter to conduct research in the Natural Sciences. The course will involve either laboratory or field study depending on the project, evaluation of primary research papers relevant to the project, and presentation of project results.
Prerequisite: Instructor permission only.

Sociology

SOC 101 Introduction to Sociology (5)
(Formerly SOC-110) An introduction to the basic concepts and theories of sociology with an emphasis on the group aspects of human behavior. (multicultural content)
Prerequisite: ENGL/095 with a minimum grade of C or equivalent.

SOC 201 Social Problems (5)
(Formerly SOC-270) A macro-sociological approach to the study of social problems with special emphasis on the effects of institutional change in the economic, educational, family, political, religious, and other systems of contemporary human societies.
Prerequisite: ENGL/095 with a minimum grade of C or equivalent.

SOC 120 Introduction to Women’s Studies (5)
Introduction to the study of women, feminism, and theories of oppression and privilege, particularly with respect to gender, sexuality, race, class, and sexual orientation. Topics include systems of oppression, gender socialization, sexuality, violence, and social institutions such as family, health care, media, religion, legal systems, work and labor, and education. (multicultural content)
Prerequisite: ENGL 095 and READ 095 with a minimum grade of C or ENGL/095 with a minimum grade of C or assessment at college-level reading and writing.

SOC 205 Sociology of African Americans (5)
This course explores the socio-historical experiences of African Americans. We will investigate the social history of African Americans in the United States, oppression and the perpetuation of social inequality, current demographic trends, issues of race, class, gender, and family, and contemporary sociological issues of African Americans. We will also debate solutions to various social problems that are of particular concern to the black community. (multicultural course)
Prerequisite: ENGL & 101 with a minimum grade of C or concurrent enrollment.

SOC 222 Sociology of Sport (5)
Introduction to the sociological analysis of sport. There will be a particular emphasis on: race, class, gender, and sexuality issues within sport; socialization and interactions within sport; sport and education; deviance, crime, and violence in sport; the business and economics of sport. (multicultural course)
Prerequisite: ENGL & 101 with a minimum grade of C or concurrent enrollment.

SOC 238 Sociology of Latino Americans (5)
This course provides students with a critical overview of some of the central themes and issues that have shaped the experiences of Latina/o populations in the U.S. Topics this course will cover include: the history of the ?Hispanic? and ?Latino? ethnic labels; U.S.-Latin American relations; different issues faced by various ethnic communities; and the politics of language and bilingualism. Course materials will draw primarily from articles, books, and documentaries to discuss the ways in which Latin Americans influence U.S. society and culture. (multicultural course)
Prerequisite: ENGL & 101 with a minimum grade of C or concurrent enrollment.

SOC 247 Media, Politics and Society (5)
Takes a critical approach to the study of the production and consumption of mass media, focusing primarily on the United States. Examines the economic and social organization of mass media, the content of media messages, and the impact various media have on the public.
Prerequisite: ENGL & 101 with a minimum grade of C or concurrent enrollment.

SOC 262 Race and Ethnic Relations (5)
Builds upon and expands the students’ understanding of race and ethnic relations in American contemporary society. Focuses on how immigrant groups adapt to a new country, manifestations of racism and discrimination, as well as the economic and social progress of different ethnic groups. Explores how to alter patterns of racial and ethnic inequality through social movements and social policy. (multicultural course)
Prerequisite: ENGL & 101 with a minimum grade of C or concurrent enrollment.
Sociology

**SOC 265 Sociology of Asian Americans (5)**
This course explores the socio-historical experiences of Asian American groups. We will investigate the history of Asian immigration to the United States, discriminatory and anti-Asian legislation, factors influencing social inequality amongst Asian American ethnic groups, current demographic trends, issues of race, class, gender, and family, and contemporary sociological issues of Asian Americans. (multicultural course)
**Prerequisite:** ENGL& 101 with a minimum grade of C or concurrent enrollment.

**SOC 271 Introduction to the Sociology of Deviance and Social Control (5)**
Analysis of deviant behavior from the perspective of sociological theory and research. Emphasis is on developing a sociological understanding and critical analysis of social theory relating to deviant, criminal, and violent behavior in various societies.
**Prerequisite:** ENGL& 101 with a minimum grade of C or concurrent enrollment.

**SOC 295 Entrepreneurial and Innovative Mindset (5)**
This course is for students who want to learn more about innovation, entrepreneurship and launching a venture. The class will introduce the principles of an entrepreneurial mindset. The characteristics of the entrepreneurial mindset will be dissected and applied to the student’s own entrepreneurial potential. Additionally, students will examine needed technical skills including business, finance, marketing, legal issues, and social media. This course is the same as BUS 295.
**Prerequisite:** Instructor permission.

**SOC 299 Individual Study (1)**
A variable credit (1-5) course based on independent study contracted between an instructor and a student. The emphasis will be a research related project which will provide an opportunity for students to pursue in-depth in an area previously or concurrently covered in a college-level course.
**Prerequisite:** SOC& 101 with a minimum grade of B+ and instructor permission.

Spanish

**Spanish I (5)**
The basic tenets of communications including reading, writing, speaking, and listening are developed in a dynamic second language acquisition environment enhanced by technology. Grammar is used as a communication tool to express meaning as students take part in small group discussions, cultural investigation, and presentation. Authentic materials will be focused on in the class as well as assessment. Students should expect to be immersed in the language. English will be used at a minimum.
**Prerequisite:** ENGL 095 with a minimum grade of C or equivalent or instructor permission.

