

AUGUST 2025

THE TWO YEAR JOURNEY | A LOOK AT OUR STUDENT TRANSFER OUTCOMES

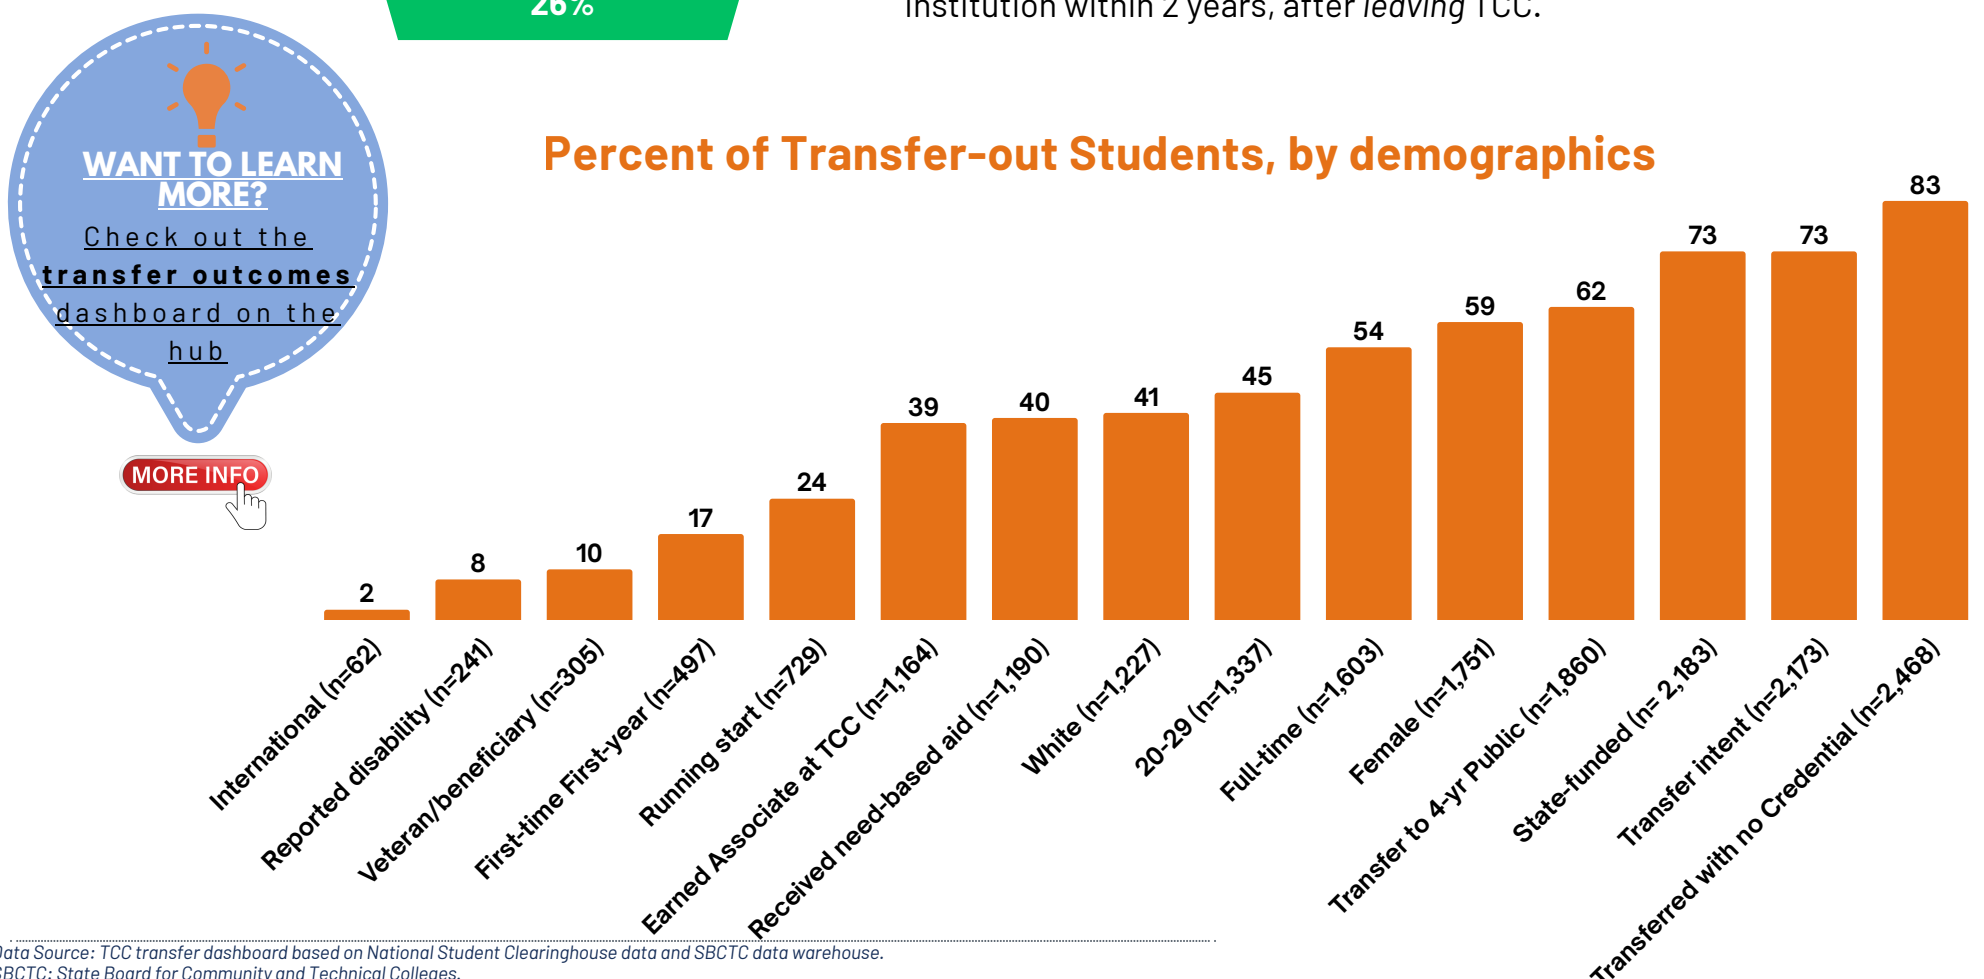

Student Outcomes Two Years After the Entering Year*

From Start to Transfer: The 2-Year Transfer Funnel*

Percent of Transfer-out Students, by demographics

Data Source: TCC transfer dashboard based on National Student Clearinghouse data and SBCTC data warehouse.
SBCTC: State Board for Community and Technical Colleges.
*The data is based on the most recent available data (2022-2023 Entering Cohort), unless stated otherwise.
The transfer outcomes are based on a two-year tracking period after the student cohort year at TCC. We understand that two years might be a very short time for community college students to transfer and earn a credential in the transfer institution and plan to expand the dashboard in the future.
Percentages may not add up to 100% due to rounding or because students can be in more than 1 category such as transferred and came back to TCC.

Check out the Institutional Research page on the TCC Hub for data available to all faculty and staff: **TCC HUB>Departments>President's Office>Institutional Research**. This newsletter and previous Measures that Matter newsletters are posted on the hub as well.
