Workforce Education Funding

- **Purpose of Grants:** Workforce Education Grants are not intended to cover the entire cost of a degree. They are designed to provide start-up and fill-in-gap assistance for specific needs related to education and training.
- **Case-by-Case Basis:** Funding assistance for tuition and required textbooks is provided on a case-by-case basis, contingent upon the availability of funds and the identification of a funding gap. This emphasizes that not all students may receive this assistance.
- **Quarterly Determination:** The allocation of funds for subsequent quarters is not guaranteed. Each quarter's funding is assessed independently, and students should not assume ongoing support beyond the current quarter.
- **Request for Funding:** To be considered for workforce funding, students must request funding for each quarter. This ensures that students actively communicate their needs and allows for a more flexible approach to disbursement.

Keep in mind

Grants : Grants do not have to be paid back, as long as you maintain satisfactory academic progress.

Scholarships: Scholarships do not have to be paid back, and are awarded for academic merit, financial need, athletic or artistic talent, community involvement and fields of study.

Federal or State Work-study: These programs provide an opportunity to earn a portion of your financial aid through part time employment, both on- and off-campus. Funds are very limited.

Loans: Loans must be repaid.

Note: Please be aware that the Workforce Education Grants are not designed to pay for entire degrees. Students who are eligible for Workforce Education Grants may get first-quarter funding assistance to cover tuition and/or required textbooks on a case-by-case basis if funds are available and a gap in funding is identified. Funding for subsequent quarters is determined on a quarter-by-quarter basis and is not guaranteed. If you would like to be considered for the Workforce funding you must request funding every quarter.