**Spanish II (5)**
(Formerly SPAN-102) SPAN&-122 is the second quarter of the first-year language sequence and continues to build on the skills acquired in SPAN&-121. (multicultural content)
**Prerequisite:** SPAN&-121 with a minimum grade of C or equivalent or instructor permission.

**Spanish III (5)**
(Formerly SPAN-103) SPAN&-123 is the third quarter of the first-year language sequence and continues to build on the skills acquired in SPAN&-122. (multicultural content)
**Prerequisite:** SPAN&-122 with a minimum grade of C or instructor permission.

**Independent Study in Spanish (1)**
A course where students can study more in-depth topics involving Spanish language. Often including readings in Spanish and Latin American literature. Topics will be selected by students, with instructor’s approval.
**Prerequisite:** SPAN& 123 or equivalent class and instructor permission.

Supervision & Mgmnt.

Please contact Invista Performance Solutions at 253.583.8867 for information.

**SMG 101 Effective Supervision (5)**
This course will provide participants with an overview of critical management and supervisory behaviors and strategies. Course content will include a review of the traditional approaches to managing people and the more current methodology of shared governance or participatory management. The intent is to enhance supervisory skills, to improve supervisory effectiveness, strengthen interpersonal workplace relationships, and improve organizational climate and productivity. This course will also review the various roles, responsibilities, and challenges facing first-line supervisors in today’s changing workplace environment.
**Prerequisite:** Instructor permission.

**SMG 120 Supervising the Problem Employee (0)**
This course provides various strategies for supervising or managing a problem employee. Course content emphasizes the importance of coaching, counseling, providing “performance-based feedback,” and implementing progressive discipline techniques to change behavior and improve performance. Participants will learn intervention techniques, and will use workplace employee problem scenarios to practice new skills.
**Prerequisite:** Instructor permission.

**SMG 201 Management Communications (3)**
Supervisors will learn to communicate more effectively to improve employee satisfaction and heighten employee retention. Course content includes analyzing and practicing basic communication principles and techniques, and will provide methods for overcoming obstacles to effective communication. Participants will also be introduced to effective listening techniques. Emphasis is on practical workplace application.
**Prerequisite:** Instructor permission.
Supervision & Mgmnt.

**SMG 261  Dynamics of Leadership  (3)**
This course compares and contrasts the role of leaders, managers, and front-line supervisors in an organization. Participants will examine the traits, qualities, skills, and workplace actions of effective supervisors and managers. Participants will self-assess their own leadership style, and evaluate their effectiveness after reviewing individual strengths and weaknesses.

Prerequisite: Instructor permission.

**SMG 264  Motivation and Productivity  (3)**
This course examines methodologies used in the workplace to obtain sustained peak performance from employees. Course content will review effective supervisory techniques and communication strategies. Participants will examine alternatives to “command-and-control” and “management-by-compliance” management approaches. The concepts of feedback and intrinsic (as opposed to extrinsic) rewards are emphasized as the foundation for a highly motivational work environment. Emphasis is on the role of the supervisor and the interaction between supervisor and the employee in building a highly motivational workforce.

Prerequisite: Instructor permission.

Writing Center

**WRITE 095  Tools for Reading and Writing  (2)**
An optional course designed to strengthen both reading and writing skills, and to increase success in ENGL-101 ALP. Students will work in small groups with coaching from an instructor.

Prerequisite: Assessment at or above ENGL 095 and READ 095 or ENGL/095, or completion of ENGL 086 and READ 085 with a minimum grade of C or ENGL/085 with a minimum grade of C or EAP 156 and EAP 159 with a minimum grade of C.

**WRITE 096  Writing Center Tutorials  (1)**
This is a laboratory course that offers students one-to-one tutorial help with assignments for classes where writing is required. No outside work is assigned. At least nine 50-minute tutorial sessions per quarter must be completed for credit. If there is space in the course, it can be added up to midterm with instructor permission. May be taken a total of four times and is graded as Satisfactory/Unsatisfactory.

**WRITE 140  Writing Center Tutor Practicum I  (2)**
Provides qualified students with training in assisting students in one-on-one tutorial sessions at the Writing & Tutoring center. Topics of study include writing and writing center theories, tutoring strategies, and responding to writing. Course includes regular tutor discussion group meetings and activities in Angel. Students may have the opportunity to apply tutoring skills in actual sessions and to earn the first level of International Tutoring Program Certification.

Prerequisite: ENGL 095 or ENGL/095 or instructor permission.

**WRITE 141  Writing Center Tutor Practicum II  (2)**
Provides qualified students with training and experience in assisting students in one-on-one tutorial sessions at the Writing & Tutoring Center. Topics of study include advanced tutoring topics such as working with at-risk students. Course includes regular tutor discussion group meetings and activities in Angel. Students will apply tutoring skills in actual sessions and have the opportunity to earn the second level of International Tutoring Program Certification.

Prerequisite: WRITE 140.

**WRITE 142  Writing Center Tutor Practicum III  (2)**
(Formerly WRITE-145) Provides qualified students with training and experience in assisting students in one-on-one and group tutorial sessions at the Writing & Tutoring Center. Includes the opportunity to hold a tutoring leadership role. Course includes regular tutor discussion group meetings and activities in Angel. Students will apply tutoring skills in actual sessions and have the opportunity to earn the third level of International Tutoring Program Certification.

Prerequisite: WRITE 141.
