

Curriculum Summary

12/1/2016 - 12/31/2016

Note on new courses: All new CHP, CHPM, CHRC courses will not be added to the ctcLink course catalog until the program is approved by the State and CIP, EPC, and PLAN CODES are assigned

NEW COURSES

| COURSE | PROPOSAL TYPES | | EFF DATE | JUSTIFICATION | CHANGES |
|--|---|------------------------------|--------------|--|---------|
| | Min Credits | Min Hours | | | |
| CHP 300 Introduction to Community Health | Lecture: Lab: Clinical: | 5.00 55.00 0 0 | 2018 Fall | This courses is being offered as part of the new BAS degree in Community Health. This course fits in the program because it addresses a need identified by the DACUM study and input from the community. This course is part of the core course requirements that all Community Health students will be required to take. The demand for this course was determined by the needs surveys completed by members of the healthcare, community, and public health providers. | |
| CC Approval: 12/09/2016 | Field: Systems: Quarterly: | 0 0 5.00 | | | |
| | New Course Proposal | | | | |
| CHP 305 Community Health Advocacy | Lecture: Lab: Clinical: | 5.00 55.00 0 0 | 2018 Fall | This courses is being offered as part of the new BAS degree in Community Health. This course fits in the program because it addresses a need identified by the DACUM study and input from the community. This course is part of the core course requirements that all Community Health students will be required to take. The demand for this course was determined by the needs surveys completed by members of the healthcare, community, and public health providers. | |
| CC Approval: 12/09/2016 | Field: Systems: Quarterly: | 0 0 5.00 | | | |
| | New Course Proposal | | | | |
| CHP 310 Community Health Communications and Infomatics | Lecture: Lab: Clinical: Field: | 5.00 55.00 0 0 0 | 2018 Fall | This courses is being offered as part of the new BAS degree in Community Health. This course fits in the program because it addresses a need identified by the DACUM study and input from the community. This course is part of the core course requirements that all Community Health students will be required to take. The demand for this course was determined by the needs surveys completed by members of the healthcare, community, and public health providers. | |
| CC Approval: 12/09/2016 | Systems: Quarterly: | 0 5.00 | | | |
| | New Course Proposal | | | | |
| CHP 315 Health Policy, Law, and Ethics | Lecture: Lab: Clinical: | 5.00 55.00 0 0 | 2018 Fall | This courses is being offered as part of the new BAS degree in Community Health. This course fits in the program because it addresses a need identified by the DACUM study and input from the community. This course is part of the core course requirements that all Community Health students will be required to take. The demand for this course was determined by the needs surveys completed by members of the healthcare, community, and public health providers. | |
| CC Approval: 12/09/2016 | Field: Systems: Quarterly: | 0 0 5.00 | | | |
| | New Course Proposal | | | | |

| | | | | |
|---|---|--|--------------|--|
| CHP 320 Introduction to Epidemiology | Min Credits Lecture: 5.00 Lab: Clinical: Field: Systems: Quarterly: 5.00 New Course Proposal | Min Hours 55.00 0 0 0 0 | 2018 Fall | This courses is being offered as part of the new BAS degree in Community Health. This course fits in the program because it addresses a need identified by the DACUM study and input from the community. This course is part of the core course requirements that all Community Health students will be required to take. The demand for this course was determined by the needs surveys completed by members of the healthcare, community, and public health providers. |
| CHP 325 Population Health and Wellness | Min Credits Lecture: 5.00 Lab: Clinical: Field: Systems: Quarterly: 5.00 New Course Proposal | Min Hours 55.00 0 0 0 0 | 2018 Fall | This courses is being offered as part of the new BAS degree in Community Health. This course fits in the program because it addresses a need identified by the DACUM study and input from the community. This course is part of the core course requirements that all Community Health students will be required to take. The demand for this course was determined by the needs surveys completed by members of the healthcare, community, and public health providers. |
| CHP 330 Program Planning and Evaluation | Min Credits Lecture: 5.00 Lab: Clinical: Field: Systems: Quarterly: 5.00 New Course Proposal | Min Hours 55.00 0 0 0 0 | 2018 Fall | This courses is being offered as part of the new BAS degree in Community Health. This course fits in the program because it addresses a need identified by the DACUM study and input from the community. This course is part of the core course requirements that all Community Health students will be required to take. The demand for this course was determined by the needs surveys completed by members of the healthcare, community, and public health providers. |
| CHP 335 Healthcare Research & Statistics | Min Credits Lecture: 3.00 Lab: Clinical: Field: Systems: Quarterly: 3.00 New Course Proposal | Min Hours 33.00 0 0 0 0 | 2018 Fall | This courses is being offered as part of the new BAS degree in Community Health. This course fits in the program because it addresses a need identified by the DACUM study and input from the community. This course is part of the core course requirements that all Community Health students will be required to take. The demand for this course was determined by the needs surveys completed by members of the healthcare, community, and public health providers. |
| CHP 340 Disaster Preparedness | Min Credits Lecture: 5.00 Lab: Clinical: Field: Systems: Quarterly: 5.00 New Course Proposal | Min Hours 55.00 0 0 0 0 | 2018 Fall | This courses is being offered as part of the new BAS degree in Community Health. This course fits in the program because it addresses a need identified by the DACUM study and input from the community. This course is part of the core course requirements that all Community Health students will be required to take. The demand for this course was determined by the needs surveys completed by members of the healthcare, community, and public health providers. |

| | | | | |
|---|---------------------|-----------|--------------|--|
| CHP 400 Environmental Health | Min Credits | Min Hours | 2018 Fall | This courses is being offered as part of the new BAS degree in Community Health. This course fits in the program because it addresses a need identified by the DACUM study and input from the community. This course is part of the core course requirements that all Community Health students will be required to take. The demand for this course was determined by the needs surveys completed by members of the healthcare, community, and public health providers. |

