WELCOME CLASS OF 2026!

Welcome to the 2026 Tacoma Community College Commencement! We're delighted you could join us on campus for the college's 60th celebration of our graduates.

Since our first nine TCC students graduated in 1966, our alumni have used their talents not only to build better lives for themselves and their families, but to strengthen our communities. I'm confident the Class of 2026 will continue that tradition, and I'm proud to live in a community that TCC graduates built — and are strengthening every day.

Graduates, we believe in you. We believe in your human intelligence, your agility, and your ability to learn and adapt. We believe in your hearts and your commitment to make this world a better place. As we move into a new era, the world needs you — not just to find a career and settle into a role in society, but to shape this new era. Until we find ourselves living in a just and humane society where all people can thrive and all their talents can shine, we must remain committed to the work of building it. I see that commitment in every one of you.

Class of 2026, your college community is always here to support you. We're so proud of what you've accomplished, and we can't wait to see what you do next.

We're rooting for you, Class of 2026. We are your TCC. And we're here for you.

Ivan L. Harrell, II., Ph.D.
TCC President

COMMENCEMENT SYMBOLISM

THE MACE AND THE MEDALLION

The Commencement Procession begins with the entrance of the Mace, a symbol of authority dating from medieval times. This year, Faculty Speaker Dr. John Falskow will present the Mace. The Mace is embossed with the College Seal, a symbol meant to be used only on formal occasions such as Commencement. The Roman numerals on the college seal, "MCMLXV," translate to 1965, the year the college was founded. The seal also includes a book and a lamp, symbols of learning.

The TCC Medallion, which also bears the college seal, is worn by TCC President, Ivan L. Harrell, II, Ph.D.

ACADEMIC REGALIA

Originally worn to classes by students and professors, academic regalia is now reserved for Commencement ceremonies. Different styles, colors, and textures of caps and gowns represent different degrees and fields of study. Faculty and staff participating in the Commencement procession wear the regalia representing the highest degree they have obtained.

GRADUATE REGALIA

Students graduating with certificates, high school diplomas, and associate degrees wear blue caps and gowns.

Students graduating with bachelor's degrees wear black caps and gowns.

CORDS AND STOLES

Honor cords, worn draped around the neck, are distributed to students who attain specific distinctions:

- High Honors: 3.70 or higher grade point average, double gold.
- Honors: 3.5 to 3.69 grade point average, single gold.
- Phi Theta Kappa International Honors Society: blue and gold.
- U.S. Military Veteran: red, white and blue.

Stoles, which are wide, flat pieces of fabric worn draped around the neck, may represent military or veteran status, cultural heritage, or membership in a club or community.

DR. JOHN FALSKOW
FACULTY SPEAKER

TCC Music Professor Dr. John Falskow was born and raised in Tacoma. He attended graduate school at Florida State University, then taught at Lander University in South Carolina before returning to accept a tenure-track position at Tacoma Community College in June of 2005.

“Most people in higher education, you go wherever the job is. The opportunity to come back home and do what I do is really special,” John said.

John got his start in music as a trumpet player. Currently he performs almost exclusively as an orchestra, symphonic band, and brass band conductor. He conducts the TCC Orchestra, the TCC Symphonic Band, and the Seattle Wind Symphony, as well as Brass Band Tacoma, which he also founded.

TCC students and community members play in TCC music ensembles, and some community members who join through TCC’s Continuing Education program have been performing with TCC for more than 20 years.

“It’s a cool thing about music here at TCC, that we can interface with the community so directly,” John said. “We’re a destination for people to come and be involved in the arts, not only as audience members, but also as ensemble participants.”

John also started TCC’s first digital music classes. Recently, he’s helped turn those classes into a Digital Music Specialization within TCC’s AA degree pathway. The degree was designed to give students key experiences in songwriting, audio engineering, recording arts, and performance, to help them decide on a specialty as they pursue a career in the music industry.

All students are welcome in TCC’s music classes. “We want to serve our community, and music can be a part of everybody’s life. It doesn’t have to be a career,” John said. “But it’s nice to be able to offer those students who do want to make music a career the training and discipline to develop practice habits, solid fundamental technique, as well as artistic expression. That’s important when you’re going into any aspect of the music industry, not just performance or teaching.”

CHRISTINA Y. NAKADA-ALM
STAFF SPEAKER

Christina Y. Nakada-Alm's work centers on creating spaces where students feel supported, connected, and able to navigate their next steps with confidence. She serves as Executive Director of the Center for Student Advocacy and Cultural Support (The Center), a role she has held for more than two years after joining TCC in 2018 as Entry Services Director.

Her commitment to community began on Onion Avenue in a small farming community in Eastern Oregon, where her parents instilled in Christina and her brothers the importance of service and hard work—values that continue to guide her work. She earned her undergraduate degree from Oregon State University and a Master of Science in Learning Technology, with an emphasis in Project Management, from the University of North Texas.

Christina discovered her path in higher education in 2009 while working at Oregon State University. "That was when my eyes were opened," she said. "I realized this is a profession—this is something people do."

That moment sparked a career focused on helping students and families navigate college with clarity, encouragement, and practical support. Over time, that work deepened into a commitment to creating consistent, reliable, and supportive experiences for students. As The Center evolves to meet student needs, she sees it as a resource grounded in care and connection. "I wanted to have a chance to provide that consistency and support that students rightfully deserve."

Today, Christina lives in Tacoma with her family, who are her greatest source of joy and her deepest grounding.

JADAYAH-KALIA SALAS
STUDENT SPEAKER

Civil Engineering program graduate and Student Commencement Speaker Jadayah-Kalia Salas is also a 2026 TCC Ellen Pinto Outstanding Student of the Year Finalist. After graduation, she plans to transfer, get her Bachelor of Science in Civil Engineering, and start working in the community as a transportation, infrastructure, or structural engineer.

An AP Honors student, Jadayah was set to go straight from high school to a four-year school when the pandemic changed the course of her life. It took her away from her community, and as a result she struggled to connect with her priorities. She credits TCC, and especially the MESA program, with helping her get back on track.

MESA helped Jadayah get an internship with the City of Tacoma in the spring and summer of 2024, and she loved the experience. Her project involved data analysis, but she also had the opportunity to job-shadow City engineers and learn about the interesting and varied projects they work on. That's when she decided she wanted to be a civil engineer.

In addition to her career path, Jadayah found community at TCC. She's co-chair of the Indigenous Students Club, a MESA student, and a MESA student cohort leader for BIPOC in STEM. Just as helpful as the internship were the small but important lessons MESA taught her, such as the value of staying to study, instead of going home right after school.

"A community can save you in ways you don't even realize," Jadayah said. "A classmate kept asking me to join MESA. She brought me along to the room downstairs where everyone studies, and said, 'sit here.' And I did, and it changed my life. I don't think I would have been able to get back on the trajectory I wanted without that simple gesture."

2025-2026 President's Medal Recipients

The President's Medal is the highest honor awarded to a graduating student at TCC. This recognition is presented to individuals who have demonstrated outstanding academic excellence, leadership, and perseverance. Recipients of the President's Medal represent the very best of TCC and embody the values that define our mission and spirit.

JONATHAN SEARS

Jonathan Sears earned a 3.99 GPA while completing his Computer Science degree at TCC. He surprised himself with this achievement because he has a history of PTSD due to combat service in the United States Air Force. After receiving an accurate diagnosis, Jonathan and his wife moved from Oklahoma to Tacoma in 2023.

Jonathan decided to study computer science at TCC, where he met other veterans and helped them access VA benefits they were entitled to but did not know how to obtain. He hopes to use his education to scale the capabilities of non-profit organizations helping veterans gain easier access to benefits they've earned.

As Jonathan continues to pursue his Bachelor's degree, he plans to apply what he's learned at TCC. Among the most important lessons has been the importance of self-care.

"I thought very little of myself," Jonathan said. "But as the stresses started piling up from school, I realized I needed to continue to make it a priority to take care of myself. If I hadn't been able to take care of myself, I wouldn't have been able to help people in the way that I wanted to."

SHASHA WU

TCC Nursing Program graduate Shasha Wu moved to the United States in 2011, landing in San Francisco. After working her way up from dishwasher to business owner, she relocated to Washington in 2018 and enrolled at TCC to pursue a dream she had carried for 26 years: becoming a healthcare professional-nurse.

While completing nursing prerequisites, she balanced work and a growing family. The pandemic forced her to pause her education, and when she returned to TCC in 2023 as an English language learner with interrupted schooling, she struggled through her initial exams. Still, she refused to give up.

Driven by the desire to set an example for her children and encouraged by faculty who never stopped believing in her, Shasha went on to excel in the nursing program. She credits TCC not only for helping her grow academically, but also for helping her regain confidence in herself and her future.

"My instructors gave me so much confidence to keep going in this pathway," Shasha said. "Especially with all the support I got during the nursing program, that's why I love TCC. That's why I chose to stay here."

Today, she works as a nurse tech at Harborview Medical Center in Seattle while preparing for a career in emergency and critical care nursing.

"It isn't about age or how long you've been away from school," Shasha said. "If you put your heart into something, you can do anything. That's what I'm doing right now."

Cheers to the Class of 2026!

We're celebrating graduates
of all ages and backgrounds
earning bachelor's degrees,
associate's degrees, diplomas
and certificates.

Tacoma Community College values diversity and is an Equal Opportunity Employer and Educator. Tacoma Community College provides equal opportunity in education and employment and recognizes its responsibility for investigation, resolution, implementation of corrective measures, and monitoring the educational environment and workplace to stop, remediate, and prevent discrimination on the basis of race, color, national origin, age, perceived or actual physical or mental disability, pregnancy, genetic information, gender identity, gender expression, sex, sexual orientation, marital status, creed, religion, veteran or military status, or use of a trained guide dog or service animal.

To this end, Tacoma Community College has enacted policies prohibiting discrimination against and harassment of members of these protected classes. Any individual found to be in violation of these policies will be subject to disciplinary action up to and including dismissal from the college or from employment. Prohibited sex discrimination includes sexual harassment (unwelcome sexual conduct of various types). Tacoma Community College provides reasonable accommodations for qualified students, employees, and applicants with disabilities in accordance with the Americans with Disabilities Act and Federal Rehabilitation Act.

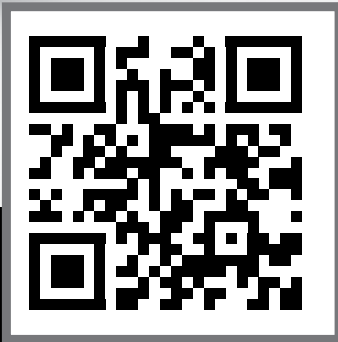

The following persons have been designated to handle inquiries regarding non-discrimination policies: Stephen Smith, Title VII and Title IX, Building 14, ssmith@tacomacc.edu, 253-566-5055; Kathryn Held, Section 504 Officer, Student Affairs Administrative Office, 253-566-5115.