REVISED COURSES

| COURSE | PROPOSAL TYPES | EFF DATE | JUSTIFICATION | CHANGES | |
|---|--|---|---------------|--|---|
| EMC 110 Emergency Medical Technician Basic | Min Credits Lecture: 9.00 Lab: 1.00 Clinical: Field: Systems: | Min Hours 99.00 22.00 0 0 0 | 2017 Spring | Changing pre-requisite to: MATH 075 with a minimum grade of C Or Accuplacer assessment exam showing placement in MATH 085 or higher, and Accuplacer assessment exam showing placement in ENG 085 or higher | |
| CC Approval: 12/09/2016 | Quarterly: 10.00 | | | | |
| | Major Course Modification v.2 | | | | |
| ENGR& 204 Electrical Circuits | Min Credits Lecture: 5.00 Lab: 1.00 Clinical: Field: Systems: | Min Hours 55.00 22.00 0 0 0 | 2017 Spring | The original course covered DC power, based on a UW Seattle course. Articulation to new local WSU and UW-T programs require adding AC material and an official lab component. | Need to add prerequisite: MATH 238 or concurrent enrollment in PHYS& 222 |
| CC Approval: 12/09/2016 | Quarterly: 6.00 | | | | |
| | Major Course Modification v.2 | | | | |
| HIT 254 HIT Capstone | Min Credits Lecture: Lab: | Min Hours 0 110.00 | 2017 Spring | We are removing the variable credit range now that we have transitioned onto the new curriculum for HIT. | Done: Updated credits in course catalog. |
| CC Approval: 12/09/2016 | Clinical: Field: Systems: Quarterly: 5.00 | 0 0 0 5.00 | | | |
| | Major Course Modification v.2 | | | | |
| HIT 255 HIT Professional Practice Experience | Min Credits Lecture: Lab: Clinical: Field: Systems: | Min Hours 0 22.00 132.00 0 0 | 2017 Spring | We are removing the variable credit range now that we have transitioned onto the new curriculum for HIT. | Done: Updated credits in course catalog. |
| CC Approval: 12/09/2016 | Quarterly: 5.00 | | | | |
| | Major Course Modification v.2 | | | | |

| | | | | | | |
|--|---|---------------------|--------------------------|----------------|---|--|
| LS 101 Introduction to Research | Lecture: | Min Credits 2.00 | Min Hours 22.00 | 2017 Spring | Mapping CLOs to new PLOs. | No update needed in ctcLink. |
| CC Approval: 12/09/2016 | Lab: Clinical: Field: Systems: Quarterly: | | 0 0 0 0 2.00 | | | |
| Major Course Modification v.2 | | | | | | |
| LS 102 Research for Writing in the Disciplines | Lecture: | Min Credits 2.00 | Min Hours 22.00 | 2017 Spring | Course name change to: LS 102 Research for Writing in the Disciplines At class level we would like to be able to focus on disciplines other than the Social Sciences. (The CLOs for this course do not specify the Social Sciences as a focus, so the CLOs remain unchanged.) In Fall 2017 we would like to teach LS 102 with a focus on Literary Criticism, for example. | Done: Updated course name and prerequisite. |
| CC Approval: 12/09/2016 | Lab: Clinical: Field: Systems: Quarterly: | | 0 0 0 0 2.00 | | -Catalog Course Description change: Change "social sciences" to "disciplinary" to reflect desired class-level changes as described above. Remove '200-level', because at class level, when the focus is on Literature, for example, there are few 200-level courses offered in any given quarter, opening up co-enrollment in ENGL 103, for example. -Addition of ENGL&101 pre-requisite: Whether LS 102 is taught as a social sciences focused class, or Literature, or hard sciences, students are asked to work at a slightly higher level than the LS 101 course, which can be taken concurrently with ENGL&101. In addition, when this course, at class level, is taught as a social sciences focus, students will be encouraged in the notes to take it with a 200-level social sciences course and most or all of those courses have a ENGL&101 pre-requisite. -Remove co-requisite: co-registered in a 200-level social sciences course: This information will be offered as a note at the class level each quarter encouraging students to take LS 102 with a "matching" 200-level disciplinary course as appropriate. | |
| Major Course Modification v.2 | | | | | | |
| LS 301 Research Skills for Healthcare | Lecture: | Min Credits 2.00 | Min Hours 22.00 | 2017 Fall | Mapping CLOs to library PLOs (already mapped to HIM PLOs, but the CLOs should be mapped to both). See attached file for remapping. | No update needed in ctcLink. |
| CC Approval: 12/09/2016 | Lab: Clinical: Field: Systems: Quarterly: | | 0 0 0 0 2.00 | | | |
| Major Course Modification v.2 | | | | | | |
